## **Democracy And New Media Media In Transition:**

*New Media and Politics* Barrie Axford, Richard Huggins, 2001-01-26 Exploring the theme of the putative transformation of political modernity under the impact of new media this book adopts a questioning approach to the ways in which cultural and technological factors are affecting the temper of political life and reflects the variety of normative thinking about and empirical research on the changing character of politics in mediatized cultures *New Media and Politics* examines the extent to which commercial populism now dominates electoral and other political discourses the ways in which the functions of leadership government and political parties are modified by different forms of both old and new media the democratic or undemocratic import of such changes and the ways in which the dominant territorial paradigm of politics is challenged by the space and time devouring capacities of electronic media

**The Media in Transitional Democracies** Katrin Voltmer, 2013-07-10 The last quarter of a century has seen an unprecedented wave of democratization around the globe In these transitions from authoritarian rule to a more democratic order the media have played a key role both by facilitating but frequently also inhibiting democratic practices to take root This book provides an accessible and systematic introduction to the media in transitional democracies It analyses the problems that occur when transforming the media into independent institutions that are able to inform citizens and hold governments to account The book covers the following topics normative conceptions of media and democracy the role of the past in the transition process the internet as a new space for democratic change the persistence of political interference in emerging democracies the interlocking power of media markets and political ownership the challenges to journalistic professionalism in post authoritarian contexts the role of the media in divided societies The book takes a global view by exploring the interplay of political and media transitions in different pathways of democratization that have taken place in Eastern Europe Latin America Africa and Asia It will be of interest to advanced students and scholars who want a better understanding of the media outside established Western democracies The book will also be of great value to policymakers and activists who are involved in strengthening the media in transitional democracies

**Saving Democracy** Gerry Stoker, Mark Evans, 2022-04-21 Democracy is in crisis Is there still time to save it Democracies face external threat from aggressive authoritarian states Internally citizens have grown increasingly distrustful of politicians and more cynical about national and global governance institutions The time is ripe for democracy to renew itself This text offers a state of the art overview of democratic innovations today moving beyond cries of the death or end of democracy to instead offer a range of practical solutions for how to save it and restore faith in democratic practice Old democratic power represented by existing structures is being challenged New power involves collaboration and rapid feedback loops as well as increased citizen participation The future of democracy the authors demonstrate will be about findings ways of melding old and new power practices Offering a broad and accessible survey of what different forms of democracy and democratic innovations look like today and how they can develop in future *Saving Democracy* shows us the

potential for transformation across the entire democratic process. Avoiding a reductive focus on simply getting citizens more involved in decision making, this book uniquely argues for the importance of refining and monitoring how democratic decisions are made and followed through. **Media and Democratic Transition in South Korea** Ki-Sung

Kwak, 2012-07-26 Since South Korea achieved partial democracy in 1987, the country has moved away from authoritarian political control. However, after two decades of democratic transition, South Korea still does not have a strong liberal individualist culture, something that has brought about a wide range of scholarly discussion on the nature of democracy practised in this dynamic country. While the political changes in South Korea have received rigorous attention from Western scholars, less attention has been given to the changing nature and role of media in this and other such transitions. This book focuses on the changing role of media in the more democratised political landscape of South Korea. It thereby contributes to debates about the emerging role of the media in democratic transition, especially in relation to approaches that go beyond traditional Western constructs of media freedom and the relationship between the state and the media. In addition, it discusses the complex interacting forces that affect the role of the media and their implications for state control and democratisation. *The Rational Politician: Exploiting the Media in New Democracies* Andrew Milton, 2024-11-01 This title was first published in 2000. An examination of the way in which post-communist political actors have persisted in exploiting, controlling and manipulating the media in spite of rhetorical commitments to freer and more independent media.

**Democratization and the Media** Vicky Randall, 2013-01-11 Mass communications media play a potentially crucial role both in democratization and in ensuring democracy's survival. The essays in this volume analyse differing aspects of the complex relationship between the media and democracy in a diverse range of national contexts. **The Digital Origins of Dictatorship and Democracy** Philip N. Howard, 2010-09-21 Around the developing world, political leaders face a dilemma: the very information and communication technologies that boost economic fortunes also undermine power structures. Globally, one in ten internet users is a Muslim living in a populous Muslim community. In these countries, young people are developing political identities online, and digital technologies are helping civil society build systems of political communication independent of the state and beyond easy manipulation by cultural or religious elites. With unique data on patterns of media ownership and technology use, *The Digital Origins of Dictatorship and Democracy* demonstrates how, since the mid-1990s, information technologies have had a role in political transformation. Democratic revolutions are not caused by new information technologies. But in the Muslim world, democratization is no longer possible without them. *New Media Influence on Social and Political Change in Africa* Olorunnisola, Anthony A., 2013-06-30 While transitioning from autocracy to democracy, media in Africa has always played an important role in democratic and non-democratic states, focusing on politicians, diplomats, activists and others who work towards political transformations. *New Media Influence on Social and Political Change in Africa* addresses the development of new mass media and communication tools and its influence on social

and political change While analyzing democratic transitions and cultures with a theoretical perspective this book also presents case studies and national experiences for media new media and democracy scholars and practitioners

**Media and Democracy in Africa** Michael Leslie, 2017-07-05 Recent discussion of democratization in Africa has focused primarily on the reform of formal state institutions the public service the judiciary and the legislature Similarly both scholars and activists have shown interest in how associational life and with it a civil society might be enhanced in the countries of the African continent Much less concern however has been directed to the communications media although they form a vital part of this process Media and Democracy in Africa provides the first comprehensive and up to date assessment of the role of the media in political change in sub Saharan Africa The central argument of the volume is that while the media may still be relatively weak compared to their positions in liberal democracies they have come to play a much more important role than ever before since independence Although they have not yet demonstrated sufficient effectiveness as public watchdogs and agenda setters they have succeeded in creating new communicative spaces for people who have previously been intimidated or silent Building on this the contributors argue that a different conceptualization of democratization than the mainstream currently uses may be necessary to capture the process in Africa where it is characterized by contestation rather than consolidation This volume shows that the media scene in Africa is diverse It stretches from the well developed and technologically advanced situation in South Africa to the still fledgling media operations that are typical in sub Saharan Africa In these countries print media as well as television and radio are just beginning to take their place in society and do so using simple and often outdated technology The volume also examines how these growing outlets are supplemented by informal media the so called radio trottoir or rumor mill whereby the autocratic and bureaucratic direction of public affairs are subject to private speculation and analysis Media and Democracy in Africa is organized to provide a historical perspective on the evolution of the African media placing the present in the context of the past including both colonial and post colonial experiences It will be of interest to Africa area specialists students of media and communications political scientists and sociologists

**Media in Process** Sai Felicia Krishna-Hensel, 2016-09-19 The post communist development of media systems has been uneven in the countries of the region Television and newspapers together with the emergence of social media have had great influence on the political debate in various countries Ownership of the media has been a factor in many instances The integration of traditionally isolated Central Eastern Europe into larger worldwide trends has fundamentally changed the way we look at the media in this region This volume proposes to address the transition of the media and communication industries in the contemporary period The contributions discuss among other things the obstacles that still remain for the media to play an effective watchdog role in the new democracies and whether the advent of the Internet and social media has helped or hindered the transformation to a powerful independent media The discussion further examines whether advertising agencies have targeted post communist citizens differently than those in Western European countries

and if the media markets in the post communist region are fundamentally different than in Western Europe and North America A second focus of the volume is the media coverage of social issues like domestic violence which is intended to draw attention to these issues and influence policy in a more aware and open society This establishes the trend of post communist media following the example of western media practice The implications of the Central European media transformation for the newly transforming media markets in the post Soviet space suggest a new phase in the development of the medium The impact of global influences on regional expression is an important aspect of the political and social changes that are underway This volume makes an important interdisciplinary contribution in examining the development of the media

**Forms of Collective Engagement in Youth Transitions** ,2021-10-05 This collection sheds light on diverse forms of collective engagement among young people Recent developments in youth studies and the changing global shape of socio economic conditions for young people demand new approaches and ideas Contributors focus on novel processes practices and routines within youth collectivity in various contexts across the globe including Indonesia Spain Italy Norway and Poland The chapters pay particular attention to transitional phases in the lives of young people Conceptually the book also explores the strengths and limitations of a focus on collectivity in youth studies Ultimately the book makes the case for a focus on forms of collectivity and engagement to help scholars think through contemporary experiences of shared social life among young people Contributors are Duncan Adam Massimiliano Andretta Roberta Bracciale David Cairns Diego Carbajo Padilla Enzo Colombo Valentina Cuzzocrea Carles Feixa Ben Gook Izabela Grabowska Natalia Juchniewicz Ewa Krzaklewska Wolfgang Lehmann Michelle Mansfield Mar a Martinez Ann Nilsen Rebecca Raby Paola Rebughini Birgit Rei ig Bj rn Schiermer Tabea Schlimbach Melanie Simms Benjamin Tejerina Kristoffer C Vogt and Natalia Waechter *Press Freedom and the (crooked) Path Toward Democracy* Meghan Sobel Cohen,Karen McIntyre Hopkinson,2023 Media scholars generally suggest that as people gain access to mass media content they increasingly support democracy and reject authoritarian rule Much of the scholarship classifying global media systems has overlooked the world s most developing nations and among those that have included developing nations there exists a misguided premise that nations develop in a linear fashion from non democracy to democracy and from a restricted press to a free press This book shows that much of what scholarship depicts about media systems of developing nations is wrong In reality the ebb and flow of political change democratization and backsliding calls for more historically informed views of media systems that do not fit into the confines of existing theories Using the perceptions of journalists in Rwanda Uganda and Kenya to examine mediascapes at varying stages of development and democracy building this book examines the advancement of media and press freedom at varying stages of national development Drawing on qualitative fieldwork and a cross national survey this book provides an updated state of press freedom in these three countries and shows how a nation s political and cultural intricacies complicate traditional media development frameworks and notions of press freedom A detailed set of considerations are put forth for understanding

media systems outside the Western world specifically that each country's distance from conflict political benchmarks international linkages and civil society strength are central to understanding its degree of press freedom development and democratization

*Democratic Decay and Authoritarian Resurgence* Natasha Lindstaedt, 2021-05-28 Why do democracies fall apart and what can be done about it This book introduces students to the concept and causes of democratic decay in the modern world Illustrating the integral link between public commitment to democratic norms and the maintenance of healthy democracies it examines the key factors in decaying democracies including Economic inequality Corruption Populist and authoritarian discourse Declining belief in political institutions and processes Drawing on real world developments and including international case studies the book outlines the extent to which there is a democratic recession in contemporary politics and shows how transnational networks and technology are impacting on this development

*Women, Media, and Power in Indonesia* Jane Ahlstrand, 2021-12-20 This book demonstrates the crucial link between gender and structures of power in democratic Indonesia and the role of the online news media in regulating this relationship of power Using critical discourse analysis CDA as a theoretical framework and social actor analysis as the methodological approach this book examines the discursive representation of three prominent female Indonesian political figures in the mainstream Indonesian online news media in a period of social political transition It presents newfound linguistic evidence in the form of discourse strategies that reflect the women's dynamic relationship with power More broadly the critical analysis of the news discourse becomes a way of uncovering and evaluating implicit barriers and opportunities affecting women's political participation in Indonesia and other Asian political contexts Indonesia's process of democratisation and the influential role of the online news media in shaping and reflecting political discourse

*Using New Media for Citizen Engagement and Participation* Adria, Marco, 2019-12-27 Recent technological advancements have made it possible to use moderated discussion threads on social media to provide citizens with a means of discussion concerning issues that involve them With the renewed interest in devising new methods for public involvement the use of such communication tools has caused some concern on how to properly apply them for strategic purposes Using New Media for Citizen Engagement and Participation provides emerging research exploring the theoretical and practical aspects of how social media should be added to public involvement activities such as citizen juries public deliberation and citizen panels Readers will be offered insights into the critical design considerations for planning carrying out and assessing public involvement initiatives Featuring coverage on a broad range of topics such as citizen journalism online activism and public discourse this book is ideally designed for corporate professionals broadcasters news writers column editors politicians policy managers government administrators academicians researchers practitioners and students in the fields of political science communications sociology mass media and broadcasting public administration and community service learning
