ESP and Psychokinesis Stephen E. Braude, 2002 This work was the first sustained philosophical study of psychic phenomena to follow C D Broad's *LECTURES ON PSYCHICAL RESEARCH* written nearly twenty years earlier The author clearly defines the categories of psychic phenomena surveys the most compelling experimental data and traces their implications for the philosophy of science and the philosophy of mind He considers carefully the abstract presuppositions underlying leading theories of psychic phenomena and he offers bold criticisms of both mechanistic analyses of communication and psychophysical identity theories In addition he challenges the received view that experimental repeatability is the paramount criterion for evaluating parapsychological research and he exposes the deep confusions underlying Jung's concept of synchronicity

ESP and Psychokinesis Stephen E. Braude, 1979 This work was the first sustained philosophical study of psychic phenomena to follow C D Broad's *LECTURES ON PSYCHICAL RESEARCH* written nearly twenty years earlier The author clearly defines the categories of psychic phenomena surveys the most compelling experimental data and traces their implications for the philosophy of science and the philosophy of mind He considers carefully the abstract presuppositions underlying leading theories of psychic phenomena and he offers bold criticisms of both mechanistic analyses of communication and psychophysical identity theories In addition he challenges the received view that experimental repeatability is the paramount criterion for evaluating parapsychological research and he exposes the deep confusions underlying Jung's concept of synchronicity

In Search of the Light Susan J. Blackmore, 2011-03-04 True skepticism has nothing to do with disbelief says Susan Blackmore It is about taking people's claims seriously and trying to understand them As a starry-eyed student Blackmore was convinced of the reality of astral planes telepathy and life after death She was determined to devote her life to parapsychology but what she found wasn't what she had bargained for None of her cleverly devised experiments revealed a hint of the psi she was seeking In a determined effort to find it somehow she tested young children in play groups trained students in imagery and altered states of consciousness and even put Tarot cards to the test She visited haunted houses and was regressed to a past life Finally accused of being a psi inhibitory experimenter with the power of abolishing paranormal effects she visited other more successful experimenters Here she found only errors in their experiments In this new and updated edition of *The Adventures of a Parapsychologist* Blackmore is at last at liberty to explain just what she found in those ill-fated experiments at Cambridge She brings her story up to date in a lively and personal account of one scientist's never-ending search for the paranormal

Interdisciplinary Perspectives on Consciousness and the Self Sangeetha Menon, Anindya Sinha, B. V. Sreekantan, 2013-12-12 This book brings together ancient spiritual wisdom and modern science and philosophy to address age-old questions regarding our existence free will and the nature of conscious awareness Stuart Hameroff MD Professor

Anesthesiology and Psychology and Director Center for Consciousness Studies The University of Arizona Tucson Arizona This book presents a rich broad ranging overview of contemporary research and scholarship into consciousness and the self It is to their credit that the editors have assembled a highly stimulating set of scholars whose expertise cover all the relevant areas I strongly recommend the book to anyone with an interest in understanding the directions in which contemporary thinking about the nature of consciousness is headed B Les Lancaster Emeritus Professor of Transpersonal Psychology Liverpool John Moores University UK This volume is a collection of 23 essays that contribute to the emerging discipline of consciousness studies with particular focus on the concept of the self The essays together argue that to understand consciousness is to understand the self that beholds consciousness Two broad issues are addressed in the volume the place of the self in the lives of humans and nonhuman primates and the interrelations between the self and consciousness which contribute to the understanding of cognitive functions awareness free will nature of reality and the complex experiential and behavioural attributes of consciousness The book presents cutting edge and original work from well known authors and scholars of philosophy psychiatry behavioural sciences and physics This is a pioneering attempt to present to the reader multiple ways of conceptualizing and thus understanding the relation between consciousness and self in a nuanced manner

Signs of Reincarnation James G. Matlock, 2019-06-15 Signs of Reincarnation provides the first comprehensive look at the belief in reincarnation and the evidence for past lives from historical records anthropological studies and contemporary research Matlock discusses various ways the evidence may be interpreted and shows that although reincarnation entails a rejection of the materialist notion that consciousness is generated by the brain it does not require the acceptance of any radically new concepts or the abandonment of well established findings in mainstream psychology or biology This book offers students scholars and anyone interested in the possibility of reincarnation an essential grounding in beliefs cases and theory while opening doors for future research into the extension of consciousness beyond our present lives *Companion to the History of Modern Science* G N Cantor, G.N. Cantor, J.R.R. Christie, M.J.S. Hodge, R.C. Olby, 2020-10-07 The 67 chapters of this book describe and analyse the development of Western science from 1500 to the present day Divided into two major sections The Study of the History of Science and Selected Writings in the History of Science the volume describes the methods and problems of research in the field and then applies these techniques to a wide range of fields Areas covered include the Copernican Revolution Genetics Science and Imperialism the History of Anthropology Science and Religion Magic and Science The companion is an indispensable resource for students and professionals in History Philosophy Sociology and the Sciences as well as the History of Science It will also appeal to the general reader interested in an introduction to the subject
