Modernism in Late-Mao China Ke Song,2023-04-28 This book investigates the architectural history of China in the Mao era 1949 1976 focusing on the rise of modernism in the last seven years of the Cultural Revolution from 1969 to 1976 It highlights the new architecture of this period exemplified by three clusters of buildings for foreign affairs namely buildings for foreign diplomacy in Beijing buildings for foreign trade in Guangzhou and China s foreign aid projects overseas The emergence of new architecture in the early 1970s is closely associated with China s political and diplomatic shift of the time from a radical emphasis on ideological struggle to a dynamic balance between leftist ideology and pragmatic concerns In this context China s relations with the West quickly improved culminating with American president Richard Nixon s visit to China in 1972 The increasing foreign affairs brought new opportunities to Chinese architects who referenced both Western modernism and Chinese architectural traditions to create a new version of Chinese modernism The book brings dimensions of form politics and knowledge to the analysis of architecture to construct an understanding of architectural design as an aesthetic political and intellectual practice **Modernism in Late Mao China** will be an enriching and useful reference for students and scholars who are interested in the global architectural history of the twentieth century especially Cold War modernism

Collecting and Displaying China's "Summer Palace" in the West Louise Tythacott,2017-10-25 In October 1860 at the culmination of the Second Opium War British and French troops looted and destroyed one of the most important palace complexes in imperial China the Yuanmingyuan Known in the West as the Summer Palace this site consisted of thousands of buildings housing a vast art collection It is estimated that over a million objects may have been taken from the palaces in the Yuanmingyuan and many of these are now scattered around the world in

private collections and public museums With contributions from leading specialists this is the first book to focus on the collecting and display of Summer Palace material over the past 150 years in museums in Britain and France It examines the way museums placed their own cultural political and aesthetic concerns upon Yuanmingyuan material and how displays especially those at the Royal Engineers Museum in Kent the National Museum of Scotland and the Musée Chinois at the Château de Fontainebleau tell us more about European representations and images of China than they do about the Yuanmingyuan itself

Enterprise, Organization, and Technology in China Philip Scranton, 2018-12-13 Given the near silence in technological and business history about post World War II socialist enterprises this book gives voice to a generation of Communist China's managers entrepreneurs cadres and workers from the Liberation to the early 1970s Using recently opened online archival resources it details and assesses the course of technical and organizational experimentation at state owned cooperative and private enterprises as the PRC strove to construct a socialist economy through trial and error initiatives Core questions treated are How did Chinese enterprises operate evolve experiment improvise and adjust during the PRC's first generation What technological initiatives were crucial to these processes necessarily developed with limited expertise and thin financial resources How could constructing socialism with Chinese characteristics have helped lay foundations for the post 1980 Chinese miracle as the PRC confidently entered the 21st century while Soviet and Central European socialisms crumbled And what might current day Western managers and entrepreneurs learn from Chinese practice and performance a half century ago Readers can anticipate a granular bottom up analysis of how businesses worked day to day in a planned economy how enterprise practices and technological strategies shifted during the first postwar generation how managers and technicians emerged after the capitalist exodus how organizations experimented and adapted and how the controversies and convulsions of the PRC's early decades fashioned durable technical and organizational capabilities
