Women Presidents and Prime Ministers in Post-Transition Democracies Verónica Montecinos, 2017-03-15 This book contributes to our understanding of the trajectories and prerogatives of female political leaders in the varying context of democratization political institutions and cultural norms No woman had been elected leader of a country before 1960 but with democratic transitions on the rise since the 1970s the number of women in executive office gradually became a trend of global scope In 2015 nineteen countries had an elected female Head of State and or Government a proportionally small number that is expected to climb as more women compete for high office sometimes against other female candidates This volume compares how women executives differ in promoting gender equality and advocating for women s rights and interests as well as in their ability to negotiate gender policy agendas Comparative and theoretical chapters on post transition women leaders are complemented by case studies in eight countries in Africa Asia Latin America and Eastern and Central Europe This book will be of use to students and scholars interested in gender studies comparative politics and political leadership

Party System Changes and Challenges to Democracy Danica Fink-Hafner, 2024-03-19 This open access book focuses on the nexus between party system stability and democratic consolidation using Slovenia as a case study Its findings are presented from a comparative perspective to illustrate the commonalities and differences found in research on Central European post socialist countries and former Yugoslav countries On the one hand Slovenia s characteristics including the characteristics of its transition to democracy are far more similar to those of Central European post socialist countries than Western Balkan countries On the other Slovenia shares some similarities with other parts of the former Yugoslavia especially its experiences with the political system of socialist self management elements of a market economy under socialism and war following the end of socialism albeit the conflict in Slovenia was very short and rather mild in comparison to those in other parts of socialist Yugoslavia Slovenia s experiences with rapid but limited democratic backsliding under the Jan a government March 2019 June 2022 were halted by the 2022 national election in contrast to the more widely known cases of Hungary and Poland where such backsliding took place incrementally over a longer period of time that included several election cycles

Shock to the System Michael K. Miller, 2021-07-20 How violent events and autocratic parties trigger democratic change How do democracies emerge Shock to the System presents a novel theory of democratization that focuses on how events like coups wars and elections disrupt autocratic regimes and trigger democratic change Employing the broadest qualitative and quantitative analyses of democratization to date Michael Miller demonstrates that more than nine in ten transitions since 1800 occur in one of two ways countries democratize following a major violent shock or an established ruling party democratizes through elections and regains power within democracy This framework fundamentally reorients theories on democratization by showing that violent upheavals and the preservation of autocrats in power events typically viewed as antithetical to democracy are in fact central to its foundation Through in depth examinations of 139 democratic transitions Miller shows how democratization frequently follows both domestic shocks coups civil wars and assassinations and

international shocks defeat in war and withdrawal of an autocratic hegemon due to autocratic insecurity and openings for opposition actors He also shows how transitions guided by ruling parties spring from their electoral confidence in democracy Both contexts limit the power autocrats sacrifice by accepting democratization smoothing along the transition Miller provides new insights into democratization s predictors the limited gains from events like the Arab Spring the best routes to democratization for long term stability and the future of global democracy Disputing commonly held ideas about violent events and their effects on democracy Shock to the System offers new perspectives on how regimes are transformed How Democracies Die Steven Levitsky, Daniel Ziblatt, 2019-01-08 NEW YORK TIMES BESTSELLER The urgent and influential guide to the forces that have undermined democracies across the globe forces running rampant in the United States today hailed as a touchstone The New Yorker that comes at exactly the right moment The Washington Post Comprehensive enlightening and terrifyingly timely The New York Times Book Review Editors Choice Levitsky and Ziblatt expand the conversation beyond Trump and before him to other countries and to the deep structure of American democracy and politics Ezra Klein WINNER OF THE GOLDSMITH BOOK PRIZE SHORTLISTED FOR THE LIONEL GELBER PRIZE A BEST BOOK OF THE YEAR The Washington Post Time Foreign Affairs WBUR Paste Donald Trump s presidency has raised a question that many of us never thought we d be asking Is our democracy in danger Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America and they believe the answer is yes Democracy no longer ends with a bang in a revolution or military coup but with a whimper the slow steady weakening of critical institutions such as the judiciary and the press and the gradual erosion of long standing political norms The good news is that there are several exit ramps on the road to authoritarianism The bad news is that by electing Trump we have already passed the first one Drawing on decades of research and a wide range of historical and global examples from 1930s Europe to contemporary Hungary Turkey and Venezuela to the American South during Jim Crow Levitsky and Ziblatt show how democracies die Now the question is can our democracy be saved Praise for How Democracies Die If you only read one book for the rest of the year read How Democracies Die This is not a book for just Democrats or Republicans It is a book for all Americans It is nonpartisan It is fact based It is deeply rooted in history The best commentary on our politics no contest Michael Morrell former Acting Director of the Central Intelligence Agency via Twitter A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world and in ways that are perfectly legal Fareed Zakaria CNN **Transatlantic Democracy Assistance** Jan Hornat, 2018-11-14 The approaches of EU institutions and the US to democracy assistance often vary quite significantly as both actors choose different means and tactics The nuances in the understandings of democracy on the part of the EU and the US lead to their promotion of models of democratic governance that are often quite divergent and in some respects clashing This book examines the sources of this divergence and by focusing on the role of the actors democratic identity it aims to explain the

observation that both actors use divergent strategies and instruments to foster democratic governance in third countries Taking a constructivist view it demonstrates that the history expectations and experiences with democracy of each actor significantly inform their respective definition of democracy and thus the model of democracy they promote abroad This book will be of key interest to scholars students and practitioners in democracy promotion democratization political theory EU and US foreign policy and assistance and identity research The Spanish Fiscal Transition Sara Torregrosa

Hetland,2021-09-18 This book provides an analysis of the process and outcomes of the tax reform with a focus on progressivity redistribution and inequality Between 1977 and 1986 Spain underwent a comprehensive tax reform which shaped its fiscal system until today It was made in connection with the transition to democracy and indeed was understood as a fundamental part of the political change The book situates the reform both within Spanish history and international trends in tax systems and connects it to the expansion of the welfare state and regional decentralization in Spain The analysis reveals that the tax system failed to attain progressivity and significant levels of fraud had a noticeable impact on inequality Because of this fiscal redistribution remained limited In the new political economy of the second globalization late democratic and fiscal transitioners were unable to emulate the path of the welfare state forerunners *Negotiating Gender Equity in the Global South* Sohela Nazneen,Sam Hickey,Eleni Sifaki,2019-03-04 The Open Access version of this book available at <https://doi.org/10.4324/9781351245623> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license The fact that women have achieved higher levels of political inclusion within low and middle income countries has generated much speculation about whether this is reaping broader benefits in tackling gender based inequalities This book uncovers the multiple political dynamics that influence governments to adopt and implement gender equity policies pushing the debate beyond simply the role of women s inclusion in influencing policy Bringing the politics of development into discussion with feminist literature on women s empowerment the book proposes the new concept of power domains as a way to capture how inter elite bargaining coalitional politics and social movement activism combine to shape policies that promote gender equity In particular the book investigates the conditions under which countries in sub Saharan Africa and South Asia have adopted legislation against domestic violence which remains widespread in many developing countries The book demonstrates that women s presence in formal politics and policy spaces does not fully explain the pace in adopting and implementing domestic violence law Underlying drivers of change within broader domains of power also include the role of clientelistic politics and informal processes of bargaining coalition building and persuasion the discursive framing of gender equitable ideas and how transnational norms influence women s political inclusion and gender inclusive policy outcomes The comparative approach across Uganda Rwanda South Africa Ghana India and Bangladesh demonstrates how advancing gender equality varies by political context and according to the interests surrounding a particular issue *Negotiating Gender Equity in the Global South* will be of interest to students and scholars of

gender and development as well as to activists within governments political parties nongovernmental organizations women s movements and donor agencies at national and international levels who are looking to develop effective strategies for advancing gender equality Stateness and Democracy in East Asia Aurel Croissant,Olli Hellmann,2020-05-21 Comparative analysis of case studies across East Asia provides new insights into the relationship between state building stateness and democracy **Latin American Politics and Society** Gerardo L. Munck,Juan Pablo Luna,2022-06-09 An engaging introduction to Latin America with a fresh thematic approach to key political and social issues This accessible undergraduate textbook examines the entirety of the region addressing complex issues in a clear and direct manner Grounded in cutting edge research and data concepts are illustrated through tables maps and timelines **Democratic Transition in the Muslim World** Alfred Stepan,2018-03-13 In early 2011 widespread protests ousted dictatorial regimes in both Tunisia and Egypt Within a few years Tunisia successfully held parliamentary and presidential elections and witnessed a peaceful transition of power while the Egyptian military went on to seize power and institute authoritarian control What explains the success and failure of transitions to democracy in these two countries and how might they speak to democratic transition attempts in other Muslim majority countries Democratic Transition in the Muslim World convenes leading scholars to consider the implications of democratic success in Tunisia and failure in Egypt in comparative perspective Alongside case studies of Indonesia Senegal and India contributors analyze similarities and differences among democratizing countries with large Muslim populations considering universal challenges as well as each nation s particular obstacles A central theme is the need to understand the conditions under which it becomes possible to craft pro democratic coalitions among secularists and Islamists Essays discuss the dynamics of secularist fears of Islamist electoral success the role of secular constituencies in authoritarian regimes resilience and the prospects for moderation among both secularist and Islamist political actors They delve into topics such as the role of the army and foreign military aid Middle Eastern constitutions and the role of the Muslim Brotherhood The book also includes an essay by the founder and president of Tunisia s Ennadha Party Rachid Ghannouchi who discusses the political strategies his party chose to pursue Myanmar's Digital Coup Nicholas Coppel,Lennon Y.C. Chang,2024-07-23 This book analyses how technologies have been used by both the military junta and resistance movement in Myanmar s digital coup to control information and the transfer of funds and to pursue accountability They have been used to pressure and mobilise external actors and the book critically assesses international responses ranging from the United Nations ASEAN individual countries activist groups donors and international businesses Contact with the military has been criticised as recognising and legitimising the regime and individual firms have come under pressure to exit The authors argue that the National Unity Government overestimates the significance of foreign recognition and activists overestimate the influence of international responses on military behaviour They suggest external actors change from judging and excoriating the responses of the international community and focus on how foreign governments businesses or organisations

can support and strengthen Myanmar society If change in Myanmar is to come it will be those that have remained not those that have left that will bring it about Democratisation in the 21st Century Mohammad-Mahmoud Ould

Mohamedou, Timothy D. Sisk, 2016-10-04 The 2010s was a critical period in the continuing established trend of the spread of democracy worldwide from the Arab Spring countries of Tunisia Libya Egypt and Yemen to the unfolding turmoil of Myanmar and Ukraine by way of the upheavals in Burkina Faso Senegal and Ivory Coast social mobilisation against autocratic corrupt or military regimes has precipitated political transitions that are characteristic of democratisation This book examines the state of democratisation theory and practice that reopens and revives the democratic transition debate exploring the factors that lead to the demise of autocracy the pathways and processes of change and the choice for an eventual consolidation of democracy For all its insights and shortcomings the framework of transitology a body of literature that has comparatively and through case study analysis examined common patterns sequences crises and outcomes of transitional periods has been largely eschewed The essays written by international democratisation specialists tackle the series of questions raised by a body of literature that remains highly useful to understand contemporary political turbulence and transformation considering numerous crucial issues This work will be of key interest to scholars students and practitioners of governance

democratisation comparative politics international relations political science and more broadly history **From Franco to Freedom** Miguel Angel Ruiz Carnicer, 2018-11-01 This book brings together recent research by a group of specialists in history and sociology to provide a new reading of the late Franco dictatorship especially in relation to its political culture The authors focus on the election of local trade union and national representatives the work of the first Spanish sociologists the struggle over administrative reform the role of the media and the intellectuals as well as the evolution of the dictatorships political class and its response to the regimes decline Not only are the politics of the late dictatorship scrutinised but also the mechanisms that were deployed to control the fast changing society of the 1960s and 1970s In examining the late Franco period the contributors do not believe that it contained the seeds of Spains later democratisation but maintain that certain sectorial regime initiatives electoral and political changes an evolving discourse and an interest in political processes outside Spain made many Spaniards aware of the dictatorships contradictions and limitations thereby encouraging its subsequent political and social evolution This transformation is compared with the latter stages of the parallel dictatorship in Portugal The great majority of Spaniards felt that the embrace of democratic freedoms and integration into the European Community was the only way forward during the Transition But the shift from dictatorship to democracy from the 1960s onwards in Spain needs to be understood in relation to the multitude of political and social changes that took place despite the opposition of Franco and the bunker mentality of the regime These changes manifested in a complex interaction between internal and external factors which eventually resulted in the transformation of Spanish society itself **Authoritarianism**
