Cook, 2024-05-14 This book presents the U S Army Asymmetric Warfare Group AWG as an example of successful change by the Army in wartime It argues that creating the AWG required senior leaders to create a vision differing from the Army s self conceptualization change bureaucratic processes to turn the vision into an actual unit and then place the new unit in the hands of uniquely qualified leaders to build and sustain it In doing this it considers the forces influencing change within the Army and argues the two most significant are its self conceptualization and institutional bureaucracy The work explores three major subject areas that provide historical context The first is the Army s institutional history from the early 1950s through 2001 This period begins with the Army seeking to validate its place in America s national security strategy and ends with the Army trying to chart a path into the post Cold War future The Army s history is largely one of asymmetric warfare The work thus examines several campaigns that offered lessons for subsequent wars Some lessons the Army took to heart others it ignored As the AWG was a direct outgrowth of the failures and frustrations the Army experienced in Afghanistan and Iraq the book examines these campaigns and identifies the specific problems that led senior Army leaders to create the AWG Finally the work chronicles the AWG s creation in 2006 growth and re assignment from the Army staff to a fully fledged organization subordinate to the U S Army Training and Doctrine Command in 2011 to its deactivation This action resulted not from the unit s failure to adapt to a post insurgency Army focusing on modernization Rather it resulted from the Army failing to realize that while the AWG was a product of counterinsurgency it provided the capability to support the Army during a period of great strategic and institutional uncertainty      *History of operations research in the United States Army* Charles R. Shrader, 2006      **On That Day** William M. Arkin, 2021-08-17 A maddening essential study in misinformation jingoism bad intelligence and other hallmarks of the recent American past Kirkus starred review Anyone who experienced the attacks on September 11 cannot forget the imagery the smoking falling towers the Pentagon smoldering the Shanksville crash site the first responders But there is an invisible story hidden in the wreckage one that required years of patient investigation and the piecing together of a sequence from many scattered sources By establishing the most definitive timeline of how that day unfolded William M Arkin shows how the US government failed in

the face of the unprecedented attack It is a story of laughable airport security vulnerable airspace blind intelligence poor communications muddled orders Pentagon chaos and presidential isolation Everything about the emergency procedures of the governments from White House security to continuity of government to military alerts went wrong On That Day is a stunning nightmare journey through a government reeling in confusion while many civilians performed individual acts of heroism It is a chilling expos of government negligence and overreach and a constitution in crisis **I'M Tim Maude, and I'M a Soldier** Stephen E. Bower,2015-02-10 Lt Gen Tim Maude shares the distinction of being the highest ranking American soldier to lose his life in military action But unlike Lesley J McNair and Simon B Buckner Jr both lieutenant generals who died during World War II the battle he died in was not one he expected On Sept 11 2001 terrorists commandeered an American Airlines flight out of Dulles International Airport and crashed it into the southwest wall of the Pentagon killing Maude and more than a hundred other military and civilian workers Scores of other people were injured when the airliner ripped through the building at 530 miles per hour At the time of his death Maude served as the deputy chief of staff for personnel the Armys chief executor of personnel policy and manager of the various programs affecting the strength and moral well being of Americas land forces As one of only five members of the Armys Adjutant Generals Corps to rise to the rank of lieutenant general his story is one of triumph and celebration and an abiding commitment to family country and service

warfare that exploited Information Age technology adapted to post Cold War strategic circumstances and integrated into parallel Department of Defense efforts The process not only modernized equipment it also substantially altered doctrine organization training administrative and logistical practices and the service culture Kevlar Legions further contends that the digitized expeditionary Army has withstood the test of combat performing superbly with respect to deployment and high end conventional combat and capably with respect to low intensity conflict and the counterinsurgency challenges of Iraq and Afghanistan

**The New Citizen Armies** Stuart A. Cohen, 2010-01-21 This edited book constitutes the first detailed attempt at a comparative international analysis of the transformations that are currently affecting the composition of the Israel Defense Forces IDF and their place in Israeli society Focusing primarily on deviations from the traditional norm of universal military service the book compares the emergence of a new type of citizen army in Israel with the formats that have in recent decades become evident in other western democracies In addition these essays correct the conventional tendency to concentrate almost exclusively on the influences stimulating military institutional change in the West and thereby to overlook the equally important factors that retard its momentum By contrast this volume deliberately highlights the brakes as well as the accelerators in current processes thereby presenting a far more faithful picture of their complexity This book will be of much interest to students of Israeli politics military studies Middle Eastern politics security studies and IR in general Stuart Cohen is a senior research associate of the BESA Begin Sadat Center for Strategic Studies and also teaches political studies at Bar Ilan University Israel His most recent book is *Israel and its Army From Cohesion to Confusion* Routledge 2008
