Organized Loyalty Johan Lagerkvist, 2023-08-21 This book analyses the ideology that China s leader Xi Jinping has crafted during his decade in power China s political system and domestic and foreign policies have between 2012 and 2022 become more defined by the political thought of Xi Jinping the most powerful leader of the Chinese Communist Party since the time of Mao Zedong Today Xi s China is embroiled in superpower rivalry with the United States and its allies Therefore ongoing ideological transformation in the People s Republic is destined to have global repercussions Yet surprisingly the ideological mission of Xi Jinping is poorly understood Based on analysis of Xi Jinping s collected speeches the book argues that China s new state ideology is constructed around the three key concepts of loyalty discipline and greatness Xi s mission is about ideological re orientation and re activation as well as organizational innovation seeking to frame China s national self as a collective unit under one political banner and one leader However despite the monumental Party state effort to boost the new ideology and state scripted moral careers the book contends that Xi Jinping cannot take for granted that political and patriotic loyalty will forever trump the formation of disloyal moral careers in society
