Confucian Culture and Competition Law in East Asia Jingyuan Ma, Mel Marquis, 2022-09-08

Competition law is a significant legal transplant in East Asia where it has come into contact with deeply rooted variants of Confucian culture This timely volume analyses cultural factors in mainland China Japan and Korea focusing on their shared but diversely evolved Confucian heritage These factors distinguish the competition law systems of these countries from those of major western jurisdictions in terms of the goals served by the law the way enforcement is structured and the way subjects of the law respond to it Concepts from cultural studies inform a new and eclectic perspective on these dynamics with the authors also drawing on ideas from law and economics comparative law East Asian studies political science business management and ethics and institutional economics The volume presents a model for cultural analysis of comparative legal topics and contributes to a greater understanding of the challenges to deeper convergence of competition laws between East and West *Minerals Yearbook* Mines Bureau, Geological Survey, Interior Department, 2018-04-19 *Minerals Yearbook 2014 V 3 Area Reports International Asia and the Pacific Volume III Area Reports International* is published as four separate reports These regional reports contain the latest available minerals data on more than 180 foreign countries and discuss the importance of minerals to the economies of these nations and the United States Each report begins with an overview of the region's mineral industries during the year It continues with individual country chapters that examine the mining refining processing and use of minerals in each country of the region and how each country's mineral industry relates to U S industry

Most chapters include production tables and industry structure tables information about Government policies and programs that affect the country's mineral industry and an outlook section

Annual Report on China's Practice in Promoting the International Rule of Law [2016] XIAO Yongping, FENG Jiehan, 2017-11-01 2016 *China's Evolving Nuclear Deterrent* Eric Heginbotham, Michael S. Chase, Jacob L. Heim, Bonny Lin, Mark R. Cozad, Lyle J. Morris, Christopher P. Twomey, Forrest E. Morgan, Michael Nixon, Cristina L. Garafola, Samuel K. Berkowitz, 2017-03-06 China's approach to nuclear deterrence has been broadly consistent since its first test in 1964 but it has recently accelerated nuclear force modernization China's strategic environment is likely to grow more complex and nuclear constituencies are gaining a larger bureaucratic voice Beijing is unlikely to change official nuclear policies but will probably increase emphasis on nuclear deterrence and may adjust the definition of key concepts

Competition Policy and Intellectual Property in Today's Global Economy Robert D. Anderson, Nuno Pires de Carvalho, Antony Taubman, World Trade Organization, 2021-08-05 This volume examines a range of issues relating to the inter relationships among competition policy intellectual property rights and international trade and investment flows in today's global and knowledge based economy It is intended to survey the field systematically and to yield practical and policy insights that will be of interest both to scholars and practitioners including persons working in national intellectual property offices competition agencies and international trade policy administrations in addition to universities think tanks and other organizations

Shifting Power in Asia-Pacific? Enrico Fels, 2016-11-03 This book investigates whether a power shift has taken place in the Asia Pacific region since the end of the Cold War By systematically examining the development of power dynamics in Asia Pacific it challenges the notion that a wealthier and militarily more powerful China is automatically turning the regional tides in its favour With a special emphasis on Sino US competition the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities national power and the much cited regional power shift The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power CIAP that includes 55 variables for 44 regional countries and covers a period of twenty years Moreover it develops a middle power theory that outlines the significance of middle powers in times of major power shifts By addressing political military and economic cooperation via a structured focused comparison and by applying a comparative historical analysis the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing

Developing China: The Remarkable Impact of Foreign Direct Investment Michael J. Enright, 2016-09-12 The importance of foreign investment to China goes well beyond the USD 1.6 trillion in investment received since its opening The unique analysis in this book shows that the investments operations and supply chains of foreign enterprises have accounted for roughly one third of China's GDP in recent years and that foreign enterprises have made numerous additional contributions to China through technological managerial business practice supply chain and other spillovers This book shows how China's leaders managed this process and provides lessons for policy makers interested in

building their own economies and tools for companies to demonstrate their contribution to host countries

Quest for Status Deborah Welch Larson, Alexei Shevchenko, 2019-02-26 A look at how the desire to improve international status affects Russia's and China's foreign policies Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of China and Russia Applying social identity theory the idea that individuals derive part of their identity from larger communities to nations they contend that China and Russia have used various modes of emulation competition and creativity to gain recognition from other countries and thus validate their respective identities To make this argument they analyze numerous cases including Catherine the Great's attempts to westernize Russia China's identity crises in the nineteenth century and both countries' responses to the end of the Cold War The authors employ a multifaceted method of measuring status factoring in influence and inclusion in multinational organizations military clout and cultural sway among other considerations Combined with historical precedent this socio psychological approach helps explain current trends in Russian and Chinese foreign policy

The Third Revolution Elizabeth C. Economy, 2018-04-04 In The Third Revolution eminent China scholar Elizabeth C Economy provides an incisive look at the transformative changes underway in China today Chinese leader Xi Jinping has unleashed a powerful set of political and economic reforms the centralization of power under Xi himself the expansion of the Communist Party's role in Chinese political social and economic life and the construction of a virtual wall of regulations to control more closely the exchange of ideas and capital between China and the outside world Beyond its borders Beijing has recast itself as a great power seeking to reclaim its past glory and to create a system of international norms that better serves its more ambitious geostrategic objectives In so doing the Chinese leadership is reversing the trends toward greater political and economic opening as well as the low profile foreign policy that had been put in motion by Deng Xiaoping's Second Revolution thirty years earlier Through a wide ranging exploration of Xi Jinping's top political economic and foreign policy priorities fighting corruption managing the Internet reforming the state owned enterprise sector improving the country's innovation capacity enhancing air quality and elevating China's presence on the global stage Economy identifies the tensions shortcomings and successes of Xi's reform efforts over the course of his first five years in office She also assesses their implications for the rest of the world and provides recommendations for how the United States and others should navigate their relationship with this vast nation in the coming years

Advanced Microsystems for Automotive Applications 2015 Tim Schulze, Beate Müller, Gereon Meyer, 2015-06-30 This edited volume presents the proceedings of the AMAA 2015 conference Berlin Germany The topical focus of the 2015 conference lies on smart systems for green and automated driving The automobile of the future has to respond to two major trends the electrification of the drivetrain and the automation of the transportation system These trends will not only lead to greener and safer driving but re define the concept of the car completely particularly if they interact with each other in a synergetic way as for autonomous parking and charging self driving shuttles or mobile robots

Key functionalities like environment perception are enabled by electronic components and systems sensors and actuators communication nodes cognitive systems and smart systems integration The book will be a valuable read for research experts and professionals in the automotive industry but the book may also be beneficial for graduate students

China and EU Antitrust Review of Refusal to License IPR Dr. Tiancheng Jiang, 2015 Striking a proper balance between unilateral exercise of intellectual property rights on the one hand and competition rules on the other hand is not an easy exercise The right owners unilateral behaviour of refusal to license is one such delicate issue particularly for China considering that it has not been clarified within existing competition rules how to assess a right owner's specific unilateral practices In a series of cases the EU courts have established the exceptional circumstances in which the right owners refusal conduct might be considered as an infringement of EU competition rules In general Chinese competition law has been modelled after the EU competition rules This book firstly examines the EU approaches on dominant undertakings refusal to license intellectual property rights and the follow on pricing issue and then explores to what extent the EU model could contribute to China's anti monopoly practice

Multilateral Approach In China's Foreign Policy Joseph Yu-shek Cheng, 2017-12-21 Since the mid 1990s the Chinese authorities have gradually come to embrace multilateralism to realize their basic foreign policy objectives in maintaining a peaceful international environment and enhancing China's international status and influence This embrace is largely based on pragmatic considerations There is no denial however that elements of liberalism and constructivism gradually enter into the considerations of Chinese leaders They accept for example that non traditional security issues can only be tackled through genuine multilateralism This volume carefully examines China's increased participation in multilateral organizations and mechanisms and its efforts to initiate and develop its own discourses on global affairs straddling Asia the Middle East Africa and the Latin American continents China's presence in international multilateral organizations has been providing developing countries a better chance to maintain a balance of power Since China has no ambitious plan to transform the existing international order its increasing enthusiastic engagement of multilateralism is likely to be accepted by the international community

Soft Power and the Worldwide Promotion of Chinese Language Learning Jeffrey Gil, 2017-05-11 The Confucius Institute Project consisting of Confucius Institutes and Classrooms the posting of Chinese language teachers to overseas schools and universities and the Chinese Bridge language competition represents an attempt by China to extend its influence globally through the use of soft power Facilitated by a rapidly increasing demand for Chinese language learning it has established a presence across the globe and made valuable contributions to the learning and teaching of Chinese However this has not necessarily led to an increasingly positive view of China either at a political or a societal level Through an analysis of official documents interviews with those involved a survey of Chinese language learners and a study of academic and media sources the author evaluates the aims of the project and discusses whether these aims are being met

The International Political Economy of the Renminbi Hyoung-kyu

Chey,2021-11-10 Although the internationalization of the Chinese renminbi is an important international political event most of the studies of it place their analytical focuses largely just on China itself the issuer of the currency In contrast this book addresses the question of how foreign states have responded to the renminbi s internationalization during its initial phase through the 2010s and thereby breaks new ground in exploring the international politics of currency internationalization It builds a theoretical framework for analyzing a state s policy toward renminbi internationalization developing the key concept of reactive currency statecraft It then applies this framework to the four select cases of the United Kingdom Japan South Korea and the United States This book reveals that all four of these countries have deliberately utilized their policies related to renminbi internationalization as means of achieving their own foreign policy goals associated with China goals that have been principally economic in some cases but political in others Remarkably the predominant mode of response to the renminbi s internationalization has been accommodative Even the United States and Japan China s chief geopolitical and also international currency rivals have never attempted to actively suppress it This study provides new insights to anyone concerned with the transformation of the world monetary order while also contributing a valuable analysis of the international politics surrounding the rise of China Managing Culture and Interspace in Cross-border Investments

Martina Fuchs,Sebastian Henn,Martin Franz,Ram Mudambi,2017-06-27 This book focuses on the dialectics between spatio organisational gaps and local contexts that characterise cross border investments Interspatial investments be it mergers acquisitions M A or greenfield investments are usually characterised by what is referred to as otherness i e organisational and cultural distances of the firms involved in relation to their regional contexts At the same time economic political and socio cultural linkages are decisive for attracting cross border investments to regions and for providing firms with conditions supportive of their market success As a consequence of being locked into complex structures of proximities cross border investments are situated in contested terrain This terrain triggers learning processes in both regional actors and investors which can result in the convergence of mindsets and organisational issues This book is unique in that it combines interspace defined as the distance between the new owner and the cross border venture place the target region interpretation perception and understanding of the investment by the actors involved and context institutions actor networks and interaction thus offering better understanding of recent processes of globalisation Crossing disciplinary boundaries by integrating economic geography and management studies the volume adopts an innovative and spatially informed perspective on foreign direct investments FDI This perspective will be of great value to scholars students and practitioners The volume is inventive in its approach in that it offers fresh readings from interdisciplinary theoretical approaches and combines these with valuable empirical insights from developed as well as Emerging Economies **Promoting access to medical technologies and innovation** ,2020-08-31 The revised study records the numerous significant developments that we have seen since 2013 These include efforts made towards achieving universal health coverage challenges posed by

antimicrobial resistance the changing disease burden and new global disease threats The study reviews public and private sector innovation models as well as the repercussions of an increasingly diverse medical technologies industry and the rise of innovative and production capacity in developing countries It draws practical lessons from experiences regarding how public health IP trade and competition rules all interact with each other in the broader context of the human rights dimension of health and the United Nations Sustainable Development Goals SDGs And it provides insights on measures to promote innovation and access to medical technologies noting the growing network of free trade agreements and the importance that trade plays for access to medical technologies

Financialisation in the Automotive Industry Marcelo José do Carmo, Mário Sacomano Neto, Julio Cesar Donadone, 2021-07-08 Where presidents or members of affluent families were previously seen it is increasingly the case that car manufacturers are owned by banks and investment funds which have taken control of the entire economic life of these firms This has significant impact on the terms of employment and layoffs wages and precarious work growing inequalities in income strata compensation levels for executives and the implementation of short termist strategies across business operations This book explores this increasing financialisation the predominance of the financial sector over the productive sector in the automotive industry In particular it is shown that the financial operations of these companies through leasing insurance loans and other financial instruments is now much more profitable than the manufacturing aspects of the business which was originally the *raison d'être* for these firms The chapters demonstrate how there are great demands to increase the return to shareholders as a main concern despite other metrics and or other stakeholders The work studies the impact of financialisation at the world's five largest automakers which together represent almost 50% of car production providing an exploratory analysis of profitability shareholder composition compensation to executives workers salaries dividend payments to shareholders and employment Encouraging debate on contemporary economy this book marks a significant addition to the literature on financialisation contemporary forms of capitalism labour and economic sociology more broadly
