Descendants of Italian Migrants to the United States, 1884-Present Christa Wirth, 2015-02-11 Memories of Belonging is a three generation oral history study of the offspring of southern Italians who migrated to Worcester Massachusetts in 1913 Supplemented with the interviewees private documents and working from U S and Italian archives Christa Wirth documents a century of transatlantic migration assimilation and later generation self identification Her research reveals how memories of migration everyday life and ethnicity are passed down through the generations altered and contested while constituting family identities The fact that not all descendants of Italian migrants moved into the U S middle class combined with their continued use of hyphenated identities points to a history of lived ethnicity and societal exclusion Moreover this book demonstrates the extent of forgetting that is required in order to construct an ethnic identity **Food Festivals and**

Local Development in Italy Michele Filippo Fontefrancesco, 2020-10-27 What does the proliferation of food festival tell us about rural areas How can these celebrations pave the way to a better future for the local communities This book is addressing these questions contributing to the ongoing debate about the future of rural peripheries in Europe The volume is based on the ethnographic research conducted in Italy a country internationally known for its food tradition and one of the European countries where the gap between rural and urban space is most pronounced It offers an anthropological analysis of food festivals exploring the transformational role they have to change and develop rural communities Although the festivals aim mostly at tourism they contribute in a wider way to the life of the rural communities acting as devices through which a community redefines itself reinforces its sociality reshapes the perception and use of the surrounding environment In so doing thus the books suggests to read the festivals not just as celebrations driven by food fashion but rather fundamental grassroots instruments to contrast the effects of rural marginalization and pave the way to a possible better future for the community **The Italian American Heritage** Pellegrino A D'Acierno, 2021-12-12 First published in 1999 The many

Hungering for America Hasia R. DINER,2009-06-30 Millions of immigrants were drawn to American shores not by the mythic streets paved with gold but rather by its tables heaped with food How they experienced the realities of America s abundant food its meat and white bread its butter and cheese fruits and vegetables coffee and beer reflected their earlier deprivations and shaped their ethnic practices in the new land Hungering for America tells the stories of three distinctive groups and their unique culinary dramas Italian immigrants transformed the food of their upper classes and of sacred days into a generic Italian food that inspired community pride and cohesion Irish immigrants in contrast loath to mimic the foodways of the Protestant British elite diminished food as a marker of ethnicity And East European Jews who venerated food as the vital center around which family and religious practice gathered found that dietary restrictions jarred with America s boundless choices These tales of immigrants in their old worlds and in the new demonstrate the role of hunger in driving migration and the significance of food in cementing ethnic identity and community Hasia Diner confirms the well worn adage
