**Bombs Away** David G. Havlick, 2018-04-11 When viewed from space the Korean Peninsula is crossed by a thin green ribbon On the ground its mix of dense vegetation and cleared borderlands serves as home to dozens of species that are extinct or endangered elsewhere on the peninsula This is Korea's demilitarized zone one of the most dangerous places on earth for humans and paradoxically one of the safest for wildlife Although this zone was not intentionally created for conservation across the globe hundreds of millions of acres of former military zones and bases are being converted to restoration areas refuges and conservation lands David G Havlick has traveled the world visiting these spaces of military to wildlife transition and in *Bombs Away* he explores both the challenges physical historical and cultural and fascinating ecological possibilities of military site conversions Looking at particular international sites of transition from Indiana's Big Oaks National Wildlife Refuge to Cold War remnants along the former Iron Curtain Havlick argues that these new frontiers of conservation must accomplish seemingly antithetical aims rebuilding and protecting ecosystems or restoring life while also commemorating the historical and cultural legacies of warfare and militarization Developing these ideas further he shows that despite the ecological devastation often wrought by military testing and training these activities need not be inconsistent with environmental goals and in some cases can even complement them a concept he calls ecological militarization A profound clear explication of landscapes both fraught and fecund marked by death but also reservoirs of life *Bombs Away* shows us how military activities conservation goals and ecological restoration efforts are made to work together to create new kinds of

places and new conceptions of place      **Routledge Handbook of Modern Korean Literature** Yoon Sun Yang, 2020-03-26

The Routledge Handbook of Modern Korean Literature provides a comprehensive overview of a Korean literary tradition which is understood as a multifaceted nexus of practices both homegrown and transnational. The handbook discusses the perspectives from which modern Korean literature has thus far been defined, analyzing which voices have been enunciated, underappreciated or completely silenced, and how we can enrich our understanding of it. Taking up diverse transnational and interdisciplinary standpoints, this volume aims to encourage readers not to treat modern Korean literature as a self-evident category but to examine it anew as an uncultivated and uncharted space, unearthing its internal chasms and global connections. Divided into five parts, the themes covered include the following: Literature and power; Borders and boundaries; Rationality in literature and its limits; Language, ethnicity and translation; Korean literature in the changing mediascape. By introducing new conceptual paradigms to the field of modern Korean literature, this book will appeal to students and scholars of Korean, East Asian and world literature alike.

[The Korean Peninsula and Indo-Pacific Power Politics](#) Jagannath P. Panda, 2020-03-03

This book assesses the strategic linkages that the Korean Peninsula shares with the Indo-Pacific and provides a succinct picture of issues which will shape the trajectory of the Korean Peninsula in the future. This book analyses how critical actors such as the United States, China, Russia and Japan are caught in a tightly balanced power struggle affecting the Korean Peninsula. It shows how these countries are exerting control over the Korean Peninsula while also holding on to their status as critical actors in the broader Indo-Pacific. The prospects of peace, stability and unity in the Korean Peninsula and the impact of this on Indo-Pacific power politics are explored, as well as the contending and competing interests in the region. Chapters present country-specific positions and approaches as case studies and review the impact of power politics on stakeholders' relationships in the Indo-Pacific. The book also argues that the Korean Peninsula and the issue of denuclearization is of primary importance to any direction an Indo-Pacific Partnership may take. Bringing together scholars, journalists and ex-diplomats, this book will be of interest to academics working in the field of international relations, foreign policy, security studies and Asian studies, as well as audiences interested in the Korean Peninsula.

**North Korea and the Global Nuclear Order** Edward Howell, 2023-04-26

For a state that has gained a global reputation as a violator of international norms, not least through its unwavering pursuit of nuclear weapons, North Korea's determination to become a nuclear-armed state is puzzling. If nuclear weapons beget security insecurity and other costs for the state, how might we understand this pursuit and the delinquent behaviour that has arisen from it? In *North Korea and the Global Nuclear Order*, Edward Howell offers an answer to this question, focusing on North Korea's quest for status in the international system and developing the theoretical framework of strategic delinquency. Featuring previously unpublished and new interviews with international negotiators with North Korea and drawing upon new academic literature, Howell proffers an original theoretical framework to apply to the North Korean case. Covering a time period from the 1990s to the present day and using unprecedentedly rich empirical

evidence he makes the overarching argument that North Korea has strategically deployed behaviour that breaks international norms in order to reap benefits In so doing this book posits how over time North Korea has learnt that despite the low status and opprobrium that might ensue bad behaviour can pay **Viva George!** Elaine A.
