Dana Oswald, 2024-05-28 Despite reliance on ingredients like horse dung Old English remedies for women's medicine speak to contemporary reproductive concerns Previous translators reduced the remedies to a general category of women's medicine but sustained examination of language reveals important distinctions remedies for menstruation indicate social concerns about fertility where remedies for cleansing do not provide a clear path to conception but rather foreclose it Rarest of all are the remedies for childbirth but their rarity is compounded by the practices of translators who conflate the language for women's reproduction into an amorphous singularity Through an original method of hysteric philology the combining of traditional philology with contemporary feminist and medical epistemologies this book situates itself in the historical treatment of reproductive people as both objects and subjects of medical practice and gestures forward in time to the contemporary struggle for bodily autonomy *Quest for Conception* Marcia C. Inhorn, 1994-08 In *Quest for Conception* Marcia C Inhorn portrays the poignant struggles of poor urban Egyptian women and their attempts to overcome infertility The author draws upon fifteen months of fieldwork in urban Egypt to present moving stories of infertile Muslim women whose tumultuous medical pilgrimages have yet to produce the desired pregnancies Inhorn examines the devastating impact of infertility on the lives of these women who are threatened with divorce by their husbands harassed by their husbands families and ostracized by neighbors Handbook of diet and nutrition in the menstrual cycle, periconception and fertility
