Natural Processes in Textile Art Alice Fox, 2024-03-14 More and more textile artists are using natural processes in their work from dyeing with rust to working with

found and scavenged items and this book is the first to bring these increasingly popular techniques together. It promotes a way of working creatively with what is close at hand whether gathered on walks by the seashore or collected in your garden and working in tune with natural processes bringing the rhythms and unpredictability of nature into your work. In all of this work, nature is directly harnessed to make its mark.
