Essays On Woman The Collected Works Of Edith Stein:

Essays on Woman Edith Stein, 1996 With reason Edith Stein has been called the most significant German woman of this century Her writings on woman are the fruit of both reflection and debate with other leaders of the Catholic feminist movement in German speaking countries between the World Wars from back cover *Essays on Woman* Edith Stein (sainte).), 1987

Edith Stein Essays on Woman Edith Stein, 2012-10-30 To help celebrate the fourth centenary of the birth of St John of the Cross in 1542 Edith Stein received the task of preparing a study of his writings She uses her skill as a philosopher to enter into an illuminating reflection on the difference between the two symbols of cross and night Pointing out how entering the night is synonymous with carrying the cross she provides a condensed presentation of John's thought on the active and passive nights as discussed in *The Ascent of Mount Carmel* and *The Dark Night* All of this leads Edith to speak of the glory of resurrection that the soul shares through a unitive contemplation described chiefly in *The Living Flame of Love* In the summer of 1942 the Nazis without warrant took Edith away The nuns found the manuscript of this profound study lying open in her room Because of the Nazis merciless persecution of Jews in Germany Edith Stein traveled discreetly across the border into Holland to find safe harbor in the Carmel of Echt But the Nazi invasion of Holland in 1940 again put Edith in danger The cross weighed down heavily as those of Jewish birth were harassed Sr Teresa Benedicta of the Cross's superiors then assigned her a task they thought would take her mind off the threatening situation The fourth centenary of the birth of St John of the Cross 1542 was approaching and Edith could surely contribute a valuable study for the celebration It is no surprise that in view of her circumstances she discovered in the subject of the cross a central viewpoint for her study A subject like this enabled her to grasp John's unity of being as expressed in his life and works Using her training in phenomenology she helps the reader apprehend the difference in the symbolic character of cross and night and why the night symbol prevails in John She clarifies that detachment is designated by him as a night through which the soul must pass to reach union with God and points out how entering the night is equivalent to carrying the cross Finally in a fascinating way Edith speaks of how the heart or fountainhead of personal life an inmost region is present in both God and the soul and that in the spiritual marriage this inmost region is surrendered by each to the other She observes that in the soul seized by God in contemplation all that is mortal is consumed in the fire of eternal love The spirit as spirit is destined for immortal being to move through fire along a path from the cross of Christ to the glory of his resurrection Book includes two photos and fully linked index

Edith Stein and Regina Jonas Emily Leah Silverman, 2014-09-03 This ground breaking book examines the lives of two extraordinary religious women Both Edith Stein and Regina Jonas were German Jewish women who

demonstrated deviant religious desires as they pursued their spiritual paths to serve their communities during the Holocaust Both were religious visionaries viewed as iconoclasts in their own times Stein the first woman to receive a doctorate in philosophy from Husserl the founder of phenomenology claimed her Jewish identity while she was still a cloistered Carmelite nun Jonas the first woman rabbi in Jewish history served as a rabbi in Berlin and Theresienstadt concentration camp A study of a contemplative and a rabbi the book ranges across many spiritual and theological questions not least it offers a remarkable exploration of the theology of spiritual resistance For Stein this meant redemption and the transmutation of suffering on the cross for Jonas acts of compassion bring the face of God into our presence

Person and Dignity in Edith Stein's Writings Jadwiga Guerrero van der Meijden, 2019-07-08 Edith Stein is widely known as a historical figure a victim of the Holocaust and a saint but still unrecognised as a philosopher It was philosophy however that constituted the core of her life Today her complete writings are available to scholars and therefore her thinking can be properly investigated and evaluated Who is a human person And what is his or her dignity according to Edith Stein Those are the two leading questions

investigated in this volume The answer is presented based on the complete writings of the 20th c phenomenologist and moreover compared to the traditional Christian understanding of human dignity present in the writings of the Church Fathers and the Doctors of the Church as well as Magisterial Documents of the Catholic Church In the final parts of the book the author shows how Stein s ideas are relevant today in particular to the ongoing doctrinal and legal debates over the concept of human dignity

Gender Complementarity and Christian Personalism Mary Veronica Sabelli,John P. Hittinger,2025 When in the 1970 s Sister Prudence Allen RSM began to investigate philosophical thought on woman the question was considered to be at best a

marginal area for philosophical research Rather it was seen as a sociological anthropological psychological or political issue This book confirms that today partly due to Allen s groundbreaking work the complementarity of man and woman is an important and fruitful area of research in philosophy providing an evaluative framework that enriches and challenges many other disciplines No one could have foreseen the centrality of her research for questions of gender theory that are in the third decade of the 21st century in the forefront of public attention In the present volume leading authors in the area of sex gender complementarity reflect upon and further develop various aspects of Allen s research In 14 original scholarly essays some contributors build upon Allen s project of exploring the concept of woman throughout the history of philosophy Others explore the work of 20th century philosophers most of them Christian Personalists whom Allen credits with significant influence on the development of integral gender complementarity such as Karol Wojtya a John Paul II Jacques Maritain Edith Stein Emmanuel Mounier W Norris Clarke SJ and Bernard Lonergan SJ Still other contributors consider Marian spirituality analogies between Benedictine spirituality and the physiological realities of a woman s body during pregnancy seminary education in the writings of Allen and others and the impact of Allen s work on the real lives of women in families the Church and professional life Upon completing her magisterial three volume work *The Concept of Woman* Allen passed the baton to a new generation of scholars stating The next phases will be developed by those who themselves take the argument further and deeper in their own research writing living and lecturing The present volume takes up the baton carrying Allen s work forward and paying tribute to the lifetime achievement of a great scholar
