Linguistic Theory in Second Language Acquisition S. Flynn, W. O'Neil, 1988-09-30 Suzanne Flynn and Wayne O Neil Massachusetts Institute of Technology

I INTRODUCTION The theory of Universal Grammar UG as explicated e.g. in Chomsky 1986 has led to explosive developments in the study of natural language as well as to significant advances in the study of first language L1 acquisition Most recently the theory of UG has led to important theoretical and empirical advances in the field of adult second language L2 acquisition as well The principle impetus for this development can be traced to the work in linguistics which shifted the study from behavior or the products of behavior to states of the mind/brain that enter into behavior Chomsky 1986:3 Grammars within this framework are conceived of as theoretical accounts of the state of the mind/brain of the person who knows a particular language Chomsky 1986:3 Research within fields of language acquisition seeks to isolate and specify the properties of the underlying competence necessary for language learning Full development of a theory of UG demands study and understanding of the nature of both the formal properties of language and of the language acquisition process itself However while there is a tradition of debate and dialogue established between theoretical linguistics and L1 acquisition research relatively few connections have been made between linguistic theory and L2 acquisition research
