## **Democratic Governance Administration Poverty Alleviation:**

**Decentralized Democratic Governance in New Millennium** U. B. Singh, 2009 *National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One* Dr. Dan Mou, 2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use *The Political Economy of Good Governance for Poverty Alleviation Policies* Narayan Lakshman, 2003 The motivation of this research paper is to shed light upon the political economy factors that determine the quality of governance for poverty alleviation policies This issue is a crucial one because although remarkable strides have been made in some parts of the world more than 2 8 billion people live on less than 2 a day The situation begs the important question Why have poverty alleviation efforts by developing countries not achieved the momentum necessary to improve the living standards of poor An important reason why growth with significant redistribution has not occurred in many developing countries is that poverty reduction strategies have often been politically naive The literature spawned by major development institutions until the 1980s did not go beyond policy prescriptions to ask under what political conditions redistributive policies could be successfully adopted This is a relevant issue because policies reflect concrete political and social interests and it is not hard to imagine a situation where poverty alleviating reform is hindered by vested interests The aim of this research paper is to shed light upon the factors determining quality of governance because poor governance is but a manifestation of these deep rooted institutional and political biases against the collective interests of the poor **Handbook of Research on Democratic Strategies and Citizen-Centered E-Government Services** Dolićanin, Ćemal, Kajan, Ejub, Randjelović, Dragan, Stojanović, Boban, 2014-11-30 Over the past few years e government has been rapidly changing the way governmental services are provided to citizens and businesses These services improve business and government exchange capability provide a new way to discover and share information and play a part in the evolution of future technologies The Handbook of Research on Democratic Strategies and Citizen Centered E Government Services seeks to address which services in e government should be provided to users and how This premier reference work gives an overview
