**The Discovery of the Fact** Clifford Ando,William P. Sullivan,2020-08-14 *The Discovery of the Fact* draws on expertise from lawyers historians of philosophy and scholars of classical studies and ancient history to take a very modern perspective on an underexplored but essential domain of ancient legal history Everyone is familiar with courts as adjudicators of facts But legal institutions also played an essential role in the emergence of the notion of the fact and contributed in a vital way to commonplace understandings of what is knowable and what is not These issues have a particular importance in ancient Greece and Rome the first western societies in which state law and state institutions of dispute resolution visibly play a decisive role in ordinary social and economic relations *The Discovery of the Fact* investigates historically and comparatively the relationships among the law legal institutions and the boundaries of knowledge in classical Greece and Rome Societies wanted citizens to conform to the law but how could this be insured On what foundation did ancient courts and institutions base their decisions and how did they represent the reasoning behind their decisions when announcing them Slaves were owned like things and yet they had minds that ancients conceded were essentially unknowable What was to be done And where has the boundary been drawn between questions of law and questions of fact when designing processes of dispute resolution

tradition in every period of its existence      **Wandering Greeks** Robert Garland,2016-09-13 Most classical authors and modern historians depict the ancient Greek world as essentially stable and even static once the so called colonization movement came to an end But Robert Garland argues that the Greeks were highly mobile that their movement was essential to the survival success and sheer sustainability of their society and that this wandering became a defining characteristic of their culture Addressing a neglected but essential subject Wandering Greeks focuses on the diaspora of tens of thousands of people between about 700 and 325 BCE demonstrating the degree to which Greeks were liable to be forced to leave their homes due to political upheaval oppression poverty warfare or simply a desire to better themselves Attempting to enter into the mind set of these wanderers the book provides an insightful and sympathetic account of what it meant for ancient Greeks to part from everyone and everything they held dear to start a new life elsewhere or even to become homeless living on the open road or on the high seas with no end to their journey in sight Each chapter identifies a specific kind of wanderer including the overseas settler the deportee the evacuee the asylum seeker the fugitive the economic migrant and the itinerant and the book also addresses repatriation and the idea of the portable polis The result is a vivid and unique portrait of ancient Greece as a culture of displaced persons      *Thucydides* Thucydides,2013-03-28 A new translation of Thucydides a foundational text in the history of Western political thought with extensive student reference material      **Greek Mercenaries** Matthew Trundle,2004-09-09 Greek Mercenaries is an analysis of the political social and economic aspects of classical Greek mercenary service      *The Many Faces of War in the Ancient World* Graham Wrightson,Sabine Müller,2015-09-10 This volume on different aspects of warfare and its political implications in the ancient world brings together the works of both established and younger scholars working on a historical period that stretches from the archaic period of Greece to the late Roman Empire With its focus on cultural and social history it presents an overview of several current issues concerning the new military history The book contains papers that can be conveniently divided into three parts Part I is composed of three papers primarily concerned with archaic and classical Greece though the third covers a wide range and relates the experience of the ancient Greeks to that of soldiers in the modern world one might even argue that the comparison works in reverse Part II comprises five papers on warfare in the age of Alexander the Great and on its reception early in the Hellenistic period These demonstrate that the study of Alexander as a military figure is hardly a well worn theme but rather in its relative infancy whether the approach is the tried and true and wrongly disparaged method of Quellenforschung or that of experiencing war something that has recently come into fashion Part III offers three papers on war in the time of Imperial Rome particularly on the fringes of the Empire Covering a wide chronological span Greek Macedonian and Roman cultures and various topics this volume shows the importance and actuality of research on the history of war and the diversity of the approaches to this task as well as the different angles from which it can be analysed

**The Treatment of the War Dead in Archaic Athens** Cezary Kucewicz,2020-12-10 Exploring the representations of the

war dead in early Greek mythology particularly the Homeric poems and the Epic Cycle alongside iconographic images on black figure pottery and the evidence of funerary monuments adorning the graves of early Athenian elites this book provides much needed insight into the customs associated with the war dead in Archaic Athens It is demonstrated that this period had remarkably little in common with the much celebrated institutions of the Classical era standing in fact much closer to the hierarchical ideals enshrined in the epics of Homer and early mythology While the public burial of the war dead in Classical Athens has traditionally been a subject of much scholarly interest and the origins of the procedures described by Thucydides as *patrios nomos* are still a matter of some debate far less attention has been devoted to the Athenian war dead of the preceding era This book aims to redress the imbalance in modern scholarship and put the spotlight on the Athenian war dead of the Archaic period In addition the book deepens our understanding of the processes which led to the establishment of first public burials and the Classical customs of *patrios nomos* shedding significant light on the military cultural and social history of Archaic Athens Challenging previous assumptions and bringing new material to the table the book proposes a number of new ways to investigate a period where many ancestral customs were thought to have their roots

**Roots of Ancient Greek Civilization** Harald Haarmann, 2014-09-17 Contrary to a prevalent belief of the Western world that democracy agriculture theater and the arts were the attainments of Classical Greek civilization these were actually a Bronze Age fusion of earlier European concepts and Hellenic ingenuity This work considers both the multicultural wellspring from which these ideas flowed and their ready assimilation by the Greeks who embraced these hallmarks of civilization and refined them to the level of sophistication that defines classical antiquity

*The World from 1000 BCE to 300 CE* Stanley Mayer Burstein, 2017 This book provides the first comprehensive history of Afro Eurasia during the first millennium BCE and the beginning of the first millennium CE The history of these 1300 plus years can be summed up in one word connectivity The growth in connectivity during this period was marked by increasing political economic and cultural interaction throughout the region and the replacement of the numerous political and cultural entities by a handful of great empires at the end of the period In the process local cultural traditions were replaced by great traditions rooted in lingua francas and spread by formalized educational systems This process began with the collapse of the Bronze Age empires in the east and west widespread population movements and almost chronic warfare throughout Afro Eurasia while the cavalry revolution transformed the nomads of the central Asian steppes into founders of tribal confederations assembled by charismatic leaders and covering huge territories At the same time new artistic and intellectual movements appeared including the teachings of Socrates Confucius the Buddha and Laozi Increased literacy also allowed people from a wide range

of social classes such as the Greek soldier Xenophon the Indian Buddhist emperor Ashoka the Roman emperor Marcus Aurelius and elite women such as the poetess Sappho the Christian martyr Perpetua and the scholar Ban Zhao to create literary works When the period ended in 300 CE conditions had changed dramatically Temperate Afro Eurasia from the Atlantic to the Pacific was dominated by a handful of empires Rome Sassanid Persia and Jin Empire that ruled more than half the world s population while an extensive network of trade routes bound them to Southeast and Central Asia and Sub Saharan Africa and made possible the spread of new book based religions including Christianity Manichaeism Zoroastrianism and Buddhism thereby setting the stage for the next millennium of Afro Eurasian history
