The Legend of Drake Say Yang, 2019-09-25. In the beginning there was peace in the Kingdom of Gamore. Evil did not exist. Things like monsters, demons, ghouls, and goblins were mere fairy tales told as bedtime stories to keep children from causing trouble at night. Then things changed. Vampires, werewolves, and demons roamed the earth freely and caused havoc. According to prophecy, a child would be born under unusual circumstances and restore good to the land while seeking vengeance on evil ones, punishing them for what they had done. Rose is of royal descent, hidden for her own protection. She becomes a nun who gives birth to Drake. Tragically, she is later raped and murdered. Alone in the world with no one to guide him except the darkness within, Drake seeks vengeance for his mother's death. Unsure of his own abilities, he grows to become a powerful demon hunter. Finally finding love and romance along the way, Drake could stop to enjoy life as a family man or will destiny drag him away to fulfill his prophesized duty.

The Taming of the Demons Jacob Paul Dalton, 2011-06-28. The Taming of the Demons examines mythic and ritual themes of violence, demon taming, and blood sacrifice in Tibetan Buddhism. Taking as its starting point Tibet's so-called age of fragmentation, 842 to 986 C.E., the book draws on previously unstudied manuscripts discovered in the library cave near Dunhuang on the old Silk Road. These ancient documents, it argues, demonstrate how this purportedly inactive period in Tibetan history was in fact crucial to the Tibetan assimilation of Buddhism and particularly to the spread of violent themes from tantric Buddhism into Tibet at the local and the popular levels. Having shed light on this dark age of Tibetan history, the second half of the book turns to how, from the late tenth century onward, the period came to play a vital symbolic role in Tibet as a violent historical other against which the Tibetan Buddhist tradition defined itself.

 demonology this collection features newly written papers by philosophers and other scholars engaged specifically in
 philosophical argument debate and dialogue involving ideas and topics in demonology The contributors to the volume
 approach the subject from the perspective of the broadest areas of Western philosophy namely metaphysics epistemology
 logic and moral philosophy The collection also features a plurality of religious cultural and theological views on the nature of
 demons from both Eastern and Western thought in addition to views that may diverge from these traditional roots
 Philosophical Approaches to Demonology will be of interest to philosophers of religion theologians and scholars working in
 philosophical theology and demonology as well as historians cultural anthropologists and sociologists interested more
 broadly in the concept of demons
