General Manuel Ignacio De Vivanco:

The Triumph of Revolution Ruben Ygua,2025-05-04 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That s how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for now covers from 1789 to 1946 divided into five collections

The First Industrial Powers Ruben Ygua,2025-05-21 We have complicated the study of the past by giving greater importance to nationalist religious and moral opinions and interests relegating historical fact to a secondary role subordinating it to the interests of the system that controls our education We cannot accept this manipulation it is our duty to free ourselves from these false cultural truths out of respect for our ancestors After many years studying history I have come to the conclusion that the best way to understand the past is through an impartial and objective chronology that places each event in its exact place in time and reveals history without manipulation or half truths Chronologies have always been a secondary complement to traditional study methods but in my books they constitute the center of the narrative a comprehensive reference work that runs year by year as far as possible from prehistory to the present For those who prefer a more detailed study I have organized a second chronology covering day by day from 1789 to 1946 divided into four collections
