Description

DVX DM12 is an active two-way stage monitor featuring one neodymium 12" woofer (1" voice coil) and a neodymium 1.4" compression driver (0.5" voice coil), installed on a 90°x 40° rotatable CD-horn.

Its natural response, dynamic balance, and high SPL in a compact and inconspicuous package is absolutely amazing. The ultra-low profile enclosure and quality of the woofer make this stage monitor able to render signals with impressive precision.

Unlike conventional multifunctional speakers, the DVX DM12 is a pro-grade performer developed specifically for use as a floor monitor. Optimized

to resist feedback even at extremely high levels, it delivers the true-to-nature response and dynamic balance that artists demand.

It is equipped with Digipwr® series class D amplifier, giving 500W RMS for the bass section and 250W RMS for the high frequency section. This high-efficiency amplifier delivers high output power in a compact size and low weight.

Thanks to its high efficiency the cooling of the amplifier module is obtained statically, thus avoiding the use of an external fan.

The power supply has been conceived to work in full-range mode, and thanks to the SMPS (Switched-Mode Power Supply) technology with PFC (Power Factor Correction), the operation with supply voltages between 100 Vac and 240Vac is guaranteed by ensuring the same sound performances even with floating and non-stabilized power supply systems.

The integrated 24bit/48kHz DSP acts as the enclosure controller, serving as an active equalizer, active Xover with phase and delay time alignment, peak, thermal and multiband limiter.

You can easily choose between two EQ presets (flat and monitor) by pressing the MODE button on the side panel, adapting the DVX DM12 to full-range or stage monitor use.

Made of rugged 15mm multiplex plywood coated with tough black lacquer, its light low-profile enclosure sets up at two different angles. The two recessed handles on each side of the speaker enable easy transport and installation. It is also equipped with a pole mount, enabling the DVX DM12 to be set on a tripod or speaker pole.
