Television in Post-Reform China Ying Zhu, 2013-01-11 This book explores the political economic and cultural forces locally and globally that have shaped the evolution of Chinese primetime television dramas and the way that these dramas in turn have actively engaged in the major intellectual and policy debates concerning the path steps and speed of China's economic and political modernization during the post Deng Xiaoping era It intertwines the evolution of Chinese television drama particularly with the ascendancy of the Chinese New Left that favors a recentralization of state authority and an alternative path towards China's modernization and China's current administration's call for building a harmonious society Two types of serial drama are highlighted in this regard the politically provocative dynasty drama and the culturally ambiguous domestic drama The book also provides cross cultural comparisons that parallel the textual and institutional strategies of transnational Chinese language TV dramas with dramas from the three leading centers of transnational television production the US Brazil and Mexico in Latin America and the Korean led East Asia region The comparison reveals creative connections while it also explores how the emergence of a Chinese cultural linguistic market together with other cultural linguistic markets complicates the power dynamics of global cultural flows

Up All Night Lisa Napoli, 2020-05-12 The wild inside story of the birth of CNN and dawn of the age of 24 hour news How did we get from an age of dignified nightly news broadcasts on three national networks to the age of 24 hour news channels and constantly breaking news The answer thanks to Ted Turner and an oddball cast of cable television visionaries big league rejects and nonunion newbies can be found in the basement of an abandoned country club in Atlanta Because it was there in the summer of 1980 that this motley crew launched CNN Lisa Napoli's Up All Night is an entertaining inside look at the founding of the upstart network that set out to change the way news was delivered and consumed and succeeded beyond even the wildest imaginings of its charismatic and uncontrollable founder Mixing media history a business adventure story and great characters this is a fun book on the making of the world we live in now

Words of Fire Anthony C. Collings, 2001-06-01 If journalism is the first draft of history then independent journalists are surely its most daring composers Along such celebrated and high profile figures as Christiane Amanpour and Wolf Blitzer there exists a stratum of journalists self employed working under dire conditions and with minimal resources who often place themselves at ground zero of world events In this gripping account Anthony Collings takes us into the world of independent journalists and the daily challenges they face confronting dictators hostile military and narcoterrorists Unfettered by any ties to those in positions of power these guerrilla journalists are often the first on a story whether reporting on corruption in Mexico organized crime in Russia or sexual scandal in the Middle East and accordingly face the brunt of their subject's wrath Collings who has himself been held captive while on assignment here focuses less on those nations in which the press is either largely free such as the U S or Western European democracies or aggressively restricted as in China and more on those battleground countries where the eventual outcome of the struggle between state and fourth estate remains unclear Relying on interviews professional contacts and his own experiences Collings explores the dilemmas and strategies of journalists who persevere in the face of war repressive governments and criminal aggression with particular emphasis on the role of the Internet At a time when journalism is increasingly a profession under siege Words of Fire forces into the spotlight a more positive side of the profession those who pursue journalism not for profit or fame but as a personal crusade

The Media Were American Jeremy Tunstall,2008 It has become clear that the U S media are no longer increasingly their grip throughout the globe Asia and the Arab Moslem world is virtually saturated with their own national media output Tunstall produces a well written provocative snapshot at global media today His point of view is relentlessly global he considers the role of the media in the collapse of the Soviet Union the ascendance of the Brazilian and Mexican soap opera the increasing strength of Bollywood the national cinema output of india as well as the relative decline in influence of US media Importantly Tunstall focuses on both the nation state and the geographical and cultural region as crucial levels in today s mass media Both the United States and the US mass media have now lost their previous moral leadership Lone American control of the world news flow has ceased today rather than Global media we see a world media system comprised of inter locking national regional cultural systems Tunstall s assessment is a wake up call for insular American media consumers
