**British Children's Literature in Japanese Culture** Catherine Butler, 2023-09-21 Whether watching Studio Ghibli adaptations of British children's books visiting Harry Potter sites in Britain or eating at Alice in Wonderland themed restaurants in Tokyo the Japanese have a close and multifaceted relationship

with British children's literature. In this, the first comprehensive study to explore this engagement, Catherine Butler considers its many manifestations in print, on the screen, in tourist locations and throughout Japanese popular culture. Taking stock of the influence of literary works such as *Gulliver's Travels*, *Alice's Adventures in Wonderland*, *The Tale of Peter Rabbit*, *Tom's Midnight Garden* and the *Harry Potter* series, this lively account draws on literary criticism, translation, film and tourist studies to explore how British children's books have been selected, translated, understood, adapted and reworked into Japanese commercial, touristic and imaginative culture. Using theoretically informed case studies, this book will consider both individual texts and their wider cultural contexts; translations and adaptations such as the numerous adaptations of British children's books by Studio Ghibli and others; the dissemination of distinctive tropes such as magical schools into Japanese children's literature and popular culture; and the ways in which British children's books and their settings have become part of the way that Japanese people understand Britain itself.

Ann-Marie Einhaus, 2017-05-24. A new exploration of literary and artistic responses to WW1 from 1914 to the present. This authoritative reference work examines literary and artistic responses to the war's upheavals across a wide range of media and genres, from poetry to pamphlets, sculpture to television, documentary and requiems to war reporting. Rather than looking at particular forms of artistic expression in isolation and focusing only on the war and inter-war period, the 26 essays collected in this volume approach artistic responses to the war from a wide variety of angles and where appropriate pursue their inquiry into the present day. In 6 sections covering Literature, the Visual Arts, Music, Periodicals and Journalism, Film and Broadcasting, and Publishing and Material Culture, a wide range of original chapters from experts across literature and the arts examine what means and approaches were employed to respond to the shock of war, as well as asking such key questions as how and why literary and artistic responses to the war have changed over time and how far later works of art are responses not only to the war itself but to earlier cultural production. Key Features: Offers new insights into the breadth and depth of artistic responses to WWI; Establishes links and parallels across a wide range of different media and genres; Emphasises the development of responses in different fields from 1914 to the present.
