**Dictatorship and Information** Martin K. Dimitrov, 2023 Fear pervades dictatorial regimes Citizens fear leaders the regime's agents fear superiors and leaders fear the masses The ubiquity of fear in such regimes gives rise to the dictator's dilemma where autocrats do not know the level of opposition they face and cannot effectively neutralize domestic threats to their rule The dilemma has led scholars to believe that autocracies are likely to be short lived Yet some autocracies have found ways to mitigate the dictator's dilemma As Martin K Dimitrov shows in Dictatorship and Information substantial variability exists in the survival of nondemocratic regimes with single party polities having the longest average duration Offering a systematic theory of the institutional solutions to the dictator's dilemma Dimitrov argues that single party autocracies have fostered channels that allow for the confidential vertical transmission of information while also solving the problems associated with distorted information To explain how this all works Dimitrov focuses on communist regimes which have the longest average lifespan among single party autocracies and have developed the most sophisticated information gathering institutions Communist regimes face a variety of threats but the main one is the masses Dimitrov therefore examines the origins evolution and internal logic of the information collection ecosystem established by communist states to monitor popular dissent Drawing from a rich base of evidence across multiple communist regimes and nearly 100 interviews Dimitrov reshapes our understanding of how autocrats learn or fail to learn about the societies they rule and how they maintain or lose power

Becoming Activists in Global China Andrew Junker, 2019-02-21 Becoming Activists in Global China is the first purely sociological study of the religious movement Falun Gong and its resistance to the Chinese state The literature on Chinese protest has intensively studied the 1989 democracy movement while largely ignoring

opposition by Falun Gong even though the latter has been more enduring This comparative study explains why the Falun Gong protest took off in diaspora and the democracy movement did not Using multiple methods *Becoming Activists in Global China* explains how Falun Gong's roots in proselytizing and its ethic of volunteerism provided the launch pad for its political mobilization Simultaneously diaspora democracy activists adopted practices that effectively discouraged grassroots participation The study also shows how the policy goal of eliminating Falun Gong helped shape today's security focused Chinese state Explaining Falun Gong's two decades of protest illuminates a suppressed piece of Chinese contemporary history and advances our knowledge of how religious and political movements intersect ***China's European Headquarters*** Ariane Knüsel, 2022-04-28 During the Cold War the People's Republic of China used Switzerland as headquarters for its economic political intelligence and cultural networks in Europe Based on extensive research in Western and Chinese archives *China's European Headquarters* charts not only how Switzerland came to play this role but also how Chinese networks were built in practice often beyond the public face of official proclamations and diplomatic interactions By tracing the development of Sino Swiss relations in the Cold War Ariane Knüsel sheds new light on the People's Republic of China's formulation and implementation of foreign policy in Europe Latin America and Africa and Switzerland's efforts to align neutrality humanitarian engagement and economic interests ***Playing by the Informal Rules*** Yao Li, 2019 Sheds new light on social protest and its implications on power rules legitimacy and resistance in modern societies ***Bureaucracies at War*** Tyler Jost, 2024-06-30 Rethinks how bureaucracy shapes foreign policy miscalculation is less likely when political leaders can extract quality information from the bureaucracy ***Global Perspectives in Policing and Law Enforcement*** Jospeter M. Mbuba, 2021-05-11 *Global Perspectives in Policing and Law Enforcement* provides an exposition of policing and law enforcement practices challenges and opportunities in twenty different countries that were carefully selected to represent diverse geographic regions of the world Each chapter presents policing from a different cultural background with diverse historical law enforcement experiences varied social and demographic characteristics and wide ranging approaches to political leadership By examining critical data and highlighting cracks within law enforcement across multiple countries the contributors to this volume have created a framework of policing as it transitions into a modern outfit Divided into parts the book focuses on a large sample of countries from Africa Europe Asia and Latin and Central America North America and the Caribbean as well as Australia and New Zealand Such a broad coverage makes this book a critical reference point for those interested in criminal justice criminology political science anthropology and many others ***Authoritarian Containment*** Marie-Eve Reny, 2018-08-02 In *Authoritarian Containment* Marie Eve Reny examines why local public security bureaus tolerate unregistered Protestant churches in urban China an officially atheist country where religious practice is controlled by the state when the central government considers them illegal She argues that local states tolerate these churches to contain the underground practice of Protestantism Containment necessitates a bargain between informal religious

organizations and the state Even though they are not regulated unregistered churches are allowed to operate conditionally so long as church leaders keep a low profile share information as needed with local authorities and agree that the state will not grant them formal institutional recognition Reny also considers authoritarian regimes other than China that employ a similar strategy to control informal religious communities She focuses on two Middle East cases President Sadat s control of the Muslim Brotherhood in 1970s Egypt and the Jordanian monarchy s containment of jihadi Salafists after 2006 By reducing the incentives for local religious leaders to politicize and inducing such leaders to willingly provide inside information governments can avoid the heavy hand of coercion and forceful co optation Based on extensive fieldwork Authoritarian Containment offers insight into the way authoritarian regimes neutralize underground religious leaders and discourage opposition to the state

**China Reconnects: Joining A Deep-rooted Past To A New World Order** Gungwu

Wang,2019-07-02 The book is engaging informative and provocative and can profitably be read by undergraduates and professors alike You do not have to agree with the dean of China studies to learn from him China Review International The book shows how the Chinese are now confident of their capacity to learn all they need from the developed world and are keen to know which parts of the past they would need to build a modern Chinese civilization They are very conscious of the challenges coming from the United States and are looking for ways and means to respond to a superpower that wants to preserve its dominant position in the international status quo The book seeks to explain what China is doing and what its immediate and long term interests are It is not to defend or judge China It does not employ theoretical frameworks that are not appropriate for describing Chinese conditions It calls for understanding why history is particularly relevant to the Chinese state and most of its people That way we also see how the present and hopes for the future changes our perspectives of the past Related Link s

*Making China Modern* Klaus Mühlhahn,2019-01-14 Thoughtful probing a worthy successor to the famous histories of Fairbank and Spence that will be read by all students and scholars of modern China William C Kirby coauthor of *Can China Lead* It is tempting to attribute the rise of China to Deng Xiaoping and to recent changes in economic policy But China has a long history of creative adaptation In the eighteenth century the Qing Empire dominated a third of the world s population Then as the Opium Wars and the Taiping Rebellion ripped the country apart China found itself verging on free fall More recently after Mao China managed a surprising recovery rapidly undergoing profound economic and social change A dynamic story of crisis and recovery failure and triumph *Making China Modern* explores the versatility and resourcefulness that guaranteed China s survival powered its rise and will determine its future Chronicles reforms revolutions and wars through the lens of institutions often rebutting Western impressions New Yorker A remarkable accomplishment Unlike an earlier generation of scholarship *Making China Modern* does not treat China s contemporary transformation as a postscript It accepts China as a major and active player in the world places China at the center of an interconnected and global network of engagement links domestic politics to international dynamics and seeks to approach

China on its own terms Wen hsin Yeh author of Shanghai Splendor      **China's Infinite Transition and its Limits** Alexei D.
