Kuldova, 2016-03-24 This unique ethnographic investigation examines the role that fashion plays in the production of the contemporary Indian luxury aesthetic Tracking luxury Indian fashion from its production in village craft workshops via upmarket design studios to fashion soir es Kuldova investigates the Indian luxury fashion market s dependence on the production of thousands of artisans all over India revealing a complex system of hierarchies and exploitation In recent years contemporary Indian design has dismissed the influence of the West and has focused on the opulent heritage luxury of the maharajas Gulf monarchies and the Mughal Empire *Luxury Indian Fashion* argues that the desire for a luxury aesthetic has become a significant force in the attempt to define contemporary Indian society From the cultivation of erotic capital in businesswomen s dress to a discussion of masculinity and muscular neo royals to staged designer funerals *Luxury Indian Fashion* analyzes the production consumption and aesthetics of luxury and power in India *Luxury Indian Fashion* is essential reading for students of fashion history and theory anthropology and visual culture *The Dundurn Group* The Dundurn

Group, **The Tyranny of Clichés** Jonah Goldberg, 2013-04-30 An indispensable and enduring field guide to the arguments the left makes and the ones it tries to avoid *The Claremont Review of Books* According to Jonah Goldberg if the greatest trick the devil ever pulled was convincing the world he didn t exist the greatest trick liberals ever pulled was convincing themselves they re not ideological Today objective journalists academics and moderate politicians peddle some of the most radical arguments by hiding them in homespun aphorisms Barack Obama casts himself as a disciple of reason He s a pragmatist opposed to the ideology and drama of the Right solely concerned with what works And today s liberals follow his lead spouting countless clichés such as One man s terrorist is another man s freedom fighter Sure if the other man is an idiot Was Martin Luther King Jr a terrorist Was Bin Laden a freedom fighter Violence never solves anything Really It solved our problems with King George III and ended slavery We need complete separation of church and state In other words all expressions of faith should be barred from politics except when they support liberal programs With humor and passion Goldberg dismantles these and many other Trojan horses that liberals use to cheat in the war of ideas He shows that the Progressive tradition of denying an ideological agenda while pursuing it vigorously under the false flag of reasonableness is alive and well And he reveals how this dangerous game may lead us further down the path of self destruction *P11, Painters Eleven* Iris Nowell, 2011 In 1953 eleven Canadian Abstract Expressionist artists banded together to break through the

barricades of traditional art at a time when landscapes were about the only paintings collectors were buying Hungry for recognition raging against the art establishment that was shutting them out they decided to form a collective expecting they would gain more attention as a group than as solo artists In 1954 The Painters Eleven Jack Bush Oscar Cah n Hortense Gordon Tom Hodgson Alexandra Luke Jock Macdonald Ray Mead Kazuo Nakamura William Ronald Harold Town and Walter Yarwood held their first exhibition in Toronto Initially the public response echoed the worldwide sentiments toward Abstract Expressionism mockery and bewilderment Nevertheless the exhibition attracted wide public interest and criticism faded into acclaim from critics and collectors alike A successful 1956 exhibition at the Riverside Gallery in New York even elicited praise from the influential critic Clement Greenberg Packed with gorgeous full color reproductions this highly detailed account reveals the influences of the individual artists on the group s dynamic art and uncovers why the Painters Eleven had such a struggle for recognition and why they acheived it so masterfully Top 40 Democracy Eric Michael Weisbard,2008

The British National Bibliography Arthur James Wells,2005 **The Book Review Digest** ,2004 *Changing State-society Relations In Contemporary China* Wei Shan,Lijun Yang,2016-08-30 This book attempts to provide an overview of social and political changes in Chinese society since the global financial crisis Rapid economic development has restructured the setup of society and empowered or weakened certain social players The chapters in this book provide an updated account of a wide range of social changes including the rise of the middle class and private entrepreneurs the declining social status of the working class as well as the resurgence of non governmental organisations and the growing political mobilisation on the internet The authors also examine the implications of those changes for state society relations governance democratic prospects and potentially for the stability of the current political regime **Rich Russians** Elisabeth Schimpfössl,2018 By looking at the top 0.1 percent of Russian society this book captures the stories of multimillionaires and billionaires their spouses and their children It traces how rich Russians moved from conspicuously spending cash into a conscious social class legitimizing their wealth through philanthropy and more bourgeois manners As the first book to examine the transformation of Russia s former robber barons into a new social class Rich Russians provides insight into how the Russian s status quo and post Putin world will develop *Sustainable Consumption* Alistair Ulph,Dale Southerton,2014-08-14 If global society is to address the many environmental and other sustainability challenges that confront us in the twenty first century such as climate change and water resources it will be necessary to make significant changes in our patterns of consumption production and distribution There is a growing realization that while changes in production and distribution are formidable the proposed solutions may not succeed unless it is possible to persuade individuals and households to change their patterns of consumption to make them more sustainable However there are significant differences in how key disciplines such as psychology neuroscience economics politics sociology anthropology and history conceptualise consumption empirically test their theoretical predictions and use these to inform policy makers across the private public and third sectors on how to

make consumption more sustainable This book contains chapters from world leading experts in these different disciplines that seek to explain the perspectives on sustainable consumption of their disciplines suggest how these might be further enriched by taking on board some of the findings from other disciplines and consider what this implies for new policies to address the key sustainability challenges outlined above The book is dedicated to Professor Sir Partha Dasgupta one of the world's leading economists who has worked across a range of topics including environmental and resource economics and development economics and throughout his career has sought to incorporate into his economic thinking ideas from a range of other disciplines

Brazilian Elites and their Philanthropy Jessica Sklair, 2021-11-04 This book explores the philanthropy of Brazilian elites during a key period in recent Brazilian history from Workers Party president Lula's last term in office through to the election of far right president Jair Bolsonaro Against this backdrop of political upheaval the book asks what philanthropy can reveal about the role of corporate and wealth elites in upholding the structures of socioeconomic inequality that continue to define Brazilian society The book argues that around the world the private sector's growing engagement in international development has led to the emergence of a global philanthropic project centred on practices of philanthrocapitalism and social finance which ultimately seeks to legitimise global capitalism and the elite interests it serves Drawing on an in depth and wide ranging ethnographic study among philanthropists and their advisors in over 30 Brazilian foundations and intermediary organisations the book combines a structural critique of the capitalist ideologies underlying philanthropic practice with a robust exploration into the ways in which wealthy Brazilians appropriate philanthropy directly to legitimise elite reproduction and the accumulation of wealth Researchers across Latin American studies development studies and the anthropology of development will find this book a timely contribution to the under researched areas of elite studies and the study of philanthropy

Consumption and the Country House Jon Stobart, Mark Rothery, 2016-05-20 This study explores the consumption practices of the landed aristocracy of Georgian England Focussing on three families and drawing on detailed analysis of account books receipted bills household inventories diaries and correspondence Consumption and the Country House charts the spending patterns of this elite group during the so called consumer revolution of the eighteenth century Generally examined through the lens of middling families homes and motivations this book explores the ways in which the aristocracy were engaged in this wider transformation of English society Analysis centres on the goods that the aristocracy purchased both luxurious and mundane the extent to which they pursued fashionable modes and goods the role that family and friends played in shaping notions of taste the influence of gender on taste and refinement the geographical reach of provisioning and the networks that lay behind this consumer activity and the way this all contributed to the construction of the country house The country house thus emerges as much more than a repository of luxury and splendour it lay at the

heart of complex networks of exchange sociability demand and supply Exploring these processes and relationships serves to reanimate the country house making it an active site of consumption rather than simply an expression of power and taste and drawing it into the mainstream of consumption histories At the same time the landed aristocracy are shown to be rounded consumers driven by values of thrift and restraint as much as extravagant desires and valuing the old as well as the new not least as markers of their pedigree and heritage
