**Consolidating the Third Wave Democracies** Larry Diamond,1997-08-13 An in depth analysis of the struggle to consolidate new and fragile democracies available two paperback volumes for course use The global trend that Samuel P Huntington has dubbed

the third wave of democratization has seen more than 60 countries experience democratic transitions since 1974. While these countries have succeeded in bringing down authoritarian regimes and replacing them with freely elected governments, few of them can as yet be considered stable democracies. Most remain engaged in the struggle to consolidate their new and fragile democratic institutions. *Consolidating the Third Wave Democracies* provides an in-depth analysis of the challenges that they face. *Consolidating the Third Wave Democracies* is available in two paperback volumes, each introduced by the editors and organized for convenient course use. The first paperback volume, *Themes and Perspectives*, addresses issues of institutional design, civil-military relations, civil society, and economic development. It brings together some of the world's foremost scholars of democratization, including Robert A. Dahl, Samuel P. Huntington, Juan J. Linz, Guillermo O'Donnell, Adam Przeworski, Philippe C. Schmitter, and Alfred Stepan. The second paperback volume, *Regional Challenges*, focuses on developments in Southern Europe, Latin America, Russia, and East Asia, particularly Taiwan and China. It contains essays by leading regional experts, including Yun-han Chu, P. Nikiforos Diamandouros, Thomas B. Gold, Michael McFaul, Andrew J. Nathan, and Hung-mao Tien.

**Building Democracy in Contemporary Russia** Sarah L. Henderson, 2018-07-05. Can foreign donors help build new democracies? In the 1990s, public and private organizations such as USAID and the Soros Foundation poured huge amounts of money and expertise into Russia to help build the dream of a vibrant democratic society. Sarah L. Henderson argues that despite the altruistic intentions of foreign assistance agencies and domestic activists, foreign aid designed to spur civic growth has had unintended consequences. Drawing on extensive fieldwork, survey research, and work experience for several funding agencies in Moscow in the late 1990s, Henderson focuses on donor efforts to support the emerging community of nongovernmental organizations and, in particular, on efforts to build a functioning women's movement in Russia. Her intimate knowledge of Russia's growing NGO community informs a worrisome finding: foreign aid has made a tremendous difference, but not in altogether expected or positive ways. New Russian civic groups serve either the needs of an indigenous clientele or the demands of the foreign aid bureaucracy, but rarely both. Henderson's research and experience show that while aid has kept a fledgling civic community alive, it is a civic community that is disconnected from its own domestic audience. The book suggests that large flows of foreign aid have in some ways damaged the long-term prospects for democratization in Russia.

**Democratisation of Myanmar** Nehginpao Kipgen, 2021-09-30. On February 1, 2021, Myanmar's military coup abruptly ended a decade of a civilian-military hybrid regime, a massive setback for the democratisation process. Citizens from all walks of life took to the streets, and protests erupted over the following weeks, and Myanmar became the centre of global attention. This book brings up to date how the story of Myanmar's experiment with democracy unravelled over the last few years. This second edition traces the political transition of Myanmar from a military rule of nearly five decades to a short-lived democratic experiment. It outlines the factors that contributed to this transition and the circumstances in which it took place. It shows how political groups, especially Aung San Suu Kyi's National League for Democracy (NLD) and the

military worked together and paved the way for democratisation and what led to the failure of the NLD government  
Examines the 2020 general election and the declaration of national emergency following the NLD landslide electoral win  
Bringing together a balance of primary ethnographic fieldwork and nuanced analysis this book will be of great interest to scholars and researchers of Asian and Southeast Asian Studies politics and political processes democratisation process and democratic transitions international relations and peace and conflict studies especially those concerned with Myanmar

Democratization and Democracy in South Korea, 1960–Present Hyug Baeg Im, 2020-08-14 This book analyses democratization and democracy in South Korea since 1960 The book starts with an analysis of the distinctive characteristics of bureaucratic authoritarianism and how democratic transition had been possible after inconclusive and protracted tug of

war between authoritarian regime and democratic opposition. It then goes on to explore what the opportunities and constraints to the new democracy are to be a consolidated democracy, how new democracy had changed the industrial relations in the post transition period, how premodern political culture such as Confucian patrimonialism and familism had obstructed democratic consolidation and the improvement of quality of democracy. The author compares empirically from the perspective of a comparative political scientist, political regime superiority of democracy over authoritarianism with regard to economic development. He concludes that democratic incompetence theory has been proven wrong and in South Korea democracy has performed better than authoritarian regimes in terms of economic growth with equity employment, distribution of income, trade balance and inflation. This book will benefit political scientists, development economists, labor economists, religious sociologists, military sociologists and historians focusing on East Asian history.

**The Irregular Pendulum of Democracy** Dimitri A. Sotiropoulos, 2023-04-30. This book argues that the backsliding or stagnation of democracy should be interpreted in a wider perspective on irregular movements towards and away from contemporary liberal democracy. This is a perspective couched by a metaphor, namely the pendulum of democracy, which the author has constructed to suggest that democratic regimes may swing between a democratic end, fully developed liberal democracy and a semi authoritarian end, competitive authoritarianism. The pendulum does not have a predictable frequency. Democratization may lead to irregular movements back and forth. It is easier to analyze such movements of the pendulum when democracy is not consolidated yet. For instance, in the three post Yugoslav political regimes mentioned above, as democratic institutions and processes are not yet stable. For this reason, this book analyses the swing of unconsolidated democracy away from the democratic end, in the cases of today's Serbia and Montenegro and the swing back towards liberal democracy in the case of North Macedonia, which until 2017 had been developing into a competitive authoritarian regime but then embarked on the road to democratic recovery.

**Stabilising Fragile Democracies** Paul Lewis, Geoffrey Pridham, 2002-11. The first book to provide a systematic comparison of the democratic transitions in both Eastern and Southern Europe, covering Italy, Spain, Greece, Portugal, Hungary, Romania, Poland and Bulgaria.

**Challenges of Democracy in the 21st Century** Luca Tomini, Giulia Sandri, 2018-05-08. The effectiveness and capacity of survival of democratic regimes has been recently and widely questioned in the public and political debate. Both democratic institutions and political actors are increasingly confronted with rapid economic and societal transformations that, at least according to some observers and commentators, they do not seem to be ready or equipped to manage effectively. This book evaluates and challenges recent scholarly literature on the quality of democracy. It provides a critical assessment of the current state of the studies on the subject, identifying the key questions and discussing open issues, alternative approaches, problems and future developments. Bringing together some of the most prominent and distinguished scholars who have developed and discussed the topic of the quality of democracy during the last decade, it deals with a highly relevant topic in political science and an extremely sensitive subject for our

democratic societies This text will be of key interest to scholars of democracy and democratization and more broadly to comparative politics electoral studies political theory power and comparative political institutions

**Electing to Fight** Edward D. Mansfield, Jack Snyder, 2007-01-26 Does the spread of democracy really contribute to international peace Successive U S administrations have justified various policies intended to promote democracy not only by arguing that democracy is intrinsically good but by pointing to a wide range of research concluding that democracies rarely if ever go to war with one another To promote democracy the United States has provided economic assistance political support and technical advice to emerging democracies in Eastern and Central Europe and it has attempted to remove undemocratic regimes through political pressure economic sanctions and military force In *Electing to Fight* Edward Mansfield and Jack Snyder challenge the widely accepted basis of these policies by arguing that states in the early phases of transitions to democracy are more likely than other states to become involved in war Drawing on both qualitative and quantitative analysis Mansfield and Snyder show that emerging democracies with weak political institutions are especially likely to go to war Leaders of these countries attempt to rally support by invoking external threats and resorting to belligerent nationalist rhetoric Mansfield and Snyder point to this pattern in cases ranging from revolutionary France to contemporary Russia Because the risk of a state's being involved in violent conflict is high until democracy is fully consolidated Mansfield and Snyder argue the best way to promote democracy is to begin by building the institutions that democracy requires such as the rule of law and only then encouraging mass political participation and elections Readers will find this argument particularly relevant to prevailing concerns about the transitional government in Iraq *Electing to Fight* also calls into question the wisdom of urging early elections elsewhere in the Islamic world and in China

**The Dynamics of Democratization** Geoffrey Pridham, 2001-01-01 A systematic comparison of three cases of democratization and regime transformation in Europe since 1945 this book highlights diversities of historical context

Globalization Howard J. Wiarda, 2007 The definitive volume on globalization from a comparative politics perspective
