Consuming China Kevin Latham, Stuart Thompson, Jakob Klein, 2012-08-21 Post Mao China has been characterized in literature and the media as a burgeoning consumer society. *Consuming China* investigates this characterization by examining the cultural significance of consumption and consumerism in the People's Republic of China today. In questioning the notion of consumption, this impressive work suggests that it is not simply a symptom of economic reform within China, neither a product of the emergence and transformation of contemporary Chinese capitalism. Rather, the essays offer a new perspective on Chinese consumption by focusing on more than just consumerism, looking at the practices of consumption in relation to different manifestations of social and cultural change. Drawing on case studies from Taiwan, Hong Kong and the People's Republic of China, *Consuming China* affords a greater understanding of the practice of Chinese consumption and will appeal to China scholars and anthropologists and to those with an interest in cultural and gender studies.

**An Introductory Study on China's Cultural Transformation in Recent Times** Yunzhi Geng, 2014-10-22 This book examines in detail the basic trajectory of the cultural transformation and brings to light the extrinsic conditions and intrinsic mechanisms involved. It focuses on the period from after the Opium Wars to the New Culture Movement, as the New Culture Movement can be considered a pivotal phase in the cultural transformation of modern-day China. The New Culture Movement was a revolutionary eruption triggered by the accumulation of all the new qualitative cultural factors since the Opium Wars. Superficially, the movement's goal seemed to be to overthrow the traditional culture. But in essence, its true objective was to conduct an overall screening of that culture. The book elaborates a broad variety of points in this context, including the ideological and cultural evolution following the Opium Wars, the pressing challenges faced by Zhong Ti, the initial shaping of social, public and cultural spaces, and major trends in ideological and cultural transformation at the end of the Qing Dynasty, the political disarray and conflicts between the new and old ideology in the first years of the Republic, the rise of the New Culture Movement, and the role of conservatism in the transition to a modern culture.

**Media and Cultural**

**Transformation in China** Haiqing Yu, 2009-02-24 This book examines the role played by the media in China's cultural transformation in the early years of the 21st century. In contrast to the traditional view that sees the Chinese media as nothing more than a tool of communist propaganda, it demonstrates that the media is integral to China's changing culture in the age of globalization whilst also being part and parcel of the State and its project of re-imagining national identity that is essential to the post-socialist reform agenda. It describes how the Party state can effectively use media events to pull social, cultural and political resources and forces together in the name of national rejuvenation. However, it also illustrates how non-state actors can also use reporting of media events to dispute official narratives and advance their own interests and perspectives. It discusses the implications of this interplay between state and non-state actors in the Chinese media for conceptions of identity, citizenship and ethics, identifying the areas of mutual accommodation and appropriation as well as those of conflict and contestation. It explores these themes with detailed analysis of four important media spectacles: the media events surrounding the new millennium celebrations, the news reporting of SARS, the media stories about AIDS and SARS, and the media campaign war between the Chinese state and the Falun Gong movement. American Studies of Contemporary China David L. Shambaugh, 2016-09-16 Examines the historical evolution of contemporary China studies in the United States, reflecting the growth and maturation of the field since the Communist Party seized power in 1949. *Visual Culture in Contemporary China I* Zhou Xian, 2023-07-21 As the first volume of a two-volume set that examines the interaction between social transformation and visual culture in contemporary China, this book explores the visual construction of popular culture, avant-garde art and grassroots media culture. Drawing on an approach of Marxist historic materialism and academic resources of sociology, communication and art, this study of contemporary China's visual culture emphasizes two inter-related aspects: the visual construction of society and the social construction of the visual. It seeks to unravel how visual culture is produced and constructed as well as how it reflects the profound social transformation and reshapes people's understanding and experience of modernization. In this volume, the contributors revisit popular culture, avant-garde art and grassroots media culture in contemporary China, analyzing the visual image and representation and visual culture's role in social construction. In doing so, the book also reveals the cultural tension of contemporary China in which the visual aspect figures prominently. This book will serve as an essential read for scholars and students of China studies and cultural studies as well as all levels of readers interested in visual culture in contemporary China. **Study On International Politics In Contemporary China** Yuyan Zhang, 2020-07-14 China's guiding principle for foreign relations and its focus on states and regions has shifted a lot from the first 30 years of the founding of the People's Republic of China (PRC) in 1949 to 1978 and beyond after reform and opening up.
