Essays on Otherness Jean Laplanche, 1999 **Essays on Otherness** Jean Laplanche, 2005-06-20 Since the death of Jacques Lacan Jean Laplanche is now considered to be one of the world's foremost psychoanalytic thinkers. In spite of the influence of his work over the last thirty years remarkably little has been available in English. *Essays On Otherness* presents for the first time in English many of Laplanche's key essays and is the first book to provide an overview of his thinking. It offers an introduction to many of the key themes that characterise his work: seduction, persecution, revelation, masochism, transference and mourning. Such themes have been increasingly both in psychoanalytic thought and in continental philosophy, social and cultural theory and literature, making *Essays On Otherness* indispensable reading for all those concerned with the implications of psychoanalytic theory today.

Translating Worlds Susannah Radstone, Rita Wilson, 2020-09-06 This international and interdisciplinary volume explores the relations between translation, migration and memory. It brings together humanities researchers from a range of disciplines including history, museum studies, memory studies, translation studies and literary, cultural and media studies to examine memory and migration through the interconnecting lens of translation. The innovative perspective adopted by *Translating Worlds* understands translation's explanatory reach as extending beyond the comprehension of one language by another to encompass those complex and multi-layered processes of parsing by means of which the unfamiliar and the familiar, the old home and the new are brought into conversation and connection. Themes discussed include: How memories of lost homes act as aids or hindrances to homemaking in new worlds; How cultural memories are translated in new cultural contexts; Migration affects memory and translation; Migration, language and transcultural memory; Migration, traumatic memory and translation.

The Captivity of Innocence André LaCocque, 2010-04-02 In this study the third panel of a trilogy on Job's tales about evil and innocence in the primeval era, the author turns to Genesis 11:1-9, another parable, this time on the so-called Tower of Babel. *The Captivity of Innocence* analyzes a systemic robotization of society as a way of keeping innocence behind bars, contending that innocence never fails to offend, never fails to stir envy and hate. Here evil is not wrought by an individual like Cain or Lamech but by all the earth so that the summit of evil is now reached before Abraham's breakthrough in Genesis following chapter 12. The present analysis uses a variety of techniques to interpret the biblical text, including historical, critical, literary, sociopolitical, psychoanalytic and deconstructive approaches. The inescapable conclusion is that Babel is the Kafkaesque image of our world and is a powerful paradigm of our hubristic contrivances and constructions. Des Tours de Babel says Derrida in order to deny our finiteness. Then innocence is trampled upon but it is not overcome. Babel, Babylon's fate is to crumble down and to bring up from her ashes the Knight of Faith.

Eros and the Shattering Gaze Kenneth A. Kimmel, 2011 This timely and innovative expose by contemporary Jungian psychoanalyst Ken Kimmel reveals a culturally and historically embedded narcissism underlying men's endlessly driven romantic projections and erotic fantasies that has appropriated their understanding of what love is. Men

enveloped in narcissism fear their interiority and all relationships with emotional depth that prove too overwhelming and penetrating to bear so much so that the other must either be colonized or devalued This wide ranging work offers them hope for transcendence Explores Transcendence of Narcissism in Romance Men s Capacity to Love Kabbalistic Mysticism Post modern Philosophy Contemporary Trends in Psychoanalysis Queering The Terminator David Greven,2017-06-15 The Terminator film series is an unlikely site of queer affiliation The entire premise revolves around both heterosexual intercourse and the woman s pregnancy and giving birth It is precisely the Terminator s indifference to both that signifies it as an unimaginably inhuman monstrosity Indeed the films overarching contention that humanity must be saved rooted as it is in a particular story about pregnancy and birth that exclusively focuses on the heterosexual couple and the family would appear to put it at odds with the political stances of contemporary queer theory Yet as this book argues there is considerable queer interest in the Terminator mythos The films provide a framework for interpreting shifting gender codes and the emergence of queer sexuality over the period of three decades Significantly the series emerges in the Reagan 80s which marked a decisive break with the sexual fluidity of the 70s As a franchise and on the individual basis of each film The Terminator series combines both radical and reactionary elements Each film reflects the struggles over gender and sexuality specific to its release At the same time the series foregrounds the intersection of technology and gender that has become a definitive aspect of contemporary experience A narrative organized around a conservative view of female sexuality and the family the Terminator myth is nevertheless a richly suggestive narrative for queer theory and gender studies Interrupting Derrida Geoffrey Bennington,2014-05-01 One of the most significant contemporary thinkers in continental philosophy Jacques Derrida s work continues to attract heated commentary among philosophers literary critics social and cultural theorists architects and artists This major new work by world renowned Derrida scholar and translator Geoffrey Bennington presents incisive new readings of both Derrida and interpretations of his work Part one sets out Derrida s work as a whole and examines its relevance to and interruption of the traditional domains of ethics politics and literature The second part of the book presents compelling insights into some important motifs in Derrida s work such as death friendship psychoanalysis time and endings The final section introduces trenchant appraisals of other influential accounts of Derrida s work This influential and original contribution to the literature on Derrida is marked by a commitment to clarity and accuracy but also by a refusal to simplify Derrida s often difficult thought Relating Narratives Adriana Cavarero,2014-02-25 *Relating Narratives* is a major new work by the philosopher and feminist thinker Adriana Cavarero First published in Italian to widespread acclaim *Relating Narratives* is a fascinating and challenging new account of the relationship between selfhood and narration Drawing a diverse array of thinkers from both the philosophical and the literary tradition from Sophocles and Homer to Hannah Arendt Karen Blixen Walter Benjamin and Borges Adriana Cavarero s theory of the narratable self shows how narrative models in philosophy and literature can open new ways of thinking about formation of human identities By

showing how each human being has a unique story that can be told about them Adriana Cavarero inaugurates an important shift in thinking about subjectivity and identity which relies not upon categorical or discursive norms but rather seeks to account for who each one of us uniquely is **Freud and the Problem of Sexuality** Bradley Ramos,2024-03-01 While contemporary studies have paid renewed attention to the psychoanalytic theory of sexuality and routinely reference Sigmund Freud they seldom engage directly with his work Freud and the Problem of Sexuality returns to Freud's writings to argue that there is still something revolutionary and novel to be found there something that will come to challenge both philosophical and popular understandings of sexuality In lively accessible prose Bradley Ramos revisits some of the most difficult even troubling aspects of Freud's work and sheds fresh light on foundational concepts such as Trieb drive or instinct perversion infantile sexuality and the Oedipus complex Reading Freud alongside Jean Laplanche Louis Althusser and Jacques Derrida we can begin to see why sexuality becomes for us as it did for Freud a problem in and by its nature However to take this problem of sexuality seriously Ramos argues we must dare to do what most refuse renounce our persistent fantasies and assumptions about sexuality *Encountering the Nigerian State* W. Adebani, E. Obadare,2010-07-05 This volume advances extant reflections on the state constituted as the Ur Power in society particularly in Africa It analyzes how various agents within the Nigerian society encounter the state ranging from the most routine form of contact to the spectacular While many recent collections have reheated the old paradigms of the perils of federalism corruption ethnicity etc our focus here is on encounter that is the nuance and complexity of how the state shapes society and vice versa Through this we depart from the standard state versus society approach that proves so limiting in explaining the African political landscape Interrogating Trauma Mick Broderick, Antonio Traverso,2013-09-27 Throughout the past century traumatic experiences have been re-enacted frequently by evolving media and art forms Now there is a significant body of theory across academic disciplines focused on the representation of cataclysmic European and US historical events However less critical attention has been devoted to the representation of havoc outside the West even though depictions of Third World disasters saturate contemporary media and art around the globe This book considers traumatic histories internationally in a broad range of creative arts and visual media representations Deploying diverse applications of the conventional theories of trauma it examines the theoretical limitations at the same time as considering alternative methodologies Interrogating Trauma is concerned with the examination of the concept of trauma and how it is often unproblematically used to theorise the cultural representation of disaster and atrocity It offers a theorisation of trauma in order to reappraise the relationship between cultural representation and the socio-historical processes which are marked by violence conflict and suffering This book was published as a special issue of Continuum Journal of Media and Cultural Studies Kant Trouble Diane Morgan,2002-09-11 Kant Trouble offers a highly original and incisive reading of some of the lesser known aspects of Kantian thought Throughout Morgan challenges the widely held view of Kant as the exponent of concrete and rigid rationality and argues that his airtight

architectonic mode of reasoning overlooks certain topics which destabilise it These include temporary forms of architecture such as landscape gardening examples which undermine the autonomy of the Kantian subject for example freemasonry and the concept of radical evil all of which suggest that Kant's thought was capable of accommodating troubling and subversive themes Morgan's compelling discussion arrives at a fresh and ground breaking perspective on Kant whereby he is no longer to be regarded as a concrete rationalist but as a daring thinker not afraid to entertain ideas highly threatening to his own system and to the humanistic legacy of the enlightenment

Remembering Migration Kate Darian-Smith, Paula Hamilton, 2019-08-10 This book provides the first comprehensive study of diverse migrant memories and what they mean for Australia in the twenty first century Drawing on rich case studies it captures the changing political and cultural dimensions of migration memories as they are negotiated and commemorated by individuals communities and the nation Remembering Migration is divided into two sections the first on oral histories and the second examining the complexity of migrant heritage and the sources and genres of memory writing The focused and thematic analysis in the book explores how these histories are re remembered in private and public spaces including museum exhibitions heritage sites and the media Written by leading and emerging scholars the collected essays explore how memories of global migration across generations contribute to the ever changing social and cultural fabric of Australia and its place in the world

Traumatic Neurosis Revisited Leslie Chapman, 2025-06-15 This book argues that Freud's theory of the traumatic neuroses can provide a conceptual bridge between the Lacanian idea of an inaugural or founding trauma that constitutes the human subject and the more popular idea that trauma is brought about by external events for example war or sexual violence It proposes a new reading of Freud's theory which draws on Lacanian concepts including the Real jouissance the idea of suture and Lacan's deconstruction of Freud's drive theory It also argues for a cybernetic reading of Lacan's theory of language which he outlined in his second Seminar and for a reappraisal of Freud's concept of Nachträglichkeit as a way to facilitate a better understanding of the retroactive nature of trauma and its relation to language and the drive In doing so it offers a challenge to key assumptions underpinning the dominant discourse of trauma which is exemplified in what the author terms the PTSD paradigm In particular it challenges the idea that trauma is something that simply happens to human beings and that its effects that can be eradicated through the construction of various forms of trauma narrative for example in psychotherapy and different types of collective histories In the development of this argument the author also draws on the work of Jean Laplanche which has previously been under utilised in mainstream Lacanian theory and practice This book sheds new light on the relationship between the traumatic effects of the signifier and the impact of the external world It will be of interest to practitioners as well as to students and scholars of psychoanalysis and philosophy

The Hypocritical Imagination John Llewellyn, 2008-03-07 For philosophers such as Kant the imagination is the starting point for all thought For others such as Wittgenstein what is important is only how the word imagination is used In spite of the attention the imagination has

received from major philosophers remarkably little has been written about the radically different interpretations they have made of it The HypoCritical Imagination Between Kant and Levinas is an outstanding contribution to this vacuum Focusing on Kant and Levinas John Llewelyn takes us on a dazzling tour of the philosophical imagination He shows us that despite the different treatments they accord to the imagination there is much to be gained from comparing these two key thinkers From Kant Llewelyn shows how the imagination is the common root of all understanding He contrasts this with the thought of Emmanuel Levinas for whom the imagination plays an ambivalent role both as necessary for and a threat to recognition of the other John Llewelyn also introduces the importance of the work of Heidegger Schelling Hegel Arendt and Derrida on the imagination and what this work can tell us about the relationship between the imagination and ethics aesthetics and literature The HypoCritical Imagination Between Kant and Levinas is a brilliant reading of a neglected but important philosophical theme and is essential reading for those in contemporary philosophy art theory and literature

Critique of Violence Beatrice Hanssen, 2014-02-25 Critique of Violence is a highly original and lucid investigation of the heated controversy between poststructuralism and critical theory Leading theorist Beatrice Hanssen uses Walter Benjamin's essay Critique of Violence as a guide to analyse the contentious debate shifting the emphasis from struggle to dialogue between the two parties Regarding the questions of critique and violence as the major meeting points between both traditions Hanssen positions herself between the two in an effort to investigate what critical theory and poststructuralism have to offer each other In the course of doing so she assembles imaginative new readings of Benjamin Arendt Fanon and Foucault and incisively explores the politics of recognition the violence of language and the future of feminist theory This groundbreaking book will be essential reading for all students of continental philosophy political theory social studies and comparative literature Also available in this series Essays on Otherness Hb 0 415 13107 3 50 00 Pb 0 415 13108 1 15 99 Hegel After Derrida Hb 0 415 17104 4 50 00 Pb 0 415 17105 9 15 99 The Hypocritical Imagination Hb 0 415 21361 4 47 50 Pb 0 415 21362 2 15 99 Philosophy and Tragedy Hb 0 415 19141 6 45 00 Pb 0 415 19142 4 14 99 Textures of Light Hb 0 415 14273 3 42 50 Pb 0 415 14274 1 13 99 Very Little Almost Nothing Pb 0 415 12821 8 47 50 Pb 0 415 12822 6 15 99
