INTERNAL STUDENTS: The assignment should be submitted in the appropriately labelled assignment submission box in the front foyer of the OC building, by 3pm on the due date above. Internal students should not submit electronically.

EXTERNAL STUDENTS: A scanned copy of the assignment should be submitted electronically on the course learnonline web site, by 11pm on the due date above.

ALL: Please make sure to keep a copy of your submitted assignment.

- **PRESENTATION:** Please ensure that all pages are securely attached/stapled, and all solutions are properly numbered. Also check that all the information required on the **Assignment Cover Sheet** (your tutor's name, your name, etc.) is clearly shown (You can download the sheet at <https://lo.unisa.edu.au/mod/book/view.php?id=1843&chapterid=567>). The solutions should be clear, precise, and tidy. By this we also mean that they should follow a logical argument. Please start the solution of a new question on a new page, and do not divide the page by multi-columns.

The solutions should be submitted with your own hand-writing, unless you have special circumstances, which you can discuss with me.

- Where a question asks for an **exact** answer, use any necessary expressions such as π , $\sqrt{3}$, etc.; decimal approximations are not acceptable.
 - **PLAGIARISM:** Even though you may discuss the exercises with others, the solutions you present here should be the result of your separate and individual work. The University's policy on plagiarism will be applied strictly, and hence any "joint work" must be indicated for cross-checking purposes.
