

Temperature sensor

In the settings and operations described in the following it is assumed that a temperature sensor is connected for a water heater.

In the case of air heaters the temperature sensor installed in the heater and which is provided for control of the heater can also be used to determine the interior temperature.

Add-on unit

An add-on unit can be e.g. a second heater or parking air conditioning. Further, it is also possible to combine a heater with a fan; the fan is then used for air distribution in the vehicle interior.

A heater and the add-on unit can be operated simultaneously or independently of each other.

Note

The number of symbols and displays differs depending on the installed heater and feature options.
