Jeremy E. Taylor, 2021-02-28 *Iconographies of Occupation* is the first book to address how the collaborationist Reorganized National Government (RNG) in Japanese occupied China sought to visualize its leader Wang Jingwei 1883-1944 the Chinese people and China itself It explores the ways in which this administration sought to present itself to the people over which it ruled at different points between 1939 when the RNG was first being formulated and August 1945 when it folded itself out of existence What sorts of visual tropes were used in regime iconography and how were these used What can the intertextual movement of visual tropes and motifs tell us about RNG artists and intellectuals and their understanding of the occupation and the war Drawing on rarely before used archival records relating to propaganda and a range of visual media produced in occupied China by the RNG the book examines the means used by this client regime to carve out a separate visual space for itself by reviving prewar Chinese methods of iconography and by adopting techniques symbols and visual tropes from the occupying Japanese and their allies Ultimately however the occupied gaze that was developed by Wang's administration was undermined by its ultimate reliance on Japanese acquiescence for survival In the continually shifting and fragmented iconographies that the RNG developed over the course of its short existence we find an administration that was never completely in control of its own fate or its message *Iconographies of Occupation* presents a thoroughly original visual history approach to the study of a much maligned regime and opens up new ways of understanding its place in wartime China It also brings China under the RNG into dialogue with broader theoretical debates about the significance of the visual in the cultural politics of foreign occupation      *Biographical Dictionary of Republican China* Howard L. **Retrofitting Leninism** Dimitar Gueorguiev,2021-10-14 Retrofitting Leninism explains through the lens of China how open governance and modern information technology come together to sustain a tightly controlled but socially responsive system of authoritarianism When closed authoritarian regimes reform and open up they often fail most eventually breakdown The People s Republic of China stands as a notable exception How has the ruling Chinese Communist Party maintained power throughout decades of reform and rapid development Drawing inspiration from the CCP s Leninist origins Dimitar Gueorguiev offers a novel and empirically grounded explanation The key to the CCP s staying power he argues is its ability to integrate authoritarian control with social inclusion a combination that is being facilitated by modern telecommunications technology Relying on statistical data media reports and a series of original opinion polls Gueorguiev explores how public input feeds into political oversight and policy planning To unpack how public preferences are acquired processed and prioritized he analyses bottom up representation and coordination in local Chinese legislatures Finally to evaluate the impact of inclusion he shows that public engagement contributes to both policy stability and public satisfaction Although public inclusion is instrumental to the CCP s hold on power Gueorguiev underscores that inclusive authoritarianism greatly depends on the voluntary participation of Chinese citizens which is far from guaranteed A trenchant exploration of the Leninist model today Retrofitting Leninism will reshape our understanding of the authoritarian approach to government and its prospects for the future *The Statesman's Year-Book* M. Chinese Law Jianfu Chen,2023-09-25 Law in particular its actual functioning in any given society is above all a part of the culture of that society a part of its historical political social and intellectual creation If a black letter approach towards law in the West is under increasing criticism it is particularly unhelpful if not misleading in understanding Chinese law its nature and developments Rather to understand Chinese law its nature and developments we need to examine

the Chinese legal traditions the prevailing political and economic situations Party policies on economic reform and tolerance towards political liberalisation and scholarly discussions and debate This is the approach of this book Its aim is to put Chinese law in context to outline the nature and present status of its development and to analyse the meaning of the law within the Chinese context However this monograph does not ignore the practical needs for determining the precise contents of the black letter law either A study of this kind necessarily involves a process of topic selection However to avoid over generalisation and over simplification it also demands a considerable degree of comprehensiveness in coverage For this reason the book covers what the Chinese scholars term fundamental law and basic branches of law while other topics are covered because they are either crucial for the understanding of the law such as legal traditions in China or of practical importance such as foreign investment and trade Chapter One provides an historical background to traditional Chinese legal culture and modern law reforms The historical background of specific topics is examined as the topics are analysed in the following chapters Chapter Two deals with the changing fate of law under Communist rule Its focus is on the underlying factors and justifications for such changes Chapter Three introduces discussions on specific branches of law from public law constitutional law law making administrative law criminal law criminal procedure law to private law civil law family law contracts law on business entities and law on foreign investment and trade Each of these is dealt with in a separate chapter After the analysis of these substantial topics certain conclusions are drawn which attempt to define the nature of Chinese law and its developments in present day China

**Foreign Exchange** Judith Liu, 2011-03-28 Foreign Exchange Counterculture behind the Walls of St Hilda's School for Girls 1929-1937 is the story of Yeh Yuanshuang and Dorothea Kingsley Wakeman and their experiences at the American missionary school Founded in 1875 the school that would become St Hilda's School for Girls was intended to provide a strong Christian education for its students Daily student teacher interactions however created an environment that allowed for a foreign exchange which led to the creation of a new culture that subverted both American and Chinese gender constructs The walls that surrounded the St Hilda's compound not only served to protect the school from outside danger but to also create a space where new gender expectations could be nurtured away from the gaze of prying eyes Thus the American teachers as well as the Chinese students were acculturated and socialized in ways that liberated them from their respective patriarchal situations For Dorothea serving as a teacher allowed her to remain single yet still be engaged in a professional career that would not be as socially stigmatizing as it would be if she remained at home As a teacher at St Hilda's not only was she educating a future generation of Chinese women but as an independent woman who served in an important position she was an example for the girls at St Hilda's what women could do when given an education For Yuanshuang her education provide her with the means to aspire to roles outside the culturally prescribed positions as daughter wife and mother by giving her the intellectual tools that enabled her to find work as a teacher at the start of the War of Resistance against the Japanese Her involvement in school activities developed self reliance independence

and leadership skills that served her both in China and eventually in the United States Her education socialized her to American values and customs so that when she arrived in the United States she was able to adapt readily Yuanshuang and Dorothea s stories also reveal the impact of the modern world on their parents generation Dramatic changes in both the United States and China provided cracks in the patriarchal walls of their respective countries and book discusses the responses by their respective families to these changes Judith Liu weaves together interviews of not only Yuanshuang and Dorothea but also of St Hilda s teachers and students never before published letters Dorothea wrote to her parents and extensive archival research to tell their stories as well as the history of St Hilda s This book will be of interest to not only to scholars in Asian Studies history religious studies gender studies and those who teach ethnographic research methods but also to any reader who wishes to know more about China and the United States during that period of time     Social Origins of Dictatorship and Democracy Barrington Moore,2015-12-08 This classic work of comparative history explores why some countries have developed as democracies and others as fascist or communist dictatorships Originally published in 1966 this classic text is a comparative survey of some of what Barrington Moore considers the major and most indicative world economies as they evolved out of pre modern political systems into industrialism But Moore is not ultimately concerned with explaining economic development so much as exploring why modes of development produced different political forms that managed the transition to industrialism and modernization Why did one society modernize into a relatively free democratic society by which Moore means England Why did others metamorphose into fascist or communist states His core thesis is that in each country the relationship between the landlord class and the peasants was a primary influence on the ultimate form of government the society arrived at upon arrival in its modern age Throughout the book there is the constant play of a mind that is scholarly original and imbued with the rarest gift of all a deep sense of human reality This book will influence a whole generation of young American historians and lead them to problems of the greatest significance The New York Review of Books
