*New Frontiers in Technological Literacy* J.

Dakers, 2016-04-30 This book attempts to rethink the concept of technological literacy in a modern context, not only in terms of a subject area taught in schools but also as an important general concept that all citizens should engage with. As this book will illustrate, the concept of technological literacy has no universally agreed definition.

**The Science of Ghosts** Joe

Nickell, 2012-07-03 Are ghosts real? Are there truly haunted places, only haunted people, or both? And how can we know? Taking neither a credulous nor a dismissive approach, this first of its kind book solves those perplexing mysteries and more, even answering the question of why we care so very much. Putting aside purely romantic tales, this book examines the actual evidence for ghosts, from eyewitness accounts to mediumistic productions such as diaphanous forms materializing in dim light, spirit photographs, ghost detection phenomena, and even CSI type trace evidence. Offering numerous exciting case

studies this book engages in serious investigation rather than breathless mystifying Pseudoscience folk legends and outright hoaxes are challenged and exposed while the historical cultural and scientific aspects of ghost experiences and haunting reports are carefully explored The author the world's only professional paranormal investigator brings his skills as a stage magician private detective folklorist and forensic science writer to bear on a topic that demands serious study
