**Essential surgical technique** John Cumming, Colin David Johnson, 2013-11-11 This book addresses the needs of the newly defined basic surgical trainee Most BSTs now take part in prolonged rotations with relatively brief exposure to a wide range of different specialties This book is designed to go with the trainee through the rotation to provide a practical guide to the procedures that s/he may be expected to perform in each specialty The Editors have deliberately avoided including major procedures at which the BST will be an interested observer The emphasis throughout is on a clear practical guide to the minor and intermediate procedures which the trainee will perform Undoubtedly the first attempts at most of these procedures will be well supervised but we hope that the descriptions in this book will help the trainee to master each procedure rapidly and with confidence In addition we have included chapters on general aspects such as medical management local anaesthetic techniques and basic surgical skills such as knot tying and instrument handling We have adopted a direct didactic style because basic surgical trainees need clear direction There are of course many other ways of doing most of the procedures described in these pages and such variations will doubtless stimulate helpful discussions on practical points Discussion and justification have been kept to a minimum because we have focused on the essential practical steps of the procedures described *Essentials of Ophthalmology* Samar K Basak, 2019-06-30 The seventh edition of this

manual has been fully revised to provide trainees in ophthalmology with the latest advances in their field Divided into 28 chapters the book begins with discussion on ocular embryology and anatomy physiology neurology pharmacology refraction and history taking and physical examination Each of the following chapters is dedicated to the diagnosis and management of disorders and diseases in different parts of the eye lens uvea retina optic nerve vitreous and more The book concludes with sections on ocular injuries blindness common surgeries and surgical instruments The comprehensive text is further enhanced by nearly 1200 ocular images figures and tables Key points Comprehensive guide to diagnosis and management of ocular diseases and disorders for trainees Fully revised seventh edition providing latest advances in the field Highly illustrated with nearly 1200 images figures and tables Previous edition 9789352501601 published in 2015      Essential Principles of Phacoemulsification Pascal W Hasler,2013-02-28 Cataracts are a very common condition whereby the lens of the eye becomes cloudy causing blurred vision Over time a cataract can get worse eventually leading to blindness if untreated Cataracts are the most common cause of blindness worldwide Phacoemulsification surgery is the most widely used method for cataract management This book presents the four main phacoemulsification techniques Beginning with an introduction to each method and the instruments used for surgery each of the techniques is then described step by step in bullet format from basics to advanced procedures for complicated cases Edited by a recognised Swiss specialist this concise guide includes nearly 100 full colour images and illustrations depicting both correct and incorrect techniques with detailed explanations Key points First book to bring four main phacoemulsification techniques into one volume Reader friendly step by step instruction on techniques presented in bullet format Presents both correct and incorrect techniques with explanations Includes nearly 100 full colour images and illustrations Edited by recognised specialist from University of Basel Switzerland      **Essentials in Ophthalmology** Mr. Rohit Manglik,2024-03-08 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels      **Essential Revision Notes for Intercollegiate MRCS.** Claire Ritchie Chalmers,2006 The NEW definitive guide form PasTest for candidates preparing for the intercollegiate MRCS exam Back cover      The Selection and Use of Essential Medicines WHO Expert Committee on the Selection and Use of Essential Medicines,World Health Organization,2014 The 19th Meeting of the WHO Expert Committee on the Selection and Use of Essential Medicine took place in Geneva Switzerland from 8 to 12 April 2013 P vii      **Essential Clinical Global Health, Includes Wiley E-Text** Brett D.
