**The China Nightmare** Dan Blumenthal, 2020-10-28 This is a book about China's grand strategy and its future as an ambitious declining and dangerous rival power Once the darling of U.S. statesmen corporate elites and academics the People's Republic of China has evolved into America's most challenging strategic competitor Its future appears increasingly dystopian This book tells the story of how China got to this place and analyzes where it will go next and what that will mean for the future of U.S. strategy The China Nightmare makes an extraordinarily compelling case that China's future could be dark and the free world must prepare accordingly The Bird and the Cage Nicholas Borst, 2025-03-28 The Chinese Communist Party's complex and contradictory embrace of capitalism has played a pivotal role in shaping China's economic reforms since the late 1970s This book explores the persistent tensions between state control and market forces in China It shows how these tensions provide a framework to understand Xi Jinping's recent efforts to tighten control over the Chinese economy The book evaluates the broader implications of these policies for China's economic trajectory and its global trade relationships

**Deng Xiaoping and China's Foreign Policy** Ronald Keith, 2017-11-03 Deng Xiaoping is widely acknowledged as the principal architect of China's economic reforms but how far was he also responsible for shaping China's foreign policy which emphasized peace and development This book explores Deng's foreign policy and shows how he established basic principles for China to have a foreign policy which supported economic development which stressed harmony in the world rather than hegemony and which avoided conflict and nurtured a peaceful approach The book outlines how Deng worked to normalize relations with both the United States and the Soviet Union how he was disappointed by the lack of reciprocation by the United States where relations are still portrayed in terms of the China threat and how the principles established by Deng continue to be adhered to Deng Xiaoping's Great Transformation and the Economic Future of China Steven N. S. Cheung, 1997

**China's New Red Guards** Jude Blanchette, 2019-05-02 Ever since Deng Xiaoping effectively de-radicalized China in the 1980s there have been many debates about which path China would follow Would it democratize Would it embrace capitalism Would the Communist Party's rule be able to withstand the adoption and spread of the Internet One debate that did not occur in any serious way however was whether Mao Zedong would make a political comeback As Jude Blanchette details in China's New Red Guards contemporary China is undergoing a revival of an

unapologetic embrace of extreme authoritarianism that draws direct inspiration from the Mao era Under current Chinese leader Xi Jinping state control over the economy is increasing civil society is under sustained attack and the CCP is expanding its reach in unprecedented new ways As Xi declared in late 2017 Government military society and schools north south east and west the party is the leader of all But this trend is reinforced by a bottom up revolt against Western ideas of modernity including political pluralism the rule of law and the free market economy Centered around a cast of nationalist intellectuals and activists who have helped unleash a wave of populist enthusiasm for the Great Helmsman s policies China s New Red Guards not only will reshape our understanding of the political forces driving contemporary China it will also demonstrate how ideologies can survive and prosper despite pervasive rumors of their demise China's Leaders David Shambaugh,2021-06-25 Since the founding of the People s Republic of China over 70 years ago five paramount leaders have shaped the fates and fortunes of the nation and the ruling Chinese Communist Party Mao Zedong Deng Xiaoping Jiang Zemin Hu Jintao and Xi Jinping Under their leaderships China has undergone an extraordinary transformation from an undeveloped and insular country to a comprehensive world power In this definitive study renowned Sinologist David Shambaugh offers a refreshing account of China s dramatic post revolutionary history through the prism of those who ruled it Exploring the persona formative socialization psychology and professional experiences of each leader Shambaugh shows how their differing leadership styles and tactics of rule shaped China domestically and internationally Mao was a populist tyrant Deng a pragmatic Leninist Jiang a bureaucratic politician Hu a technocratic apparatchik and Xi a modern emperor Covering the full scope of these leaders personalities and power this is an illuminating guide to China s modern history and understanding how China has become the superpower of today Also available as an audiobook Deadly Decision in Beijing Yang Su,2023-03-02 In this play by play account of the elite politics that led to the military crackdown during the 1989 Tiananmen protests Su addresses the repression of the protest in the context of political leadership succession He challenges conventional views that see the military intervention as a necessary measure against a revolutionary mobilization

**Making the Unipolar Moment** Hal Brands, 2016-05-12. In the late 1970s, the United States often seemed to be a superpower in decline. Battered by crises and setbacks around the globe, its post-World War II international leadership appeared to be draining steadily away. Yet just over a decade later, by the early 1990s, America's global primacy had been reasserted in dramatic fashion. The Cold War had ended with Washington and its allies triumphant; democracy and free markets were spreading like never before. The United States was now enjoying its unipolar moment, an era in which Washington faced no near-term rivals for global power and influence and one in which the defining feature of international politics was American dominance. How did this remarkable turnaround occur, and what role did U.S. foreign policy play in causing it? In this important book, Hal Brands uses recently declassified archival materials to tell the story of American resurgence. Brands weaves together the key threads of global change and U.S. policy from the late 1970s through the early 1990s, examining the Cold War struggle with Moscow, the rise of a more integrated and globalized world economy, the rapid advance of human rights and democracy, and the emergence of new global challenges like Islamic

extremism and international terrorism Brands reveals how deep structural changes in the international system interacted with strategies pursued by Jimmy Carter Ronald Reagan and George H W Bush to usher in an era of reinvigorated and in many ways unprecedented American primacy Making the Unipolar Moment provides an indispensable account of how the post Cold War order that we still inhabit came to be **Making China Modern** Klaus Mühlhahn,2019-01-14 Klaus M hlhahn situates modern China in the nation s long dynamic tradition of overcoming adversity and weakness through creative adaptation a legacy of crisis and recovery that is apparent today in China s triumphs but also in its most worrisome trends M hlhahn s panoramic survey rewrites the history of modern China for a new generation **Zhou Enlai** Jian Chen,2024-05-07 Zhou Enlai China s first premier is overshadowed by Mao but Zhou s influence in his own time and since has been vast Chen Jian shows Zhou using his political and bureaucratic skills and centralism to mitigate the damage caused by Mao s radicalism and argues that Zhou created conditions for the post Mao reforms that have made China a superpower Britain, France, West Germany and the People's Republic of China, 1969-1982 Martin Albers,2016-12-01 This book focuses on helping readers to fill the gap of the little known history between Western Europe and its most important trading partner the People s Republic of China Inspired by the economic and political significance of Sino European relations this book shows how the China policies of the three biggest states of Western Europe Britain France and the Federal Republic of Germany helped China reintegrate into the international community in the 1970s Against the background of the Cold War the end of Maoism and the emergence of globalization the governments in Bonn Paris and London had to find ways of dealing with Europe s declining influence and promote their own national interests in Asia Based on newly declassified government files readers will find such sources invaluable in understanding the argument that despite pursuing very different policies the three governments supported a rapid expansion of peaceful exchange between the People s Republic and Europe and substantially contributed to the success of Beijing s reform policy The Development of the Zimbabwe National Defense College, 2004-2012 Max John Chinyanganya,2024-01-05 This book interrogates the often controversial civil military relations debate in Zimbabwe The study argues that theoretically Civil Military Relations CMR describes the relationship between civil society as a whole and the military organization or organizations established to protect it More narrowly it describes the relationship between the civil authority of a given society and its military institutions Studies of civil military relations often rest on a normative assumption that civilian control of the military is preferable to military control of the state This text demonstrates the complexity of relationship between military institutions and civic societies particularly in developing countries The methodology employed here is a mixture of internationally recognised scholarly works supplemented by extensive interviews arising from international benchmarking with similar institutions worldwide This coherent and accessible book brings the history of civil military relations up to date exploring a variety of perspectives and newly emerging practices in developing countries whose experience in this field is relatively new in both theory and practice Suharto's Cold War Mattias

Fibiger, 2023 This book examines President Suharto's effort to purge Indonesia of communism ensure the Left could never again pose a threat to the regnant order in Indonesia and promote anticommunist stability across the wider Southeast Asian region It emphasizes the role of international capital flows in the unfolding of the global Cold War showing how Suharto mobilized international aid and investment to construct his New Order dictatorship
