**Gnostic Philosophy** Tobias Churton, 2005-01-25 An extensive examination of the history of gnosticism and how its philosophy has influenced the Western esoteric tradition Explains how the Gnostic understanding of self realization is embodied in the esoteric traditions of the Rosicrucians and Freemasons Explores how gnosticism continues to influence contemporary spirituality Shows gnosticism to be a philosophical key that helps spiritual seekers remember their higher selves Gnosticism was a contemporary of early Christianity and its demise can be traced to Christianity s efforts to silence its teachings The Gnostic message however was not destroyed but simply went underground Starting with the first emergence of Gnosticism the author shows how its influence extended from the teachings of neo Platonists and the magical traditions of the Middle Ages to the beliefs and ideas of the Sufis Jacob B hme Carl Jung Rudolf Steiner and the Rosicrucians and Freemasons In the language of spiritual freemasonry gnosis is the rejected stone necessary for the completion of the Temple a Temple of a new cosmic understanding that today s heirs to Gnosticism continue to strive to create The Gnostics believed that the universe embodies a ceaseless contest between opposing principles Terrestrial life exhibits the struggle between good and evil life and death beauty and ugliness and enlightenment and ignorance gnosis and agnosis The very nature of physical space and time are obstacles to humanity s ability to remember its divine origins and recover its original unity with God Thus the preeminent gnostic secret is that we are God in potential and the purpose of bona fide gnostic teaching is to return us to our godlike nature Tobias Churton is a filmmaker and the founding editor of the magazine Freemasonry Today He studied theology at Oxford University and created the award winning documentary series and accompanying book The Gnostics as well as several other films on Christian doctrine mysticism and magical folklore He lives in England

**The Formation of Post-classical Philosophy in Islam** Frank Griffel, 2021 In recent decades scholars have come to recognize the importance of classical Islamic philosophy both in its own right and in its preservation of and engagement with Western philosophical

ideas At the same time the period immediately following the so called classical period has often been seen as a sort of dark age in which Islamic thought entered a long period of decline In this monumental new work Frank Griffel seeks to overturn this conventional wisdom arguing that what he calls the post classical period has been unjustly maligned and neglected by previous generations of scholars The Formation of Post Classical Philosophy in Islam is a comprehensive study of the far reaching changes that led to a re shaping of the philosophical discourse in Islam during the twelfth century Earlier Western scholars thought that Islam s engagement with the tradition of Greek philosophy ended during that century More recent analyses suggest that Islamic thinkers instead integrated Greek thought into the genre of rationalist Muslim theology kalam Griffel argues that even this view misses a key point In addition to the integration of Greek ideas into kalam Muslim theologians picked up the discourse of philosophy in Islam falsafa and began to produce books on philosophy Books in these two genres kalam and philosophy argue for opposing teachings on the nature of God the world s creation and on the afterlife even when written by the same authors Griffel explains the emergence of a new genre of philosophical books called hikma works that stand opposed to Islamic theology and at the same wish to complement it Offering a detailed history of philosophy in Iraq Iran and Central Asia during the twelfth century together with an analysis of the way philosophy was practiced during this time Griffel shows how works of falsafa written by major Muslim theologians such as al Ghazali developed step by step into critical assessments of philosophy that try to improve philosophical teachings and eventually become fully fledged philosophical summus in the work of Fakhr al Din al Razi Griffel s examination of the different methods of kalam and hikma demonstrate both the coherence and ambiguity of a Muslim post classical philosopher s oeuvre A work of extraordinary breadth and depth The Formation of Post Classical Philosophy in Islam will be essential reading for anyone interested in the history of Philosophy or the history of Islam Studies on Contemporary Chinese Philosophy (1949-2009) Qiyong

**Philosophy the Lost Dimension , The Role of Contradictions in Spinoza's Philosophy** Yuval Jobani,2016-01-29 Spinoza is commonly perceived as the great metaphysician of coherence The Euclidean manner in which he presented his philosophy in the Ethics has led readers to assume they are facing a strict and consistent philosophical system that necessarily follows from itself As opposed to the prevailing understanding of Spinoza and his work The Role of Contradictions

in Spinoza's Philosophy explores an array of profound and pervasive contradictions in Spinoza's system and argues they are deliberate and constitutive of his philosophical thinking and the notion of God at its heart. Relying on a meticulous and careful reading of the Theological Political Treatise and the Ethics, this book reconstructs Spinoza's philosophy of contradictions as a key to the ascending three degrees of knowledge leading to the Amor intellectualis Dei. Offering an exciting and clearly argued interpretation of Spinoza's philosophy, this book will interest students and scholars of modern philosophy and philosophy of religion as well as Jewish studies. Yuval Jobani is Assistant Professor at the Department of Hebrew Culture Studies and the School of Education at Tel Aviv University.

Philosophy in the Islamic World Peter Adamson, 2016-06-10 The latest in the series based on the popular History of Philosophy podcast, this volume presents the first full history of philosophy in the Islamic world for a broad readership. It takes an approach unprecedented among introductions to this subject by providing full coverage of Jewish and Christian thinkers as well as Muslims and by taking the story of philosophy from its beginnings in the world of early Islam all the way through to the twentieth century. Major figures like Avicenna, Averroes and Maimonides are covered in great detail, but the book also looks at less familiar thinkers including women philosophers. Attention is also given to the philosophical relevance of Islamic theology, kalam and mysticism, the Sufi tradition within Islam and Kabbalah among Jews, and to science with chapters on disciplines like optics and astronomy. The book is divided into three sections, with the first looking at the first blossoming of Islamic theology and responses to the Greek philosophical tradition in the world of Arabic learning. This formative period culminates with the work of Avicenna, the pivotal figure to whom most later thinkers feel they must respond. The second part of the book discusses philosophy in Muslim Spain, Andalusia, where Jewish philosophers come to the fore, though this is also the setting for such thinkers as Averroes and Ibn Arabi. Finally, a third section looks in unusual detail at later developments touching on philosophy in the Ottoman, Mughal and Safavid empires and showing how thinkers in the nineteenth to the twentieth century were still concerned to respond to the ideas that had animated philosophy in the Islamic world for centuries, while also responding to political and intellectual challenges from the European colonial powers.
