Chinese Religion An Anthology Of Sources:

Chinese Religion Deborah Sommer, 1995 For centuries westerners have referred to China's numerous traditions of spiritual expression as religious, a word born of western thought that cannot completely characterize the passionate writing that fills the pages of this pathbreaking anthology. The first of its kind in well over thirty years, this text offers the student of Chinese ritual and cosmology the broadest range of primary sources from antiquity to the modern era. Readings are arranged chronologically and cover such concepts as Taoism, Confucianism, Buddhism, and even communism. A large number of the selections concern the role of the female in Chinese religion and are either by or about women. Through invocations, poetry, drama, philosophical texts, religious treatises, and modern fiction, students hear the voices of numerous Chinese masters expounding on the movements and traditions that inspired them: the mysterious Tao te ching of Lao Tzu, cloaked in the mists of deepest antiquity; the Analects of the stately, reverent Confucius; Nailing a Stick into Empty Space from The Recorded Conversations of Ch'an Master I hsuan; and many others, including the work of Mencius, Pan Chao, Han Shan, Chang Tsai, Wang Yang-ming, Lu Hsun, and Mao Tse-tung. Fully one third of the translations are new, and each reading is preceded by an introduction that explains its importance and salient features. Complete with a helpful chronology of dynasties and list of possible video sources, this remarkable volume collects under one cover the most significant and influential works of China's dynamic spiritual tradition, making a fundamental contribution to courses in Chinese religion, literature, and history.

Uses humor throughout, allowing students to remain open-minded to the subject. Explains what it means to study religion academically and considers the impact of the study of religion on religion itself. Contains numerous student-friendly features including photos, maps, time lines, side bars, historical profiles, and population distribution figures. Provides classroom users with a lively website: www.wiley.com/go/religiontoolkit, including questions, quizzes, extra material, and helpful primary and secondary sources. *Causality* Jeaneane Fowler, 2020-02-21 This book examines the concepts of cause and effect from two dimensions. The first concerns the macrocosm of the Universe and how each belief system views creation. The second dimension explores the ways in which beliefs about creation influence the microcosmic world in terms of the nature of the self, the proximate goals within each system, the answers each belief system offers to the presence of evil and suffering in existence, and ideas about the ultimate goal of release from them. All these ideas inform and are fundamental to the understanding of the present-day practices of different faiths, presenting challenges for

scriptural testimony balanced with existential living The final two chapters explore current research in physics concerning the beginnings of the cosmos and what implications such research might have for existence within it with the final chapter examining scientific views of the nature of the self Contents include Judaic and Christian Traditions Islam Hinduism Early Buddhism Sikhism Classical Taoism Recycled Stardust Ashes to Ashes and Dust to Atoms The Life and Death of the Self
