**Improving Reading Comprehension with Online Text Visualization Tools** Rūta Kalmane, 2012-06-30 Online text visualization tools are a recent phenomenon on the World Wide Web. The potential of these tools to improve reading comprehension has not yet been empirically researched. Therefore, this book investigates if online text visualization tools can help to improve reading comprehension. In the empirical research, a quasi-experimental method was applied. The data were collected via tests distributed among the students of an experimental group and a control group. The results of the tests show that both groups improved during the practice on the same topic. However, the students of the experimental group who had training with the tools improved more than the students of the control group. According to the results, the use of text visualization tools helped the students of the experimental group to improve their reading comprehension. **Online**

**Communication** Andrew F. Wood, Matthew J. Smith, 2004-09-22 Online Communication provides an introduction to both the technologies of the Internet Age and their social implications. This innovative and timely textbook brings together current work in communication, political science, philosophy, popular culture, history, economics, and the humanities to present an examination of the theoretical and critical issues in the study of computer-mediated communication. Continuing the model of the best-selling first edition, authors Andrew F. Wood and Matthew J. Smith introduce computer-mediated communication (CMC) as a subject of academic research as well as a lens through which to examine contemporary trends in society. This second edition of Online Communication covers online identity, mediated relationships, virtual communities, electronic commerce, the digital divide, spaces of resistance, and other topics related to CMC. The text also examines how the Internet has affected contemporary culture and presents the critiques being made to those changes. Special features of the text include Hyperlinks presenting greater detail on topics from the chapter, Ethical Inquiry posing questions on the nature of human communication and conduct online, and Online Communication and the Law examining the legal ramifications of CMC issues. Advanced undergraduates, graduate students, and researchers interested in the field of computer-mediated communication as well as those studying issues of technology and culture will find Online Communication to be an insightful resource for studying the role of technology and mediated communication in today's society. *The Skills of Document Use* Jean-Francois Rouet, 2006-03-14 The Skills of Document Use: From Text Comprehension to Web-Based Learning examines functional literacy from a psychological standpoint.
