Diy Survival Guide Strategies Anywhere:

DIY Survival Guide Adam Dvorscak, 2015-12-15 One of the most important skills that a survivor must acquire is the ability to prioritize. To stay alive in a survival situation the very basic needs of the human body must first be met. This includes water, food, and thermoregulation. This book will teach you how to meet all these needs even in the direst circumstances. Within these pages you will find useful knowledge on where to obtain and how to purify water whether you are in the desert in a frigid environment or stranded at sea. Through this book you will learn how to distinguish edible plants from non-edible vegetation. More than that, this book will teach you how to prepare edible plant food in ways which will make them more palatable. When stranded in the wild, resourcefulness may mark the difference as to whether you survive or perish. This book will teach you how to make use of the things that are available around you whether it is for making a fire for catching dinner or for treating an infected wound. This book has been specifically written for beginners who are interested in acquiring the basic set of skills for surviving in a crisis situation from dry land to sea. This book consists of easy-to-follow step-by-step guides designed to benefit the outdoor newbie. If you are interested in the outdoors if you travel a lot or if you live in a disaster-prone area, read on. Read this book because the knowledge that could save you may be resting within these pages. Read this book simply because your life and those of your loved ones are worth preserving.
