If we have found damage in the field such as an electric power indicator immediately off, power flash, flashing, etc. While there is still an indicator light when it is not totally dead, there is always an indicator light. The author intentionally separates and assembles the characters; the damage characteristics on the laptop are based on the different characteristics of the execution technique. If we have not mastered this technique well at the time of execution on the field, we will undoubtedly be confused in the execution process or even wrong in the execution process. This technique is also expected that those who do not understand electronics or who are just starting out in the field of laptop service repair will be easy to learn and immediately practice it.
