Henriks ambitions were different than anyone else in his field or as a matter of fact in the world. He could have simply taken the road to success and had an illustrious career as a neurosurgeon with a model wife, four children, and a beautiful home in the suburbs, but he wanted more and was driven by a force that could not be explained. A force to conquer the human brain and communicate with it in ways that would change the world as we know it today. His early experiments had already proven that he could retrieve the memories of the dead, but now he had more ambitious goals. He was on a quest to capture the memories of the living and ultimately provide his subjects with new memories, all without harming them. Memories that he had retrieved from previous subjects. Unfortunately, he could have never predicted the casualties that would occur in the wake of his success.

China Airborne James Fallows, 2013-02-26

From one of our most influential journalists, here is a timely, vital, and illuminating account of the next stage of China's modernization: its plan to rival America as the world's leading aerospace power and to bring itself from its low-wage past to a high-tech future. In 2011, China announced its twelfth Five Year Plan, which included the commitment to spend a quarter of a trillion dollars to jumpstart its aerospace industry. In *China Airborne*, James Fallows documents for the first time the extraordinary scale of China's project, making clear how it stands to catalyze the nation's hyper-growth and hyper-urbanization, revolutionizing China in ways analogous to the building of America's transcontinental railroad in the nineteenth century. Completing this remarkable picture, Fallows chronicles life in the city of Xi'an, home to 250,000 aerospace engineers and assembly line workers, and introduces us to some of the hucksters, visionaries, entrepreneurs, and dreamers who seek to benefit from China's pursuit of aeronautical supremacy. He concludes by explaining what this latest demonstration of Chinese ambition means for the United
