Creationism and Its Critics in Antiquity David Sedley, 2008-01-16 The world is configured in ways that seem systematically hospitable to life forms especially the human race Is this the outcome of divine planning or simply of the laws of physics Ancient Greeks and Romans famously disagreed on whether the cosmos was the product of design or accident In this book David Sedley examines this question and illuminates new historical perspectives on the pantheon of thinkers who laid the foundations of Western philosophy and science Versions of what we call the creationist option were widely favored by the major thinkers of classical antiquity including Plato whose ideas on the subject prepared the ground for Aristotle s celebrated teleology But Aristotle aligned himself with the anti creationist lobby whose most militant members the atomists sought to show how a world just like ours would form inevitably by sheer accident given only the infinity of space and matter This stimulating study explores seven major thinkers and philosophical movements enmeshed in the debate Anaxagoras Empedocles Socrates Plato the atomists Aristotle and the Stoics Creationism David Keith Shurtleff, 1986
