**China's Provinces in Transition: Inner Mongolia** R. Guo, Luc Guo, 2012-12-22 This volume is one of the book series entitled China's Provinces in Transition This series includes 31 volumes      **Regional Inequality in Transitional China** Felix Haifeng Liao, Yehua Dennis Wei, Li Huang, 2020-09-17 This book investigates uneven regional development in China with particular focus on the cases of Guangdong and Zhejiang provinces which have been at the forefront of debate since Chinese economic reform Rapid economic growth since the opening up of China has been accompanied by significant disparities in the regional distribution of income this book represents one of the most recent studies to present a picture of this inequality Built upon a multi scale and multi mechanism framework it provides systematic examination of both the patterns and mechanisms of regional development and inequality in provincial China emphasizing the effects of economic transition Approaching from a geographical perspective its authors consider the interplay between the local the state and the global forces in shaping the landscape of regional inequality in China Extensive empirical findings will prove useful to those researching other developing countries within the frontier of globalization and economic transition Regional Inequality in Transitional China will appeal to scholars and students of geography economics and Chinese studies more broadly      *Rural Development in Transitional China* Jacob Eyferth, Peter Ho, Eduard Vermeer, 2004-08-02 This book offers an authoritative and in depth analysis of the social and economic changes that have swept through the Chinese countryside in the last twenty years      **CHINAGEM—A Dynamic General Equilibrium Model of China: Theory, Data and Applications** Xiujian Peng, 2023-08-23 This book contains detailed documentation of the CHINAGEM model a large scale dynamic computable general equilibrium CGE model of China and its applications Specifically this book documents the theory and database behind the CHINAGEM model This book explores the closure development for the four simulation modes of the model including historical decomposition forecast and policy simulations the detailed explanation of how to analyze simulation results and the extensions of CHINAGEM and their applications These extensions include several innovative modules and case studies as examples of the application of CHINAGEM This book provides an entry point for CGE modellers to develop their analytical skills This book can also be used as a platform for research institutes to develop CGE models suitable for their research portfolio The module developments included in this book are designed to capture the specific features of the Chinese economy The applications of these modules chosen in the book cover hot policy issues in China and the simulation results have valuable policy implications This book identifies that the CHINAGEM model itself and all the extensions can be used for analysing many new topics and policy issues such as the effects of the USA China trade war the effects of Made in China 2025 Plan as well as China's commitment to the carbon neutrality before 2060 and its economic implications

**Migration Patterns and Intentions of Floating Population in Transitional China** Tiyan Shen, Xin Lao, Hengyu Gu, 2022-07-21 This book investigates domestic migration and migration intentions in China from the individual city and

provincial levels Since the 1990s accompanying the rapid urbanization an important feature of China's social transition is its large scale interregional migration which has reshaped China's economic geography and population distribution and greatly affected the socio economic development The floating population migrants working and living in the destination cities without local hukou have aroused wide public concern in the past decades Based on China's national population census data and China Migrants Dynamic Survey data this book comprehensively employs statistical analysis spatial analysis network analysis econometric and spatial econometric methods to analyze the spatial pattern and influencing mechanism of internal migration and migration intentions of floating population from different levels and different perspectives The research results of this book have significant policy implications for the urban governance on the floating population The novelty of this book is that it comprehensively investigates domestic migration and migration intentions from the individual city and provincial levels combining their spatial patterns and network structures It not only provides a wealth of case studies for domestic migration research in China but also broadens the research scope of spatial demography by employing new methods of spatial econometrics such as MGWR and ESF This book is suitable for undergraduates and graduates majoring in Human Geography Regional Economics Urban Planning and Urban Governance as well as related researchers and practitioners

*Land Use Transitions and Rural Restructuring in China* Hualou Long, 2020-05-27 Intended as a comprehensive guide to the study of land use and rural development this book offers detailed descriptions of land use transitions and rural restructuring To do so it chiefly focuses on three main aspects the first of which is the application of geographical perspectives in order to understand rural issues in connection with urbanization industrialization globalization and rural vitalization strategies in contemporary China Secondly it presents a rich blend of regional and national analyses detailed explorations of local cases and critical and theoretically informed discussions that address historical paths and future projections Lastly it adapts concepts derived from western literature to situations and experiences in rural China and provides empirical evidence from an insider perspective Given its scope the book offers a valuable resource for researchers and for graduate students courses in geography and sociology

*China Rising* David Goodman, Gerald Segal, 2013-07-23 China's dramatic economic growth since the 1970s has seemed inexorable The resulting rise in international profile has provoked a lively argument regarding the fundamental economic and strategic challenges to the rest of the world that China now presents *China Rising* examines the extent to which that country's future foreign policy stance may be shaped by its own agendas and constrained through interdependence and interaction with the outside world In the process it also questions the extent to which the rest of the world can attempt to shape that future to non Chinese interests with any chance of success Most debates regarding China's future international position tend to be polarised between those advocating containment and those wishing to see Beijing given a much freer hand *China Rising* provides a refreshing alternative to both

**The Logic of the Market** Weiying Zhang, 2015-01-20 *The Logic of the Market* by Weiying Zhang considered China's leading market liberal

comprises his most influential essays on economics over the past three decades First published in China in 2010 this revised edition contains three new essays which offer those outside China a deeper understanding of the Chinese economy Market competition is a really just competition to create value for others Only through this approach did the Western economy advance over the past 200 years It is also the reason for China s economic marvel over the past 30 years writes Weiying Readers will appreciate Weiying s ability to address both everyday economic issues and the questions that confront a nation s leaders not the least a nation seeking to escape mass poverty The economic reforms and subsequent growth in China may be the most astonishing and hopeful event of our age Weiying was among the leaders who set China on its path of change Here he elucidates the pitfalls and the progress of economic reform celebrating leaders who mixed sustained idealism with judicious compromise Readers seeking to learn from China s successes will find much of interest here Weiying emphasizes the importance of entrepreneurs in the new China He concludes The key for China as the country with the world s largest population to return to being the largest economy lies in allowing the entrepreneurial spirit to develop the potential of the domestic market For that to happen Weiying recommends that China continue to reduce the state owned economy lessen government control over the economy and over the next 30 years emphasize political reform to build a constitutional democracy His thinking is not limited to China Some of these essays also focus on the global financial crisis how Keynesian policies can only be effective for the short term and will bring long term negative consequences Weiying provides a unique perspective on his country s market economy implementation of economic policies and the potential for Chinese economic development I hope that the logic of the market becomes every person s ideal he writes That is my reason for writing this book

**Inequality and Growth in Modern China** Guanghua Wan, 2008-04-03 This volume provides comprehensive up to date coverage of inequality and poverty issues in China Going beyond standard data sources and using state of art research techniques this volume substantiates a number of findings and conclusions and ensures policy recommendations are reliable and robust
