Kaiowcide Antonio Augusto Rossotto Ioris, 2021-11-01 Kaiowcide Living through the Guarani Kaiowa Genocide is an analysis of the genocidal violence perpetrated against indigenous peoples in Brazil and towards the Guarani Kaiowa The ongoing indigenous genocide is defined as Kaiowcide in place since the 1970s when the Guarani Kaiowa mobilized a reaction to land grabbing

and oppression in the final years of the military dictatorship The book is based on years of research on the agribusiness frontiers on the indigenous geography of the Guarani Kaiowa and on sustained engagement with indigenous communities Instead of merely describing the genocidal tragedy the focus is on the life through genocide and trying to collectively go beyond it One of the main contributions is to provide a robust interpretative analysis of the causes and the ramifications of the genocidal experience lived by the Guarani Kaiowa Rather than focusing on formalist notions of direct intent by settlers and governments as a prerequisite for the tagging as genocide this book emphasizes the destructive potential of the actors actively involved in agrarian capitalist transformations promoted by the national state in socio economic frontiers *New Border and Citizenship Politics* H. with an interest in understanding the historical roots of South Africa's current politics will find this volume informative. This book is based on a selection of papers presented at the One Hundred Years of the ANC Debating Liberation Histories and Democracy Today Conference held at the University of Witwatersrand Johannesburg from 20-23 September 2011. **The Place of Law** Austin Sarat, Lawrence Douglas, Martha Umphrey, 2006-04-03. It has long been standard practice in legal studies to identify the place of law within the social order. And yet as *The Place of Law* suggests, the meaning of the concept of the place of law is not self-evident. This book helps us see how the law defines territory and attempts to keep things in place; it shows how law can be and is used to create particular kinds of places, differentiating, for example, individual property from public land. And it looks at place as a metaphor that organizes the way we see the world. This important new book urges us to ask about the usefulness of metaphors of place in the design of legal regulation. *The Anarchist Imagination* Carl Levy, Saul Newman, 2019-04-09. This is a broad-ranging introduction to twenty-first-century anarchism, which includes a wide array of theoretical approaches as well as a variety of empirical and geographical perspectives. The book demonstrates how the anarchist imagination has influenced the humanities and social sciences, including anthropology, art, feminism, geography, international relations, political science, postcolonialism, and sociology. Drawing on a long historical narrative that encompasses the waves of anarchist movements from the classical anarchists (1840s to 1940s), post-war wave of student, counter-cultural, and workers' control anarchism of the 1960s and 1970s, to the DIY politics and Temporary Autonomous Zones of the 1990s, right up to the Occupy Movement and beyond, the aim of this volume is to cover the humanities and the social sciences in an era of anarchist revival in academia. Anarchist philosophy and anarchistic methodologies have re-emerged in a range of disciplines, from Organization Studies to Law to Political Economy to Political Theory and International Relations and Anthropology to Cultural Studies. Anarchist approaches to freedom, democracy, ethics, violence, authority, punishment, homelessness, and the arbitration of justice have spawned a broad array of academic publications and research projects. But this volume remembers an older story: in other words, the continuous role of the anarchist imagination as muse, provocateur, goading adversary, and catalyst in the stimulation of research and creative activity in the humanities and social sciences from the middle of the nineteenth century to today. This work will be essential reading for scholars and students of anarchism, the humanities, and the social sciences. *Post-Capitalist Futures* Samuel Alexander, Sangeetha Chandrashekeran, Brendan Gleeson, 2022-03-24. As the crises of capitalism continue to intensify, radical thinkers must conjure realistic and inspirational alternative futures beyond this failing social order. This book presents a stimulating array of essays exploring such post-capitalist futures. With contributions and perspectives from the Global North and Global South, central topics include ecosocialism, ecofeminism, degrowth, community economies, and the Green New Deal. There are also chapters offering analyses of land, energy, technology, universal basic services, and re-localisation of economies. The book is in three parts. The first presents various alternative paradigms for thinking about and working toward post-capitalist futures. The second section

offers perspectives on alternative governance strategies and approaches for post capitalist futures The closing section gathers various analyses of post capitalist geographies and resistance Going beyond critique and instead envisioning alternative imaginaries this collection should challenge and inspire readers to think and act upon the range of possibilities immanent in our crisis ridden present
