Metro Newspaper Journalists in China Zhaoxi (Josie) Liu, 2016-08-25 This book explores how journalists at local metro papers in a south western China metropolis give meaning to their work and how these meanings are shaped by the specific social environment within which these journalists operate These metro papers provide the bulk of daily news to the general public in China yet are often understudied compared to the country s

party news outlets Informed by fieldwork in four metro newspapers the book puts forward a grounded theory for exploring journalists occupational culture the aspiration frustration reconciliation framework *The Transformation of Investigative Journalism in China* Haiyan Wang,2016-04-29 Investigative journalism emerged in China in the 1980s following Deng Xiaoping s media reforms Over the past few decades Chinese investigative journalists have produced an increasing number of reports in print or on air and covered a surprisingly wide range of topics which had been thought impossible by the standards of the Communist era In the 2010s however investigative journalism has been replaced by activist journalism This book examines how with the aid of new media technologies and in response to new calls for social responsibility these new era journalists vigorously seek to expand the scope of their journalism and their capacity as journalists They tend to perceive themselves as more than professional journalists and their activities are not limited to the physical boundaries of newsrooms They are not only detached observers of society but also engaged organizers of social movements they are social activists as well as responsible journalists who challenge state power and the party line and point to the limitations of the more traditional conceptions of journalism in China This book analyzes how journalism in China has been gradually transformed from a tool of the state to a means of broadening calls for democratic reform **Reporting China on the Rise** Yuan Zeng,2019-04-10 Drawing on the structural constructivist framework of journalistic field and habitus *Reporting China on the Rise* examines the internal and external dynamics which are shaping the work of foreign correspondents in China during Xi Jinping s tenure This study presents findings from extensive surveys and interviews with current and former correspondents based in China It aims to explore how they have responded and continue to respond to pressures from within the journalistic field such as a transforming media industry as well as from constant shifts in global geopolitics and China s increasingly restrictive journalistic environment These factors are shown to work together to relationally define the news production practice of these correspondents and ultimately shape the final news product Journalism in modern China has become a widely discussed yet gravely under researched topic both for policy makers and academics *Reporting China on the Rise* seeks to open up discussions around the role of the foreign press in generating meaningful media coverage of this growing superpower It will be an invaluable resource for students and researchers of Journalism and Media Studies Routledge Handbook of Chinese Culture and Society Kevin Latham,2020-02-27 The Routledge Handbook of Chinese Culture and Society is an interdisciplinary resource that offers a comprehensive overview of contemporary Chinese social and cultural issues in the twenty first century Bringing together experts in their respective fields this cutting edge survey of the significant phenomena and directions in China today covers a range of issues including the following State privatisation and civil society Family and education Urban and rural life Gender and sexuality and reproduction Popular culture and the media Religion and ethnicity Forming an accessible and fascinating insight into Chinese culture and society this handbook will be invaluable to students and scholars across a range of disciplines including anthropology sociology area studies history politics and cultural

and media studies *China's Unruly Journalists* Jonathan Hassid, 2015-12-22 Despite operating in one of the most tightly controlled media environments in the world Chinese journalists sometimes take extraordinary risks braving the perils of job loss or imprisonment to report sensitive stories As a result a group of journalists stands at the forefront of some of China's most dramatic social and political changes This book is the first to systematically explore why some Chinese journalists decide to challenge Communist Party power holders and the censorship system Based on 18 months of fieldwork interviews with over 70 Chinese journalists and academics and analysis of nearly 20 000 Chinese newspaper articles it investigates the motivation behind news workers who often brave the perils of challenging an authoritarian system Rather than being driven by commercial pressures or financial inducements the book suggests that many aggressive journalists push the limits of acceptable coverage because of their sense of public spirit and their professional role orientation It argues that ultimately these advocate journalists matter because they challenge specific policies and are changing China one article at a time By investigating these path breaking journalists the book engages with literature across the social sciences on contentious politics and social movements political communication media theory and the sociology of professions Therefore it will be of great interest to students and scholars of Chinese Studies Politics and Media Studies Global Media and Public Diplomacy in Sino-Western Relations Jia Gao, Catherine Ingram, Pookong Kee, 2016-07-22 Many researchers and China observers would agree that understanding how China pursues global communication is critical for assessing its growing soft power While soft power as a concept has in many ways become almost inextricably linked with the PRC's People's Republic of China international diplomacy of the twenty first century the specific role of global media within soft power diplomacy and the corresponding influence of Western mediated public diplomacy within China is a lacuna that has remained largely unexplored Moreover the different Chinese and Western perspectives on the influence of global media and public diplomacy on Sino Western relations and the changing role of global media on this crucial aspect of international politics have not yet been critically examined This volume presents a broad social science audience with recent innovative scholarship and research findings on global media and public diplomacy concerning Sino Western relations It focuses on the implicit nexus between global media and public diplomacy and their actual utilisation in and impact on the shifting relationships between China and the West Special attention is given to the changing nature of globalised media in both China and Western nations and how globalised media is influencing shaping and changing international politics The contributions delve deeply into both theory and practice and focus especially upon the analysis of several key aspects of the issue from both Chinese and Western perspectives This combination of approaches distinguishes the volume from most other published works on the topic and greatly enriches our knowledge base in this important contemporary field **Media Politics in China** Maria Repnikova, 2017-06-15 Who watches over the party state In this engaging analysis Maria Repnikova reveals the webs of an uneasy partnership between critical journalists and the state in China More than merely a passive mouthpiece or a dissident

voice the media in China also plays a critical oversight role one more frequently associated with liberal democracies than with authoritarian systems Chinese central officials cautiously endorse media supervision as a feedback mechanism as journalists carve out space for critical reporting by positioning themselves as aiding the agenda of the central state Drawing on rare access in the field Media Politics in China examines the process of guarded improvisation that has defined this volatile partnership over the past decade on a routine basis and in the aftermath of major crisis events Combined with a comparative analysis of media politics in the Soviet Union and contemporary Russia the book highlights the distinctiveness of Chinese journalist state relations as well as the renewed pressures facing them in the Xi era **Critical Perspectives on**

practice without it This rich and insightful guide will prove indispensable for anyone interested in understanding the practice of journalism **Journalistic Practices in Restrictive Contexts** Banafsheh Ranji, 2022-09-01 Based on fieldwork conducted in Iran this book discusses how it is possible for journalism to exist and function in a restrictive context The book brings together a range of structural macro organizational meso and individual micro processes to analyze journalistic practice in a politically restrictive setting a context thus far dominated by structural explanations Using Pierre Bourdieu's work as a starting point Banafsheh Ranji develops an explanatory framework for how Iranian journalists navigate the daily minefield of their professional environment The analysis sheds light on the everyday reality of journalism in Iran addressing factors that hinder journalists' work while also showing how journalists use a set of double game strategies to simultaneously circumvent constraints and avoid retaliation Moving beyond notions of censorship and repression that accompany discussions of journalism in such settings the book instead focuses on how we may think of critical journalism professionalism and journalistic power agency and autonomy in restrictive contexts Offering powerful insights into the realities of journalism in a tightly controlled environment this book will be a key resource for scholars and students of journalism media and communication studies political science sociology Iranian studies and Middle East studies
