may only be a handful of heartbeats to a Time Lord but for Doctor Who it's the adventure of several lifetimes. Evolving over 60 years, the world's longest running sci-fi TV show has gifted us a universe of menacing monsters and unforgettable heroes. You might even call it a Whotopia. Now you can roam free through the Doctor's dimension as never before in this special commemorative book for Doctor Who's diamond anniversary. Join all the Doctors as each tells their own story. Learn about their legions of legendary allies and hear from the monsters' own mouths about what makes them tick. Find danger on alien worlds and threats here on Earth in all eras. And explore the gadgets, robots, spaceships, computers, and mind-blowing creations that crowd the never-ending corridors of Whotopia. Crammed with exciting new images and in full colour throughout, *Whotopia: The Ultimate Guide to the Whoniverse* is the essential celebration of 60 years of Doctor Who. ***Ghosts of War*** George Mann, 2011-07-05. *Ghosts of War* picks up the story a month after the end of *Ghosts of Manhattan*. New York City is being plagued by a pack of ferocious brass raptors, strange skeleton-like creations with bat-like wings that swoop out of the sky attacking people and carrying them away into the night. The Ghost has been tracking these bizarre machines and is close to finding their origin: a deranged military scientist who is slowly rebuilding himself as a machine. However, this scientist is not working alone, and his scheme involves more than a handful of abductions. He is part of a plot to escalate the cold war with Britain into a full-blown conflict, and he is building a weapon, a weapon that will fracture dimensional space and allow the monstrous creatures that live on the other side to spill through. He and his co-conspirators, a cabal of senators and businessmen who seek to benefit from the war, intend to harness these creatures and use them as a means to crush the British. But the Ghost knows only too well how dangerous these creatures can be and the threat they represent, not just to Britain but to the world. The Ghost's efforts to put an end to the conspiracy bring him into an uneasy alliance with a male British spy who is loose in Manhattan protecting the interests of his country. He also has the unlikely assistance of Ginny, a drunken ex-lover and sharpshooter who walks back into his life having disappeared six years earlier in mysterious circumstances. Suffering from increasingly lucid flashbacks to WWI and subjected to rooftop chases, a battle with a mechanized madman, and the constant threat of airborne predators, and with the fate of the world hanging in the balance, can the Ghost derail the conspiracy and prevent the war with the British from escalating beyond control. From the Trade Paperback edition. ***Doctor Who and History*** Carey Fleiner, Dene, October, 2017-07-25. When Sydney Newman conceived the idea for Doctor Who in 1963, he envisioned a show in which the Doctor and his companions would visit and observe but not interfere with events in history. That plan was dropped early on, and the Doctor has happily meddled with historical events for decades. This collection of new essays examines how the Doctor's engagement with history relates to Britain's colonial past, nostalgia for village life, Norse myths, alternate history, and the impact of historical decisions on the present. ***The British National Bibliography*** Arthur James Wells, 2005. ***Star Wars: Myths & Fables***, 2019-08-06. Travel to the far reaches of the Star Wars universe, including to the remote outer rim world of Batuu from Galaxy's Edge, with this unique treasury of in-world space tales. Featuring lush
