Material Spirituality in Modernist Women's Writing Elizabeth Anderson, 2020-03-19 For Virginia Woolf H D Mary Butts and Gwendolyn Brooks things mobilise creativity traverse domestic public and rural spaces and stage the interaction between the sublime and the mundane Ordinary things are rendered extraordinary by their spiritual or emotional significance and yet their very ordinariness remains part of their value This book addresses the intersection of spirituality things and places both natural and built environments in the work of these four women modernists From the living pebbles in Mary Butts's memoir to the pencil sought in Woolf's urban pilgrimage in Street Haunting the Christmas decorations crafted by children in H D's autobiographical novel The Gift and Maud Martha's love of dandelions in Brooks's only novel things indicate spiritual

concerns in these writers work Elizabeth Anderson contributes to current debates around materiality vitalism and post secularism attending to both mainstream and heterodox spiritual expressions and connections between the two in modernism How we value our spaces and our world being one of the most pressing contemporary ethical and ecological concerns this volume contributes to the debate by arguing that a change in our attitude towards the environment will not come from a theory of renunciation but through attachment to and regard for material things Teaching for Christian Wisdom Samy Estafanos,2018-08-20 In many ways Christian education in the Presbyterian Church in Egypt was deeply influenced by public education in Egypt One of the negative consequences of such influence is the significant lack of developing and using critical thinking as a basic element of the process While multiple factors educational and theological contribute to forming it this problem manifests itself in many ways The present research deals with the lack of critical thinking as a central problematic reality of the Christian education process in the Presbyterian Church in Egypt In order to illuminate and address this problematic situation Richard Osmer s understanding of Christian education as practical theology is used to bring into dialogue American philosopher psychologist and educator John Dewey and reformer and theologian John Calvin In light of this dialogue not only the lack of critical thinking but also multiple other dimensions of the problematic situation of Christian education in the Presbyterian Church in Egypt are illuminated Lack of democracy lack of the use of experience lack of creative pedagogies lack of practical reason and lack of theology from the process are some of these dimensions Adapting Osmer s comprehensive approach to Christian education as practical theology Samy Estafanos proposes a holistic approach towards Christian education that aims at transforming education into a reconciling process **Psychedelic Immortality:**

Nietzschean Perspectives on Reincarnation, Femtheogens, and Philosophy Joseph I. Breidenstein Jr.,2025-09-02 Recent research has revealed a psychedelic inspiration for Nietzsche s philosophy and far from being a novelty in the history of philosophy there is significant evidence that several of the first western philosophers ingested psychedelics as well In his first book Joseph I Breidenstein Jr PhD maintained that western philosophy began as what we today would call a feminist religious reformation in the sense that many prominent presocratic philosophers were reviving a paleo neolithic goddess centered religiosity of rebirth within the largely patriarchal and death glorifying culture of archaic Greece And in this book Dr Breidenstein Jr proposes that the presocratics psychedelic reincarnationist feminine model of education and or worldview is better suited for democracy in the twenty first century than the economic model of education that takes the west s mainstream materialistic secular worldview for granted For several decades now researchers have acknowledged both that the empirical evidence for reincarnation is overwhelming and that psychedelics can evoke past life recollections but explanations for either reincarnation or how psychedelics do this have yet to be offered By combining Nietzsche s philosophy with the work of other thinkers Psychedelic Immortality both provides explanations for each of these phenomena and explores how situating education and democracy within the context of reincarnation can incite a renaissance of American

culture and politics For Nietzscheans and philosophers in particular this book illustrates the contemporary relevance of two neglected aspects of Nietzsche scholarship i e psychedelics and reincarnation and for researchers in such fields as feminist philosophy of religion ecotheology philosophy of education social political philosophy and eastern philosophy it offers a more plausible and healthier worldview in which to explore possibilities in their respective fields that are diminished by the mainstream paradigm For spiritual seekers of all paths it offers a conception of philosophy as a practice of awakening goddess consciousness that unfolds over the course of successive lifetimes [Fortress Commentary on the Bible](#) set Gale A. Pastors have a hard time helping people discern right and wrong because the church's theological language of sin and redemption have so little currency and even less cultural relevancy. How can pastors help people deal with their feelings of guilt, shame, and responsibility when most many people don't believe in sin and have a limited or flexible moral framework? People need help assessing moral alternatives, reconciling what they have done with what they think is right, recovering from burdens of guilt and shame, and imagining moral options to serve the common good. It is the call of pastors, chaplains, and other spiritual caregivers to help people move from moral injury to pardon and eventually to sustained recovery and resilience. In essence, this book will help pastors reclaim their pastoral tasks of soul care and moral guidance without succumbing to the temptation of moralizing. Using vivid examples, the author will look at how various religious communities seek to promote and achieve personal wholeness and realize the common good. This understanding will inform pastors so that they can help their congregants and communities become vital agents in a sea of often conflicting moral voices. The book will provide resources for identifying core assets and how to assess the various codes and moral claims interacting within the kaleidoscopic climate in which we live. Drawing upon neuroscience, narrative spirituality, and collaborative communal engagement, the author gives tools to aid pastors, chaplains, and spiritual caregivers ameliorate the distress caused by dissonance and resulting in moral injury. The book will also provide resources for helping people bear the burdens of moral responsibility and for navigating the sometimes unbearable consequences of particular moral actions. The author concludes with suggestions for helping people suffering from injury to their integrity from misdeeds they endure either as a result of their own actions or from those actions of others move toward sustained resilience and more mature moral imagination. There is no better guide or collaborative partner for navigating the moral territory of post-traumatic living than Larry Graham. In *Moral Injury: Restoring Wounds, Souls*, Graham sounds a clarion call for religious leaders to cultivate habits of mind and body to meet the complex situations of our day. Rather than offering a bird's-eye view of the moral terrain, Graham invites readers to feel the earth under their feet and attune themselves to the climate of their moral environments. With his careful definitional work and theological acumen, he revivifies theological ethics for progressive Christians. And beyond this audience, Graham displays the importance of theology in contemporary discussions of moral injury. Shelly Rambo, Associate Professor of Theology, Boston University School of Theology. Larry Graham has created an extraordinary workbook for moral resiliency and healing. He restores hope for the excruciating pains of a broken conscience. A treasure house of timely and practical applications sure to enrich pastoral conversations. Paul W. Dodd, Chaplain, Colonel, U.S. Army Retired. This book is a must-read if we care about recovery from moral injury not just in the wake of immediate trauma but also in historical legacies that haunt us. Larry Graham illuminates how questions of God can be addressed in that process with grace and compassion, and he shows, via the experiences of people from a variety of cultures and faiths, how moral injury can be healed. Homiletical Theology David Schnasa Jacobsen, 2015-02-13 Karl Barth famously argued that all theology is sermon preparation But what if all sermon preparation is actually theology This book pursues a thoroughgoing theological vision for the practice of preaching as a way of doing theology The idea is not just that homiletics is the realm of theological application That would leave preaching in the position of simply implementing a theology already arrived at Instead the vision in these pages is of a form of theology that begins with preaching itself its practice its theories and its contexts Homiletical theology is thus a unique way of doing theology even a constructive theological task in its own right Homiletician David Schnasa Jacobsen has assembled several of the leading lights of contemporary homiletics to help to see its task ever more deeply as theological yet in profoundly diverse ways Along the way readers will not only discover how homileticians do theology homiletically but will deepen the way in which they understand their own preaching as a theological task

Jorgenson, Kristen E. Kvam, 2022-05-20 The title of this book plays upon the central place a theology of the cross holds in Lutheran theologies especially lucid in Luther s Heidelberg Disputation 1518

The 500th anniversary of this document coincided with the 70th anniversary of the Declaration of Human Rights by the United Nations wherein the preamble points to a global aspiration of a common good shaped by freedom justice and peace This book is located at the intersection of these two themes asserting that the cross has material content in being the means by which Christ in suffering solidarity with individuals communities and the cosmos advances freedom justice and peace Employing a variety of methods and exploring a broad range of geographic locales the contributors illumine the misuse of Reformation themes and offer a corrective in service of a common good that is publicly accountable and theologically sound The book thereby explores how contemporary Lutheran theology has utility both for analyzing injustice and for advancing justice in local as well as global contexts Preaching the Manifold Grace of God, Volume 2 Ronald J. Allen, 2022-07-05

Preaching the Manifold Grace of God is a two volume work describing theologies of preaching from the historical and contemporary periods Volume 1 focuses on historical theological families Orthodox Roman Catholic Lutheran Reformed Anabaptist Anglican Episcopal Wesleyan Baptist African American Stone Campbell Friends and Pentecostal Volume 2 focuses on families that are evangelical liberal neo orthodox postliberal existential radical orthodox deconstructionist Black liberation womanist Latinx liberation Mujerista Asian American Asian American feminist LGBTQAI Indigenous postcolonial and process In each case the author describes the circumstances in which the theological family emerged describes the purposes and characteristics of preaching from that perspective and assesses the strengths and limitations of the approach Body Parts Michelle Voss Roberts, 2017-12-01

Christians have traditionally claimed that humans are created in the image of God imago Dei but they have consistently defined that image in ways that exclude people from full humanity The most well known definition locates the image in the rational soul which is constructed in such a way that women children and many persons with disabilities are found deficient Body Parts claims the importance of embodiment difference and limitation not only as descriptions of the human condition but also as part of the imago Dei itself
