China's Gentry, Essays in Rural-urban Relations by Hsiao-Tung Fei. Revised and Edited by Margaret Park Redfield with Six Life-histories of Chinese Gentry Families Collected by Yung-teh Chow and an Introduction by Robert Redfield Xiaotong Fei,Chow Yung-Teh,Robert Redfield,1953 China's Gentry Hsiao-t'ung Fei,1953 **China's Rural Market Development in the Reform Era** Him Chung,2017-11-30 The rural market in China is not only the venue where 60 per cent of the country s 1 3 billion inhabitants buy their daily necessities and sell agricultural products but also a key area of conflict between government control and liberalization policies Previous research on the topic has adopted a purely economic perspective focusing on macro issues such as price control and grain procurement This book focuses instead on peasants the major participants in rural marketing activities Illustrated by two comparative case studies with a diverse level of development

from the Pearl River Delta one of the most prosperous regions in coastal China this book investigates the market hierarchy its change of functions and the interactions between peasants and market outlets In doing so it shows how China s rural market district has changed since the Reform and how these changes affect the marketing activities of peasants China Transformed R. Bin Wong,2018-10-18 The assumption still made in much social science research that Europe provides a universal model of development is fundamentally mistaken according to R Bin Wong The solution is not however simply to reject Eurocentric norms but to build complementary perspectives such as a Sinocentric one to evaluate current understandings of European developments A genuinely comparative perspective he argues will free China from wrong expectations and will allow those working on European problems to recognize the distinct character of Western development

Between Heaven and Modernity Peter J. Carroll,2006 Combining social political and cultural history this book examines the contestation over space history and power in the late Qing and Republican era reconstruction of the ancient capital of Suzhou as a modern city Located fifty miles west of Shanghai Suzhou has been celebrated throughout Asia as a cynosure of Chinese urbanity and economic plenty for a thousand years With the city s 1895 opening as a treaty port businessmen and state officials began to draw on Western urban planning in order to bolster Chinese political and economic power against Japanese encroachment As a result both Suzhou as a whole and individual components of the cityscape developed new significance according to a calculus of commerce and nationalism Japanese monks and travelers Chinese officials local people and others competed to claim Suzhou s streets state institutions historic monuments and temples and thereby to define the course of Suzhou s and greater China s modernity *The Moral Economy of the Peasant* James C. Scott,1977-09-10 James C Scott places the critical problem of the peasant household subsistence at the center of this study The fear of food shortages he argues persuasively explains many otherwise puzzling technical social and moral arrangements in peasant society such as resistance to innovation the desire to own land even at some cost in terms of income relationships with other people and relationships with institutions including the state Once the centrality of the subsistence problem is recognized its effects on notions of economic and political justice can also be seen Scott draws from the history of agrarian society in lower Burma and Vietnam to show how the transformations of the colonial era systematically violated the peasants moral economy and created a situation of potential rebellion and revolution Demonstrating keen insights into the behavior of people in other cultures and a rare ability to generalize soundly from case studies Scott offers a different perspective on peasant behavior that will be of interest particularly to political scientists anthropologists sociologists and Southeast Asianists The book is extraordinarily original and valuable and will have a very broad appeal I think the central thesis is correct and compelling Clifford Geertz In this major work Scott views peasants as political and moral actors defending their values as well as their individual security making his book vital to an understanding of peasant politics Library Journal James C Scott is professor of political science at Yale University **Famine in China and the Missionary** Paul Richard

Bohr,2020-03-17 The most disastrous famine in recent Chinese history took place between 1876 and 1879 afflicting all five provinces of North China Shantung Chihli Honan Shensi and Shansi and claiming no fewer than nine and a half million human lives The hunger pestilence and violence brought about by the famine presented an overwhelming challenge to government and foreign relief efforts Despite these obstacles however Timothy Richard of the Baptist Missionary Society succeeded in organizing an effective systematic scheme of relief distribution in several districts of Shantung and Shansi His work on the scene in turn stimulated the foreign community to organize the China Famine Relief Fund Committee and his method of rendering aid set the pattern of foreign almsgiving which did much to ease the suffering of thousands This study analyzes Richard s role in the North China famine and evaluates his contribution to the relief effort It concentrates on Richard s initial distribution attempts in Shantung 1876 1877 and his more extensive activities in Shansi 1877 1879 By comparing Richard s relief measures with those of the Ch ing government as well as with those of the foreign distributors supported by the China Famine Relief Fund Committee the study attempts to describe the various approaches to the problem of famine relief and to illuminate the many difficulties encountered by Chinese and foreigners in the relief work Richard emerged from the calamity convinced that he must urge China s leaders to eradicate the basic causes of famine and similar natural disasters and to elevate the physical as well as the spiritual welfare of the rural masses **Empire and Local Worlds**

Mingming Wang,2017-03-02 Mingming Wang one of the most prolific anthropologists in China has produced a work both of long term historical anthropology and of broad social theory In it he traces almost a millennium of history of the southern Chinese city of Quangzhou a major international trading entrepot in the 13th century that declined to a peripheral regional center by the end of the 19th century But the historical trajectory understates the complex set of interrelationships between local structures and imperial agendas that played out over the course of centuries and dynasties Using urban structure documentary analysis and archaeological artifacts Wang shows how the study of Quangzhou represents a Chinese template for civilizational studies one distinctly different from Eurocentric models propounded by such theorists as Sahlins Wolf and Elias The Transformation of Governance in Rural China

An Chen,2015 Explores the economic social and financial changes that have transformed China s rural governance over the past twenty years *The Ethnographic Moment*

Robert Redfield,2017-09-08 The first fifty years of the twentieth century were a time of ferment in American anthropology American ethnographic work evolved from the salvage work of professionals affiliated with museums who undertook to document with artifacts and testimony the threatened traditional way of life among the Native American tribes to the establishment of anthropology as a science represented in university departments that sought to describe the ethnographic present of isolated primitive peoples often in distant parts of the world By the beginning of the 1950s cultural anthropology discovered the peasant Robert Redfield himself a leading figure in this paradigm shift challenged anthropology s focus on a static model of the isolated primitive community pointing out the dynamic nature of the little communities he studied in

Mesoamerica These were not isolated communities but rather local traditional cultures located well within the sphere of a complex urban culture In order to distinguish the great tradition deriving from urban centers from the little tradition of a more primitive culture Redfield believed anthropology needed to refer to other disciplines such as theology philosophy economics and sociology In other words anthropology had to develop from the collection of material artifacts to a concern with the immaterial realm of values and ideas This collection of essays and previously unpublished papers *The Ethnographic Moment* tells the story of a remarkable chapter in Redfield's pioneering efforts on what was then an anthropological frontier The present volume covers the years from 1952 to 1958 the last of Redfield's life It focuses solely on his study of peasant communities At the core of the book is his correspondence with the philosopher humanist F G Friedmann who played an important role in Redfield's conceptualization of the complex urban rural continuum that characterizes the peasant's world The volume also includes an autobiographical introduction by Friedmann that illuminates both his own writings and the humanistic background that motivated his study of peasantry

Confucianism Paul R. Goldin,2014-12-05 Confucianism presents the history and salient tenets of Confucian thought and discusses its viability from both a social and a philosophical point of view in the modern world Despite most of the major Confucian texts having been translated into English there remains a surprising lack of straightforward textbooks on Confucian philosophy in any Western language Those that do exist are often oriented from the point of view of Western philosophy or worse a peculiar school of thought within Western philosophy and advance correspondingly skewed interpretations of Confucianism This book seeks to rectify this situation It guides readers through the philosophies of the three major classical Confucians Confucius 551-479 BCE Mencius 372-289 BCE and Xunzi fl 3rd cent BCE and concludes with an overview of later Confucian revivals and the standing of Confucianism today
