## **Genocide A History From Carthage To Darfur:**

Genocide on Settler Frontiers Mohamed Adhikari, 2015-06-01 European colonial conquest included many instances of indigenous peoples being exterminated Cases where invading commercial stock farmers clashed with hunter gatherers were particularly destructive often resulting in a degree of dispossession and slaughter that destroyed the ability of these societies to reproduce themselves The experience of aboriginal peoples in the settler colonies of southern Africa Australia North America and Latin America bears this out The frequency with which encounters of this kind resulted in the annihilation of forager societies raises the question of whether these conflicts were inherently genocidal an issue not yet addressed by scholars in a systematic way

**Genocide and Resistance in Southeast Asia** Ben Kiernan, 2017-07-05 Two modern cases of genocide and extermination began in Southeast Asia in the same year Pol Pot's Khmer Rouge regime ruled Cambodia from 1975 to 1979 and Indonesian forces occupied East Timor from 1975 to 1999 This book examines the horrific consequences of Cambodian communist revolution and Indonesian anti communist counterinsurgency It also chronicles the two cases of indigenous resistance to genocide and extermination the international cover ups that obstructed documentation of these crimes and efforts to hold the perpetrators legally accountable The perpetrator regimes inflicted casualties in similar proportions Each caused the deaths of about one fifth of the population of the nation Cambodia's mortality was approximately 1.7 million and approximately 170 000 perished in East Timor In both cases most of the deaths occurred in the five year period from 1975 to 1980 In addition Cambodia and East Timor not only shared the experience of genocide but also of civil war international intervention and UN conflict resolution U.S. policymakers supported the invading Indonesians in Timor as well as the indigenous Khmer Rouge in Cambodia Both regimes exterminated ethnic minorities including local Chinese as well as political dissidents Yet the ideological fuel that ignited each conflagration was quite different Jakarta pursued anti communism the Khmer Rouge were communists In East Timor the major Indonesian goal was conquest In Cambodia the Khmer Rouge's goal was revolution Maoist ideology influenced Pol Pot's regime but it also influenced the East Timorese resistance to the Indonesia's occupiers **Genocide and Resistance in Southeast Asia** is significant both for its historical documentation and for its contribution to the study of the politics and mechanisms of genocide It is a fundamental contribution that will be read by historians human rights activists and genocide studies specialists

**Making Sense of Old Testament Genocide** Christian Hofreiter, 2018-02-23 The divine commands to annihilate the seven nations living in Canaan to devote them to destruction herem in Biblical Hebrew are perhaps the most morally troubling texts of the Hebrew and Christian bibles **Making Sense of Old Testament Genocide** Christian Interpretations of Herem Passages addresses the challenges these texts pose It presents the various ways in which interpreters from the first century to the twenty first have attempted to make sense of them The most troubling approach was no doubt to read them as divine sanction and inspiration for violence and war the analysis of the use of herem texts in the crusades the inquisition and various colonial conquests

illustrates this violent way of reading the texts which has such alarming contemporary relevance Three additional approaches can also be traced to antiquity viz pre critical non literal and divine command theory readings Finally critics of Christianity from antiquity via the Enlightenment to today have referenced herem texts their critical voices are included as well Christian Hofreiter combines a presentation of a wide range of historical sources with careful analysis that scrutinizes the arguments made and locates the texts in their wider contexts Influential contributions of such well known figures as Augustine Origen Gregory the Great Thomas Aquinas and John Calvin are included as well as those of critics such as Marcion Celsus and Matthew Tindal and less widely known texts such as crusading histories songs and sermons colonial conquest accounts and inquisition manuals The book thus sheds new light on the ways in which these texts have shaped the thoughts and actions of their readers through the centuries and offers pertinent insights into how readers might be able to make sense of them today
