

# China: Reform and Reaction

## MAIN IDEA

**CULTURAL INTERACTION** In response to contact with the West, China's government has experimented with capitalism but has rejected calls for democracy.

## WHY IT MATTERS NOW

After the 1997 death of Chinese leader Deng Xiaoping, President Jiang Zemin seemed to be continuing Deng's policies.

## TERMS & NAMES

- Zhou Enlai
- Deng Xiaoping
- Four Modernizations
- Tiananmen Square
- Hong Kong

**SETTING THE STAGE** The trend toward democracy around the world also affected China to a limited degree. A political reform movement arose in the late 1980s. It built on economic reforms begun earlier in the decade. However, although the leadership of the Communist Party in China generally supported economic reform, it opposed political reform. China's Communist government clamped down on the political reformers. At the same time, it maintained a firm grip on power in the country.

## The Legacy of Mao

After the Communists came to power in China in 1949, Mao Zedong set out to transform China. Mao believed that peasant equality, revolutionary spirit, and hard work were all that was needed to improve the Chinese economy.

However, lack of modern technology damaged Chinese efforts to increase agricultural and industrial output. In addition, Mao's policies stifled economic growth. He eliminated incentives for higher production. He tried to replace family life with life in the communes. These policies took away the peasants' motive to work for the good of themselves and their families.

Facing economic disaster, some Chinese Communists talked of modernizing the economy. Accusing them of "taking the capitalist road," Mao began the Cultural Revolution in 1966 to cleanse China of antirevolutionary influences.

## TAKING NOTES

**Following Chronological Order** Use a diagram to show events leading up to the demonstration in Tiananmen Square.
