China In And Beyond The Headlines:

China beyond the Headlines Lionel M. Jensen, Timothy B. Weston, 2000-03-22 This unique book takes the reader beyond the headlines to explore a China few Westerners have seen. The authors argue that the great gap between what specialists understand and the general public believes has led to distorted and potentially dangerous misunderstandings of China. Seeking to bridge that gap, a group of prominent scholars and activists challenge readers to move past the usual images of China presented by the media and to think about the common problems shared by China and the United States. In a morally engaged spirit, they explore such issues as environmental degradation, unemployment, growing inequality, ethnicity, human rights, corruption, and changing images of women to bring to life the fabric of contemporary Chinese life and how it twines around the political consciousness of Americans.

China in and beyond the Headlines Timothy B. Weston, Lionel M. Jensen, 2012-06-28 In the third volume of this popular series, leading experts provide fascinating and unexpected insights into critical issues of culture, economy, politics, and society in today's China. This world, outside the reach of state control and either misunderstood or unreported in Western media, gains clarity and dimension from the fresh insights of a prominent group of activists, investigative journalists, lawyers, scholars, and travelers who share a common interest in lessening the profound information gap between China and the rest of the world. In sixteen new essays, they address such key topics as civil society, consumerism, environmental adversity, ethnic tension, the Internet, legal reform, new media, and social networking, nationalist tourism, sex, and popular culture, as well as the costs of urban gigantism, to portray the complexity of life in contemporary China and how increasingly it speaks to the everyday experience of Americans.

Contributions by David Bandurski, Susan D. Blum, Timothy Cheek, Gady Epstein, Andrew S. Erickson, Lionel M. Jensen, John Kamm, Wenqing Kang, Katherine Palmer Kaup, Travis Klingberg, Orion A. Lewis, Benjamin L. Liebman, Jonathan S. Noble, Tim Oakes, Jessica C. Teets, Alex L. Wang, and Timothy B. Weston.

artist paints landscapes of faraway places that she cannot identify in order to find her place in the global economy A migrant worker sorts recyclables and thinks deeply about the soul of his country while a Taoist mystic struggles to keep his traditions alive An entrepreneur capitalizes on a growing car culture by trying to convince people not to buy cars And a 90 year old woman remembers how the oldest neighborhoods of her city used to be These are the exciting and saddening humorous and confusing stories of utterly ordinary people who are living through China s extraordinary transformations The immense variety in the lives of these Chinese characters dispels any lingering sense that China has a monolithic population or is just a place where dissidents fight Communist Party loyalists and laborers create goods for millionaires Chinese Characters is a

China's Rise to Power J. Lee, L. Nedilsky, S. This essay collection balances policy analysis with detailed investigation of escalating popular unrest to anticipate the future of Chinese governance society.

Desiring China Lisa Rofel, 2007-05-10 An ethnography of gender, sexuality and consumption in post socialist China.

China and Antiterrorism Simon Shen, 2007 Books accounting for 9/11 and its aftermath have been overwhelming since 2001. Yet the Chinese response to anti terrorism remains a relatively under studied topic. This book attempts to fill such a vacuum by illustrating how on a local and global scale the Chinese state and society interacted to crystallise their identity and see their potential power in the face of 9/11 and its fallout.

Energy Security in Asia and Eurasia Mike M. Mochizuki, Deepa M. Ollapally, 2016-12-01 Many states appear to have strong sentiment on energy security and energy transit vulnerability. Some analysts see the rapidly increasing demand for energy and competition for energy resources leading to nationalistic energy policies. Others argue that global trends with efficient energy markets and growing options on renewables suggest more relaxed energy outlooks. This book focuses on Asia where global demand for energy is now concentrated in the aspiring and rising powers of the region: China, India, Japan and South Korea, and also recognises the importance of Russia as a growing energy supplier. Contributions by experts in the field provide detailed and parallel case studies. Shedding light on the ongoing debate in the literature regarding energy outlooks of major Asian states, they analyse whether energy policies are expected to evolve along market oriented cooperative lines or more competitive and even destructive mercantile nationalist lines. The book argues that states are not unitary actors even in the key energy security arena and there are competing and contrasting viewpoints in Asian states on energy security. It suggests that domestic debates structure thinking on energy security, making energy policy more contingent than assumed by purely market or geopolitical logics. Providing a strong contribution to comparative energy security studies, the book fills an important gap in the literature on energy and national security and offers a basis for conducting further inter state interactive analysis. It will be of interest to researchers on Asian Studies, energy politics and international relations.

Beyond Strategies Priya Singh, 2014 Papers presented at the International Seminar on Beyond Strategies Cultural Dynamics in Asian Connection held at Kolkata in March 2013 **America Perceived** Hong Zhang, 2002-05-30 While American images of China have been characterized by a fluctuating love hate relationship many educated urban Chinese youths also retained ambivalent feelings toward the United States in the early decades of the 20th century The years between the end of the Second World War and the outbreak of the Korean War represented a significant period in Sino American relations This study places the shifting perceptions of the United States among an important political group young volatile and politically active urban Chinese into historical perspective through the examination of the origin development and eruption of their anti American sentiment These feelings would prove to be a liability to the Chinese Nationalist cause and would ultimately assist in easing the way of the Communists into urban China In the immediate post World War II period American influence and presence in China reached an unprecedented peak However American political military and economic activities largely failed to generate Chinese good will instead such actions produced political antipathy toward the United States The sojourn of American GIs in urban China for example would serve as a critical factor in arousing nationalist fervor The Chinese Communist Party would capitalize on this groundswell and push it to the foreground during open

hostilities with the United States after the outbreak of the Korean War
