## **Democratizing Health Consumer Groups In The Policy Process:**

Democratizing Health the late Hans Löfgren, Evelyne de Leeuw, Michael Leahy, 2011-01-01 This book examines the important role of consumer activism in health policy in different national contexts In an age of shifting boundaries between state and civil society consumer groups are potentially drivers of democratisation in the health domain The expert contributors explore how their activities bring new dynamics to relations between service providers the medical profession government agencies and other policy actors This book is unique in comprehensively analysing the opportunities and dilemmas of this type of activism including ambiguous partnerships between consumer groups and stakeholders such as the pharmaceutical industry These themes are explored within an internationally comparative framework with case studies from various countries

**The Public Shaping of Medical Research** Peter Wehling, Willy Viehöver, Sophia Koenen, 2014-11-27 Patient organizations and social health movements offer one of the most important and illuminating examples of civil society engagement and participation in scientific research and research politics Influencing the research agenda and initiating funding and accelerating the development of diagnostic tools effective therapies and appropriate health care for their area of interest they may champion alternative sometimes controversial programs or critique dominant medical paradigms Some movements and organizations advocate for medical recognition of contested illnesses as with fibromyalgia or ADHD while some attempt to de-medicalize others such as obesity or autism Bringing together an international selection of leading scholars and representatives from patients organizations this comprehensive collection explores the interaction between civil society groups and biomedical science technology development and research politics It takes stock of the key findings of the research conducted in the field over the past two decades and addresses emerging problems and future challenges concerning the interrelations between health movements and patient organisations on the one hand and biomedical research and research policies on the other hand Combining empirical case studies with conceptual discussion the book discusses how public participation can contribute to as well as restrict the democratization of scientific knowledge production This volume is an important reference for academics and researchers with an interest in the sociology of health and illness science and technology studies the sociology of knowledge medical ethics or healthcare management and research as well as medical researchers and those involved with health related civil society organizations

*Diversity in Leadership* Joy Damousi, Kim Rubenstein, Mary Tomsic, 2014-11-25 While leadership is an over used term today how it is defined for women and the contexts in which it emerges remains elusive Moreover women are exhorted to exercise leadership but occupying leadership positions has its challenges Issues of access acceptable behaviour and the development of skills to be successful leaders are just some of them Diversity in Leadership Australian women past and present provides a new understanding of the historical and contemporary aspects of Indigenous and non Indigenous women's leadership in a range of local national and international contexts It brings interdisciplinary expertise to the topic from leading scholars in a range of fields and diverse

backgrounds The aims of the essays in the collection document the extent and diverse nature of women's social and political leadership across various pursuits and endeavours within democratic political structures *Health Advocacy, Inc.* Sharon Batt, 2017-06-15 Over the past several decades a gradual reduction in state funding has pressured patient groups into forming private sector partnerships raising an important ethical question do these alliances ultimately lead to policies that are counter to the public interest Health activist scholar and cancer survivor Sharon Batt examines the issue by investigating Canada's breast cancer movement from 1990 to 2010 Health Advocacy Inc dissects the relationship between the companies that sell pharmaceuticals and the individuals who use them drawing links between neoliberalism and corporate financing and the ensuing threat to the public health care system Combining archival analysis interviews with advocacy and industry representatives and personal observation Batt argues that the resulting power imbalance continues to challenge the groups ability to put patients interests ahead of those of the funders A movement that once encouraged democratic participation in the development of health policy now eerily echoes the demands of the pharmaceutical industry Batt's thorough account of this shift defines the stakes of activism in public health today **To Fix Or To Heal** Joseph E. Davis, Ana Marta Gonzalez, 2016-02-26 Do doctors fix patients Or do they heal them For all of modern medicine's many successes discontent with the quality of patient care has combined with a host of new developments from aging populations to the resurgence of infectious diseases which challenge medicine's overreliance on narrowly mechanistic and technical methods of explanation and intervention or fixing patients The need for a better balance for more humane healing rationales and practices that attend to the social and environmental aspects of health and illness and the experiencing person is more urgent than ever Yet in public health and bioethics the fields best positioned to offer countervailing values and orientations the dominant approaches largely extend and reinforce the reductionism and individualism of biomedicine The collected essays in *To Fix or To Heal* do more than document the persistence of reductionist approaches and the attendant extension of medicalization to more and more aspects of our lives The contributors also shed valuable light on why reductionism has persisted and why more holistic models incorporating social and environmental factors have gained so little traction The contributors examine the moral appeal of reductionism the larger rationalist dream of technological mastery the growing valuation of health and the enshrining of individual responsibility as the seemingly non-coercive means of intervention and control This paradigm challenging volume advances new lines of criticism of our dominant medical regime even while proposing ways of bringing medical practice bioethics and public health more closely into line with their original goals Precisely because of the centrality of the biomedical approach to our society the contributors argue challenging the reductionist model and its ever widening effects is perhaps the best way to press for a much needed renewal of our ethical and political discourse **The Politics of Maternity** Rosemary Mander, Jo Murphy-Lawless, 2013-04-12 The evidence surrounding the skills and approaches to support good birth has grown exponentially over the last two decades but so too have the obstacles facing women and midwives who

strive to achieve good birth This new book critically explores the complex issues surrounding contemporary childbirth practices in a climate which is ever more medicalised amidst greater insecurity at broad social and political levels The authors offer a rigorous and thought provoking analysis of current clinical managerial and policy making environments and how they have prevented sustaining the kind of progress we need The Politics of Maternity explores the most hopeful developments such as the abundant evidence for one to one care for women and sets these accounts against the background of changes in health service organisation and provision that block these approaches from becoming an everyday occurrence for women giving birth The book sets out the case for renewed attention to the politics of childbirth and what this politics must entail if we are to give birth back to women Designed to help professionals cope with the transition from education to the reality of the system within which they learn and practise this inspiring book will help to assist them to function and care effectively in a changing health care environment

Civil Society and Health Scott L. Greer,Matthias Wismar,Gabriele Pastorino,Monika Kosinska,2017-11-20 Civil Society Organizations CSOs can make a vital contribution to public health and health systems but harnessing their potential is complex in a Europe where government CSO relations vary so profoundly This study is intended to outline some of the challenges and assist policy makers in furthering their understanding of the part CSOs can play in tandem and alongside government To this end it analyses existing evidence and draws on a set of seven thematic chapters and six mini case studies They examine experiences from Austria Bosnia Herzegovina Belgium Cyprus Finland Germany Malta the Netherlands Poland the Russian Federation Slovenia Turkey and the European Union and make use of a single assessment framework to understand the diverse contexts in which CSOs operate The evidence shows that CSOs are ubiquitous varied and beneficial and the topics covered in this study reflect such diversity of aims and means anti tobacco advocacy food banks refugee health HIV AIDS prevention and cure and social partnership CSOs make a substantial contribution to public health and health systems with regards to policy development service delivery and governance This includes evidence provision advocacy mobilization consensus building provision of medical services and of services related to the social determinants of health standard setting self regulation and fostering social partnership However in order to engage successfully with CSOs governments do need to make use of adequate tools and create contexts conducive to collaboration To guide policy makers working with CSOs through such complications and help avoid some potential pitfalls the book outlines a practical framework for such collaboration This suggests identifying key CSOs in a given area clarifying why there should be engagement with civil society being realistic as to what CSOs can or will achieve and an understanding of how CSOs can be helped to deliver

Healthcare Activism Susi Geiger,2021-09-09 What is the role of activists and civil society in defining and defending the collective good in healthcare especially in cases where that good seems to be heavily shaped by market dynamics Presenting conceptual and empirical studies from a variety of healthcare contexts and theoretical perspectives this book addresses this vital question by drawing together multidisciplinary scholarship from

Science and Technology Studies Sociology Organisation Studies Marketing Philosophy and Public Health Healthcare has undergone three major changes over the past decades the advent of personalized medicine the marketization of public care systems and the digitalization of healthcare services This book maps these changes and illustrates the extent to which they are interlinked to produce a seemingly unstoppable move toward individualization in healthcare The book also highlights the tensions and challenges arising from these interlinkages and traces how activists react to these tensions to argue for and defend the common good It thus sketches a multifaceted picture of healthcare activism in the 21st century as civil society responds to these dynamics at the crossroads of markets and morals economic and social justifications individual and collective and digital and non digital worlds Crucially it also highlights potential solutions for heightening patient voices and broadening participation in healthcare markets in a post Covid 19 world *The Real War on Obesity* John

Boswell,2016-07-27 This book sheds new light on the political battle to define and construct obesity as a policy issue Through a rich analysis of the debates in Australia and the UK it develops a nuanced analysis of the competing narratives that actors rely on to make sense of and argue about this issue and documents how and to what effect they draw on scientific evidence to support their accounts The real war on obesity it demonstrates has always been over the meaning and nature of this public health crisis This insightful work will interest scholars of interpretive policy studies critical public health and science and technology studies **The Palgrave Handbook of Intersectionality in Public Policy** Olena Hankivsky,Julia S.

Jordan-Zachery,2019-02-01 Grounded in black feminist scholarship and activism and formally coined in 1989 by black legal scholar Kimberl Williams Crenshaw intersectionality has garnered significant attention in the field of public policy and other disciplines fields of study The potential of intersectionality however has not been fully realized in policy largely due to the challenges of operationalization Recently some scholars and activists began to advance conceptual clarity and guidance for intersectionality policy applications yet a pressing need remains for knowledge development and exchange in relation to empirical work that demonstrates how intersectionality improves public policy This handbook fills this void by highlighting the key challenges possibilities and critiques of intersectionality informed approaches in public policy It brings together international scholars across a variety of policy sectors and disciplines to consider the state of intersectionality in policy research and analysis Importantly it offers a global perspective on the added value and how to of intersectionality informed policy approaches that aim to advance equity and social justice **Europeanization in Sweden** Anna Meeuwisse,Roberto

Scaramuzzino,2018-12-17 Notwithstanding its many successes since 1945 the project of European integration currently faces major difficulties from financial crises and mass immigration to the departure of the UK from the European Union At the same time these challenges have spurred civil society organizations within and across Europe revealing a shared public sphere in which citizens can mobilize around refugee rights opposition to austerity policies and other issues Europeanization in Sweden assembles new empirical research on how these processes have played out in one of the continent s wealthiest

nations providing insights into whether and how the Swedish model can guide European integration      Health Systems in Transition Thomas Rice,Pauline Rosenau,Lynn Y. Unruh,Andrew J. Barnes,2021-10-20 North American Observatory on Health Systems and Policies      **Yatdjuligin** Odette Best,Bronwyn Fredericks,2021-08-25 Yatdjuligin introduces students to the fundamentals of health care of Indigenous Australians This book addresses the relationship between Aboriginal and Torres Strait Islander cultures and mainstream health services and introduces readers to practice and research in a variety of healthcare contexts      **Yatdjuligin** Bronwyn Fredericks,2014-09-23 Yatdjuligin introduces students to the fundamentals of the healthcare of Indigenous Australians empowering them to create culturally safe nursing practices      **Food Fortification** Mark Lawrence,Mark Andrew Lawrence,2013-01-03 Food Fortification critically analyses mandatory food fortification as a technology for protecting and promoting public health through presenting the findings from research investigation into three topical case studies      **The Politics of the Pharmaceutical Industry and Access to Medicines** Hans Löfgren,2017-07-06 Some papers presented at a conference held at Hyderabad in September 2010      **Global perspectives on assistive technology** World Health Organization,2020-03-08      *Violence against Women in and beyond Conflict* Julia Carolin Sachseder,2022-09-16 Violence against Women in and beyond Conflict explores the processes and structures that underlie and contribute to sexual violence and internal displacement in armed conflict utilizing extensive ethnographic research to provide cutting edge insights The author argues that the key to understanding violence against women lies at the intersection of transnational capital race and gender that not only contribute to its production but also to its persistence The book uses the Colombian armed conflict as the primary case study but develops a broader framework for theorizing the relationship between the global political economy the history of coloniality and intersectional constructions of gender and race with regard to conflict and violence It offers an understanding of violence against women as not isolated from but part and a symptom of a larger system of political social and economic inequality that is rooted in colonialism and exploited and exacerbated by transnational capital relations The author also shows how the state and non state actors most prominently paramilitaries are involved in this relationship of violence The book highlights implications for meaningful and sustainable peace in post conflict contexts This book will be of great interest to students and scholars of international relations gender studies and conflict studies as well as policymakers non governmental organizations and practitioners interested in conflict and security      *Reflexiones sobre el desarrollo actual y futuro de la economía Canaria* León González Carmelo Javier,2022-03-17 Este trabajo es un intento de arrojar luz sin pretensiones sobre algunos de los temas de relevancia para el futuro de Canarias que requieren un nuevo enfoque que ayude a viabilizar políticas públicas que dejen de lado el lastre rentista Las distintas contribuciones que se incluyen en esta obra inciden en la búsqueda de una nueva socioeconomía      **Beiträge zur Verbraucherforschung Band 2 Der verletzliche Verbraucher** Remi Maier-Rigaud,Michael-Burkhard Piorkowsky,Julius Reiter,Eric Frère,Alexander Zureck,Tino Bensch,Frank Luschei,Melanie

Democratizing Health Consumer Groups In The Policy Process: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have charmed audiences this year.

Democratizing Health Consumer Groups In The Policy Process : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed.

Democratizing Health Consumer Groups In The Policy Process : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

Democratizing Health Consumer Groups In The Policy Process : Delia Owens' "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting.

These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
