**John D. Marquez**

## **Genocidal Democracy Neoliberalism Incarceration Postcolonial:**

**The Pirate Myth** Amedeo Policante, 2015-01-09 The image of the pirate is at once spectral and ubiquitous. It haunts the imagination of international legal scholars, diplomats and statesmen involved in the war on terror. It returns in the headlines of international newspapers as an untimely security threat. It materializes on the most provincial cinematic screen and the most acclaimed works of fiction. It casts its shadow over the liquid spatiality of the Net where cyber activists file sharers and a large part of the global youth are condemned as pirates often embracing that definition with pride rather than resentment. Today the pirate remains a powerful political icon embodying at once the persistent nightmare of an anomic wilderness at the fringe of civilization and the fantasy of a possible anarchic freedom beyond the rigid norms of the state and of the market. And yet what are the origins of this persistent pirate myth in the Western political imagination? Can we trace the historical trajectory that has charged this ambiguous figure with the emotional political and imaginary tensions that continue to characterize it? What can we learn from the history of piracy and the ways in which it intertwines with the history of imperialism and international trade? Drawing on international law, political theory and popular literature, *The Pirate Myth* offers an authoritative genealogy of this immortal political and cultural icon, showing that the history of piracy, the different ways in which pirates have been used, outlawed and suppressed by the major global powers but also fantasized, imagined and romanticised by popular culture, can shed unexpected light on the different forms of violence that remain at the basis of our contemporary global order.

**Puerto Rico and the Origins of U.S. Global Empire** Charles R.

Venator-Santiago, 2015-03-05 Drawing on a postcolonial legal history of the United States territorial expansionism, this book provides an analysis of the foundations of its global empire. Charles R. Venator-Santiago argues that the United States has developed three traditions of territorial expansionism with corresponding constitutional interpretations: namely, colonialist, imperialist and global expansionist. This book offers an alternative interpretation of the origins of US global expansion, suggesting it began with the tradition of territorial expansionism following the 1898 Spanish American War to legitimate the annexation of Puerto Rico and other non contiguous territories. The relating constitutional interpretation grew out of the 1901 Insular Cases in which the Supreme Court coined the notion of an unincorporated territory to describe the 1900 Foraker Act's normalization of the prevailing military territorial policies. Since then the United States has invoked the ensuing precedents to legitimate a wide array of global policies including the war on terror. *Puerto Rico and the Origins of US Global Empire* combines a unique study of Puerto Rican legal history with a new interpretation of contemporary US policy. As such, it provides a valuable resource for students and scholars of the legal and historical disciplines, especially those with a specific interest in American and postcolonial studies.

**The Democracy Development Machine** Nicholas Copeland, 2019-05-15 Nicholas Copeland sheds new light on rural politics in Guatemala and across neoliberal and post conflict settings in *The Democracy Development Machine*. This historical ethnography examines how

governmentalized spaces of democracy and development fell short enabling and disfiguring an ethnic Mayan resurgence In a passionate and politically engaged book Copeland argues that the transition to democracy in Guatemalan Mayan communities has led to a troubling paradox He finds that while liberal democracy is celebrated in most of the world as the ideal it can subvert political desires and channel them into illiberal spaces As a result Copeland explores alternative ways of imagining liberal democracy and economic and social amelioration in a traumatized and highly unequal society as it strives to transition from war and authoritarian rule to open elections and free market democracy The Democracy Development Machine follows Guatemala s transition reflects on Mayan involvement in politics during and after the conflict and provides novel ways to link democratic development with economic and political development Thanks to generous funding from Virginia Tech and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access OA volumes from Cornell Open [cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open) and other Open Access repositories

**Genocidal Democracy** John D. Marquez, 2015-12-15 Over the past three decades the rate at which blacks and Latinos are murdered or are murdered by one another in the United States has increased exponentially Social scientists have generally argued that this ghetto violence is but one consequence of deindustrialization and the systematic exclusion of black and Latino families from the middle class But this book problematizes the assumption that middle class assimilation or economic inclusion can provide a remedy to ghetto violence To this end it identifies two primary issues The first is that the subaltern is most commonly represented as an artifact of victimization and so as a group who cannot escape their own chaos pathology or savagery Second middle class inclusion is prescribed as a remedy for ghetto violence without a deeper consideration of how the very idea of the middle class and its values has been produced in opposition to the very groups to whom the extension of these values is proposed Against this background Genocidal Democracy locates the origins of ghetto violence within the racial and colonial architecture of European modernity And as such it argues this violence must find its remedy outside of a modern liberal and capitalist state apparatus which according to this legacy continues to promote the idea that groups like blacks and Latinos are either a burden or a threat to the body politic

**Breaking Free of Neoliberalism: Canada's Challenge** ALEX HIMELFARB, 2024-09-13 Neoliberalism idealizing free market capitalism sets the boundaries for how we are governed in Canada no matter who is in power Author ALEX HIMELFARB explores why these ideas persist when the need for dramatic action on issues like inequality and global warming is obvious to all Neoliberalism free market capitalism and the view that freedom is society s highest value has become embedded in the fabric of Canadian government and society Neoliberal theorists marginalized for decades after the Second World War saw their ideas embraced by Margaret Thatcher and Ronald Reagan who implemented their policies in the 1980s and 90s Neoliberalism arrived in Ottawa with the Mulroney government in 1984 and has continued as widely accepted common sense about government until today Neoliberalism s basic tenets reduce public services in favour of privatization cut taxes to benefit business demonize

government deficits limit government regulation and enable corporations to self regulate continue to be promoted by its corporate champions and think tank advocates Yet the experiences of the last decade in Canada and internationally have demonstrated the emptiness of neoliberalism and demonstrated the crucial role government plays in society Challenges from financial market crises to the COVID 19 pandemic and climate change underscore how vital government action can be in our lives

**Power and Resistance** Wayne Antony, 2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to Power and Resistance use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus

The SAGE Handbook of Qualitative Research Norman K. Denzin, Yvonna S. Lincoln, 2017-01-05 The substantially updated and revised Fifth Edition of this landmark handbook presents the state of the art theory and practice of qualitative inquiry Representing top scholars from around the world the editors and contributors continue the tradition of synthesizing existing literature defining the present and shaping the future of qualitative research The Fifth Edition contains 19 new chapters with 16 revised making it virtually a new volume while retaining six classic chapters from previous editions New contributors to this edition include Jamel K Donnor and Gloria Ladson Billings Margaret Kovach Paula Saukko Bryant Keith Alexander Thomas A Schwandt and Emily F Gates Johnny Salda a Uwe Flick Mirka Koro Ljungberg Maggie MacLure and Jasmine Ulmer Maria Elena Torre Brett G Stoudt Einat Manoff and Michelle Fine Jack Bratich Svend Brinkmann Eric Margolis and Renu Zunjarwad Annette N Markham Alecia Y Jackson and Lisa A Mazzei Jonathan Wyatt Ken Gale Susanne Gannon and Bronwyn Davies Janice Morse Peter Dahler Larsen Marc Spooner and David A Westbrook

Area Studies at the Crossroads Katja Mielke, Anna-Katharina Hornidge, 2017-02-28 In this pioneering volume leading scholars from a diversity of backgrounds in the humanities social sciences and different area studies argue for a more differentiated and self reflected role of area based science in global knowledge production Considering that the mobility of people goods and ideas make the world more complex and geographically fixed categories increasingly obsolete the authors call for a reflection of this new dynamism in research teaching and theorizing The book thus moves beyond the constructed divide between area studies and systematic disciplines and instead proposes methodological and conceptual ways for encouraging the integration of marginalized and often overseen epistemologies Essays on the ontological theoretical and pedagogical dimension of area studies highlight how

people's everyday practices of mobility challenge scholars, students and practitioners of inter and transdisciplinary area studies to transcend the cognitive boundaries that scholarly minds currently operate in

**Gender in Twentieth-Century Eastern Europe and the USSR** Catherine Baker, 2016-09-29 A concise and accessible introduction to the gender histories of eastern Europe and the Soviet Union in the 20th century. These essays juxtapose established topics in gender history such as motherhood, masculinities, work and activism with newer areas such as the history of imprisonment and the transnational history of sexuality. By collecting these essays in a single volume, Catherine Baker encourages historians to look at gender history across borders and time periods, emphasising that evidence and debates from Eastern Europe can inform broader approaches to contemporary gender history.

*Writing and Righting* Lyndsey Stonebridge, 2021 Lyndsey Stonebridge presents a new way to think about the relationship between literature and human rights that challenges the idea that empathy inspires action.

**The Feminist Philosophy Reader** Alison Bailey, Chris Cuomo, 2008 The most comprehensive anthology of feminist philosophy available. This first edition reader brings together over 55 of the most influential and time-tested works to have been published in the field of feminist philosophy. Featuring perspectives from across the philosophical spectrum and from an array of different cultural vantage points, it displays the incredible range, diversity and depth of feminist writing on fundamental issues from the early second wave to the present.
