to be a literal commentary on Die Ph nomenologie des Geistes It was the conscious goal of my thirty year struggle with Hegel to write an explanatory commentary on this book and with its completion I regard my own working career as concluded The prevailing habit of commentators is founded on the general consensus of opinion that whatever else it may be Hegel s Phenomenology is not the logical Science that he believed it was This is the received view that I want to overthrow But if I am right then an acceptably continuous chain of argument paragraph by paragraph ought to be discoverable in the text
